So why are you still hesitating for purchasing our Plat-UX-102 Guide Torrent? Your bright future is starting from here!

Salesforce Certified Platform Strategy Designer Sample Questions (Q90-Q95):

NEW QUESTION # 90

Cloud Kicks (CK) is committed to making its new Commerce Cloud accessible to everyone. Which consideration should CK make when delivering this solution?

- A. Accessibility needs to be integrated throughout the entire project lifecycle.
- B. Integrated accessibility evaluation methodologies are not helpful in this context.
- C. Adequate accessibility measures make usability testing redundant.

Answer: A

Explanation:

The consideration that CK should make when delivering this solution is that accessibility needs to be integrated throughout the entire project lifecycle. Accessibility refers to the design and development of products or services that are usable by everyone, regardless of their abilities or disabilities. Accessibility needs to be considered and incorporated from the beginning to the end of the project, not as an afterthought or a separate process. This helps ensure that the solution meets the standards and guidelines for accessibility, and provides a positive and inclusive experience for all users. <https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/integrate-accessibility-throughout-the-entire-project-lifecycle>

NEW QUESTION # 91

Cloud Kicks wants to design a new line of service and has decided to conduct a Consequence Scanning workshop to assess the planned service development roadmap.

Which types of outcomes should result from a Consequence Scanning workshop?"

- A. Issues to stop, start, or continue
- B. Issues to act on, influence, or monitor
- C. Issues to accept, object., or withhold

Answer: B

Explanation:

A Consequence Scanning workshop is a method that helps assess the potential positive and negative impacts of a planned service or product on different stakeholders and scenarios. The outcomes of this workshop are issues to act on, influence, or monitor, which help prioritize actions and mitigate risks. <https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/conduct-a-consequence-scanning-workshop>

NEW QUESTION # 92

Cloud Kicks (CK) is interested in collecting data passively from customers while they are exercising in the company's latest tours plans to collect heart rate and activity levels and then overlay this data with self-reported weight, age, and health behavior information to provide fitness recommendations What should a strategy designer recommend before CK commits to this project?

- A. Global Trend Analysis
- B. Consequence Scanning Workshop
- C. User Acceptance Testing

Answer: B

Explanation:

A strategy designer should recommend a Consequence Scanning workshop before CK commits to this project. A Consequence Scanning workshop is a method to identify and mitigate potential negative consequences of a product or service, such as privacy, security, or social issues. It involves mapping out the intended and unintended outcomes of the product or service, assessing their likelihood and severity, and devising actions to prevent or reduce harm. User Acceptance Testing or Global Trend Analysis may provide some insights, but they do not address the ethical implications in a systematic and proactive way.

NEW QUESTION # 93

A strategy designer creates a bridge from the project vision to product development through prioritization.

Which factor should be considered to minimize cost and maximize value?

- A. Effort
- B. Velocity
- C. Usability

Answer: A

Explanation:

Effort is a factor that should be considered to minimize cost and maximize value when prioritizing ideas or features. Effort refers to the amount of time, resources, or complexity required to implement a solution. It helps estimate the cost-benefit ratio of each solution, and select the ones that deliver the most value with the least effort.

<https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/prioritize-ideas-with-a-priority-matrix>

NEW QUESTION # 94

Cloud Kicks (CK) has noticed that users struggle to find the information they are looking for via the company's website navigation menu. CK's strategy designer asks the design team to revise the menu by co-designing it with end users.

Which technique should be used to do this?

- A. Consequence scanning
- B. Heuristic review
- C. Card sorting

Answer: C

Explanation:

Card sorting is a technique that should be used to co-design the website navigation menu with end users. Card sorting is a method that involves asking users to organize items into groups or categories, and label them according to their preferences. It helps understand how users think about the information architecture and structure of a website, and design a menu that is intuitive and user-friendly. <https://trailhead.salesforce.com/en/content/learn/modules/salesforce-strategy-designer-certification-prep/conduct-a-card-sorting-session>
