APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q85-Q90):

NEW QUESTION # 85

According to the DSDM principle 'Never Compromise Quality, when should the overall level of quality to be delivered within the solution be agreed?

- A. When the Business Advisor is available
- B. During evolutionary development
- C. Whenever the level of solution quality is known.
- **D. At the start of the project**

Answer: D

Explanation:

According to the DSDM principle 'Never Compromise Quality,' the overall level of quality to be delivered within the solution should be agreed at the start of the project⁵. This principle ensures that quality is not compromised to recover from deviations; instead, the scope of the project will be dynamic⁶.

NEW QUESTION # 86

What is the purpose of the Foundations Summary?

- A. To define the scope of the requirements that the project needs to address
- B. To document how stakeholders will be engaged and standards that will be applied.
- C. To provide enough information to decide whether the project is likely to deliver return on investment
- D. To define the tools, techniques, customer, practices and standards that will be applied

Answer: C

Explanation:

The purpose of the Foundations Summary in AgilePM is to provide enough information to decide whether the project is likely to deliver a return on investment. This document serves as a comprehensive overview of the project's viability, including a high-level understanding of the business case, objectives, scope, and risks. It ensures that all stakeholders have a clear understanding of the project's potential value and feasibility before significant resources are committed.

NEW QUESTION # 87

Considering the value statements in the Agile Manifesto which of the following Documents should only be created where they add value to the project Documents can be created but should never be used to form a contract It is vital that any documents created are visible to, and understood by, [stakeholders/team] High-level documents can be created early in a project to help support planning and understanding

- A. 1, 2, 3
- B. 1, 2, 4
- C. 2, 3, 4
- D. 1, 3, 4

Answer: D

Explanation:

The Agile Manifesto values "working software over comprehensive documentation," but does not reject documents; it promotes fit-for-purpose documentation that adds value. AgilePM echoes this with lightweight, high-value artifacts (e.g., Business Case, Foundations summary, acceptance criteria) to support clarity and governance "without excessive bureaucracy." Therefore (1) is true: create documents when they add value. (3) is true: documents must be visible and understood by those who use them to collaborate and decide; transparency is essential. (4) is also true: high-level documents early (vision, scope boundaries, approach) support planning, alignment, and later refinement. (2) is false: agile does not prohibit contracts; it values customer collaboration over contract negotiation, yet recognizes contracts may be necessary and useful when framed to enable change. Consequently, the correct set is 1, 3, and 4, i.e., C.

NEW QUESTION # 88

Which of the following are recognized DSDM styles of Timebox?

1. Unstructured
2. Consolidated

- A. Both 1 and 2 are true
- B. Only 1 is true
- C. Only 2 is true
- D. Neither 1 or 2 is true

Answer: A

Explanation:

DSDM recognizes two styles of Timebox: a structured Timebox and a free format Timebox¹. The structured Timebox is the original DSDM-style Timebox, which provides a standard, repeatable internal structure to a Timebox. The free format Timebox allows more flexibility

NEW QUESTION # 89

Which of the following statements about a communication plan are true?

- * Same overall format for all change initiatives.
- * Content will differ depending on the scale and complexity of change.
- A. Only 1 is true.
- **B. Only 2 is true.**
- C. Neither 1 nor 2 is true.
- D. Both 1 and 2 are true.

Answer: B

Explanation:

* Statement 1: Incorrect. Communication plans should be tailored to the specific context of each change initiative, as a one-size-fits-all approach does not work.

* Statement 2: Correct. The scale and complexity of change will dictate the content and level of detail in the communication plan.
