NEW QUESTION # 28

Refer to the exhibit.

What is the minimal Cisco Meraki Insight licensing requirement?

- A. A single Meraki Insight license must be configured on network B to gain Web App Health visibility on network B.
- B. Two Meraki Insight licenses must be configured on network A and a single license must be configured on network B, to gain Web App Health visibility on network B.
- C. A single Meraki Insight license must be configured on network A to gain Web App Health visibility on network B.
- D. A single Meraki Insight license must be configured on network A, and a single license must be configured on network B, to gain Web App Health visibility on network B.
- E. Two Meraki Insight licenses must be configured on network A to gain Web App Health visibility on network B.

Answer: A

Explanation:

Explanation

If you only need traffic statistics from your spoke site clients then you only need to enable insight on the spoke network as the hub site will not gather data for remote sites.

<https://community.meraki.com/t5/Wireless-LAN/Meraki-Insight-Licensing/m-p/152684> A license is only required for those networks where Meraki Insight functionality is desired. One license is required per network, regardless of whether that network has a single MX or HA pair. Licenses can be moved between networks, but historical data for the old network will be lost.
