#### NEW QUESTION # 39

You need to select the appropriate page types to solve the reporting requirements.

Which page types should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

For the requirements provided, the appropriate page types should be selected as follows:

- \* Display relevant insights in the Housekeeping Role Center: `HeadlinePart`
- \* Display the additional information for the Room table: `FactBox`
- \* Configure the first installation: `StandardDialog`

Comprehensive Detailed Explanation In the context of Microsoft Dynamics 365 Business Central, page types are crucial for determining how information is presented to the user.

- \* `HeadlinePart`: This page type is designed to display key data and insights in a concise and visually appealing manner, often used in Role Centers to highlight important information. It is suitable for the Housekeeping Role Center to display relevant insights.
- \* `FactBox`: This page type is used to display supplementary information related to a selected record in the main part of the page. It's often used to show additional details about a record in a list, card, or document page. In this scenario, it is suitable for showing additional information about a specific Room when viewing the Room table.
- \* `StandardDialog`: This is a page type that provides a modal dialog for user interaction, commonly used for setup wizards, confirmations, and input forms that require user action before proceeding. This is appropriate for configuring the first installation, where a step-by-step guided interaction is necessary.
