

# Actual H12-323\_V2.0 Test Answers, H12-323\_V2.0 Test Labs

Pass Huawei H12-323\_V2.0-ENU Exam | Latest H12-323\_V2.0-ENU Dumps & Practice Exams  
- Cert007

1. The CloudCampus APP mainly includes two functional modules: network and tools.

Which of the following descriptions of the functions under the tool module is wrong?

- A. Check terminal: obtain information about illegally accessed terminals
- B. Wi-Fi status: You can view the current Wi-Fi status information, such as signal strength, channel, negotiation rate, etc.
- C. Game test: Test network jitter and packet loss rate
- D. Test network speed: only supports Internet speed test

**Answer: D**

2. A user views the domain management template information on WAC as follows. Which of the following descriptions is wrong?

- A. The current 4.9G frequency band is not enabled
- B. The current country code is China's country code. If you want to change it, you can use the command country-code to configure it.
- C. The current 5G RF tuning bandwidth is 20 MHz
- D. The current channel loading mode is outdoor mode

**Answer: A**

3. When there are many users in the WLAN network, such as in high-density scenarios, as the number of online users increases, the fierce competition for channels between users leads to poor Internet access quality for each user. In order to ensure the Internet access experience of online users, the user connection admission control (CAC) function can be deployed.

Which of the following descriptions about the user CAC function is wrong?

- A. CAC uses two thresholds to control the access of new users and roaming users respectively.
- B. When a roaming user accesses the radio, the roaming user can access the radio as long as the roaming user threshold is not reached.
- C. When most users use the same service type and the service traffic is average, it is recommended to use the user CAC function based on terminal SNR
- D. When a new user accesses, the AP checks whether the current number of users or the terminal signal-to-noise ratio reaches the threshold for new users. If so, the new user's access is denied and the SSID can be hidden.

**Answer: C**

4. CampusInsight supports application analysis, monitors network-wide applications, and visualizes overview data such as application numbers and traffic. This function relies on the device reporting traffic statistics to CampusInsight, which supports two types of traffic statistics reporting: NetStream-based reporting and application-based reporting.

When selecting application-based reporting, which of the following functions needs to be enabled on the wireless controller?

- A. DFI
- B. RF Tuning
- C. SAC
- D. DA channel scan

**Answer: C**

You may urgently need to attend H12-323\_V2.0 certificate exam and get the certificate to prove you are qualified for the job in some area. If you buy our H12-323\_V2.0 study materials you will pass the test almost without any problems. Our H12-323\_V2.0 study materials boost high passing rate and hit rate so that you needn't worry that you can't pass the test too much. To further understand the merits and features of our H12-323\_V2.0 Practice Engine you could look at the introduction of our product in detail.

The H12-323\_V2.0 Exam is a computer-based exam and consists of 60 questions that need to be answered in 90 minutes. H12-323\_V2.0 exam is available in English and Chinese languages and can be taken at any Huawei Authorized Learning Partner (HALP) or Pearson VUE test center. The passing score for the exam is 600 out of 1000.

Earning the Huawei H12-323\_V2.0 certification can open up new career opportunities for you in the wireless networking domain. HCIP-WLAN V2.0 certification is recognized globally and can help you stand out in the job market. Moreover, it can also help you enhance your existing skills and knowledge in WLAN technologies, which can make you a valuable asset to any organization that relies on wireless networking solutions.

## Huawei H12-323\_V2.0 Test Labs | H12-323\_V2.0 Exam Material

Under the instruction of our H12-323\_V2.0 exam torrent, you can finish the preparing period in a very short time and even pass the exam successful, thus helping you save lot of time and energy and be more productive with our HCIP-WLAN V2.0 prep torrent. In fact the reason why we guarantee the high-efficient preparing time for you to make progress is mainly attributed to our marvelous organization of the content and layout which can make our customers well-focused and targeted during the learning process with our H12-323\_V2.0 Test Braindumps.

### Huawei HCIP-WLAN V2.0 Sample Questions (Q313-Q318):

#### NEW QUESTION # 313

What are the benefits of using the CloudCampus APP for WLAN planning and management?  
(Choose two)

- A. Seamless integration with third-party applications
- B. Real-time troubleshooting of APs
- C. Ability to predict future network traffic
- D. Centralized configuration and monitoring

Answer: B,D

#### NEW QUESTION # 314

An engineer is deploying a wireless network. Guest access uses Portal authentication, the authentication point is the wireless controller, and the authentication server uses iMaster NCE- Campus. The contents of the Portal server template configured on the wireless controller are as follows. Which of the following descriptions of the configuration are correct? (Multiple choice)

- A. The IP address for communication between the device and the Portal server is 10.10.10.254
- B. The URL redirected to the user will contain the ssid name
- C. The IP address of the Portal server is 10.23.200.1
- D. The port number for processing Portal protocol packets on the device is 50200

Answer: A,B,C,D

#### NEW QUESTION # 315

When planning the network for an education scenario, which of the following descriptions of the sub-scenario network planning solutions are correct? (Multiple choice)

- A. In a normal classroom, it is recommended to deploy one AP for every 100 students.
- B. In an independent office scenario, the area of a single room is usually less than 30 square meters. It is recommended to deploy one AP in each room.
- C. In a lab scenario, if the room area is less than 120 square meters, deploy one AP in each room
- D. In an open office scenario, if the area of a single room is less than 120 square meters, it is recommended to deploy one AP.

Answer: A,B,C,D

#### NEW QUESTION # 316

Which of the following authentication methods is generally used for newly built networks, concentrated users, and strict information security requirements?

- A. MAC-first Portal authentication
- B. MAC Authentication
- C. Portal Authentication
- D. 1X Authentication

Answer: D

### NEW QUESTION # 317

Which of the following WAC high-reliability networking methods can support WAC remote deployment? (Multiple choice)

- A. Dual-link cold backup
- B. VRRP hot backup
- C. N+1 backup
- D. Dual-link hot backup

**Answer: A,C,D**

### NEW QUESTION # 318
