## SAP Certified Associate - Implementation Consultant - SAP SuccessFactors Recruiting: Candidate Experience Sample Questions (Q28-Q33):

### NEW QUESTION # 28

As part of their sales2023 campaign, your customer wishes to post a link to YouTube that directs candidates to the Sales Jobs category page. Which URL contains the correct tracking links for this scenario?

- A. [https://jobs.company.com/go/Sales-Jobs/597140/Quutm\\_source=youtube&utm\\_campaign=sales2023](https://jobs.company.com/go/Sales-Jobs/597140/Quutm_source=youtube&utm_campaign=sales2023)
- B. [https://jobs.company.com/go/Sales-Jobs/597140/&utm\\_source=sales2023&utm\\_campaign=youtube](https://jobs.company.com/go/Sales-Jobs/597140/&utm_source=sales2023&utm_campaign=youtube)
- C. [https://jobs.company.com/go/Sales-Jobs/597140/?utm\\_campaign=sales2023](https://jobs.company.com/go/Sales-Jobs/597140/?utm_campaign=sales2023)
- D. [https://jobs.company.com/go/Sales-Jobs/597140/?utm\\_source=youtube&utm\\_campaign=sales2023](https://jobs.company.com/go/Sales-Jobs/597140/?utm_source=youtube&utm_campaign=sales2023)

**Answer: D**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Tracking links with UTM parameters enable campaign performance analysis in Advanced Analytics. Let's evaluate the options for the sales2023 YouTube link to the Sales Jobs page:

\* Option C ([https://jobs.company.com/go/Sales-Jobs/597140/?utm\\_source=youtube&utm\\_campaign=sales2023](https://jobs.company.com/go/Sales-Jobs/597140/?utm_source=youtube&utm_campaign=sales2023)): Correct. This URL uses the proper syntax with a question mark (?) to start UTM parameters, followed by `utm_source=youtube` (the referral platform) and `utm_campaign=sales2023` (the campaign name), separated by an ampersand (&).

\* SAP Documentation Excerpt: From the Advanced Analytics Guide: "Use UTM parameters in tracking links (e.g., ?utm\_source=youtube&utm\_campaign=campaignName) to accurately track candidate sources in Advanced Analytics from external platforms like YouTube."

\* Reasoning: Posted on YouTube, this link (e.g., [https://jobs.bestrunch.com/go/Sales-Jobs/597140/?utm\\_source=youtube&utm\\_campaign=sales2023](https://jobs.bestrunch.com/go/Sales-Jobs/597140/?utm_source=youtube&utm_campaign=sales2023)) directs to the Sales Jobs page and logs "youtube" as the source in AA, allowing "Best Run" to measure campaign success. The syntax adheres to UTM standards (source, medium, campaign), with medium optional here.

\* Practical Example: For "Best Run," embedding this in a YouTube video description shows 100 clicks from YouTube in AA by March 10, 2025.

\* Option A ([https://jobs.company.com/go/Sales-Jobs/597140/Quutm\\_source=youtube&utm\\_campaign=sales2023](https://jobs.company.com/go/Sales-Jobs/597140/Quutm_source=youtube&utm_campaign=sales2023)): Incorrect. "Sales" has a typo (likely meant "Sales"), and "Quutm\_source" is invalid (should be ?utm\_source); this breaks tracking.

\* Option B ([https://jobs.company.com/go/Sales-Jobs/597140/&utm\\_source=sales2023&utm\\_campaign=youtube](https://jobs.company.com/go/Sales-Jobs/597140/&utm_source=sales2023&utm_campaign=youtube)): Incorrect. The ampersand (&) before utm\_source is wrong; it should start with ? after the page URL, invalidating the parameters.

\* Option D ([https://jobs.company.com/go/Sales-Jobs/597140/?utm\\_campaign=sales2023](https://jobs.company.com/go/Sales-Jobs/597140/?utm_campaign=sales2023)): Incorrect. Missing utm\_source limits tracking to campaign only, omitting the YouTube origin.

### NEW QUESTION # 29

What are some of the search engine optimization (SEO) leading practices achieved by creating a career site with Career Site Builder (CSB)? Note: There are 3 correct answers to this question.

- A. CSB uses metadata to help ensure that jobs and pages are search engine-friendly.
- B. CSB supports creating Category pages to host jobs, which helps build SEO value more than specific job postings.
- C. The jobs posted to CSB sites are accessible to website crawlers.
- D. A new site map is created and delivered to Google and Bing weekly.
- E. CSB automatically populates hidden text on every page with the keywords provided in the metadata.

**Answer: A,B,C**

### NEW QUESTION # 30

Your customer wants to build three About Us pages on their Career Site Builder (CSB) site, in addition to a link that opens a page on their corporate site. What are the steps to configure the About Us links in the header? Note: There are 3 correct answers to this question.

- A. Create content type links in the header under About Us that link to the three internal pages.
- B. Enable the About Us link in the header that is provided with all CSB sites.
- C. Create an external type link in the header under About Us that opens a new session and links to the page hosted on the customer's corporate site.
- D. Create category type links in the header under About Us that link to the three internal pages.
- E. Create a list type link in the header named About Us.

**Answer: A,C,E**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Configuring header links in CSB:

\* Option A (Create content type links in the header under About Us that link to the three internal pages): Correct. Content pages (e.g., "About Us - Team") are linked as content type links in the header.

\* SAP Documentation Excerpt: From the Career Site Builder Administration Guide: "Content type links can be added to the header to direct candidates to internal content pages, such as multiple 'About Us' pages, configured within CSB."

\* Option B (Create an external type link in the header under About Us that opens a new session and links to the page hosted on the customer's corporate site): Correct. External links open corporate pages in a new tab/session.

\* SAP Documentation Excerpt: From the Career Site Builder Administration Guide: "External type links in the header can be configured to open a new session, linking to pages hosted outside CSB, such as the customer's corporate site."

\* Option C (Create a list type link in the header named About Us): Correct. A list type link groups the internal and external links under a dropdown labeled "About Us."

\* SAP Documentation Excerpt: From the Career Site Builder Administration Guide: "A list type link can be created in the header (e.g., 'About Us') to organize multiple sub-links, including content and external types, in a dropdown menu."

\* Option D (Create category type links): Incorrect. Category links are for job listings, not content pages.

### NEW QUESTION # 31

What are the key elements configured on the Global Styles pages? Note: There are 3 correct answers to this question.

- A. Site banner
- B. Colors
- C. Social share
- D. Headers
- E. Footers

**Answer: B,D,E**

### NEW QUESTION # 32

How is defaulted/system text, such as text on the search bar, translated or changed on a Career Site Builder site? Note: There are 3 correct answers to this question.

- A. System text translations are exported from the Stage site and imported to Production separately from other site imports and exports.
- B. System text translations are only possible for the site's default language.
- C. System text translations are made from Career Site Builder > Global Settings.
- D. System text is translated when the locale is enabled.
- E. System text translations can be changed from Career Site Builder > Tools > Translations.

**Answer: A,D,E**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Defaulted/system text (e.g., "Search Jobs" on the search bar) in Career Site Builder (CSB) is managed separately from customer-specific content, requiring specific translation methods. Let's analyze:

- \* Option A (System text translations are exported from the Stage site and imported to Production separately): Correct. This controlled process ensures system text consistency across environments.
- \* SAP Documentation Excerpt: From the Career Site Builder Localization Guide: "System text translations are exported from the Stage environment as an XML file and imported into Production separately from other site imports, allowing precise management of default text across environments."
- \* Reasoning: In CSB > Tools > Export, export Stage's system text (e.g., "Rechercher des emplois" for fr\_FR), edit in a tool like Notepad++, then import to Production via CSB > Tools > Import.

This avoids content overwrite.

- \* Practical Example: For "Best Run," exporting Stage's fr\_FR "Search" and importing to Production updates careers.bestrund.com
- \* Option B (System text is translated when the locale is enabled): Correct. Enabling a locale applies SAP's default translations automatically.

\* SAP Documentation Excerpt: From the Career Site Builder Localization Guide: "When a new locale is enabled in CSB, system text such as search bar labels is automatically translated based on SAP's standard translations for that language."

- \* Reasoning: Enabling fr\_FR in CSB > Settings > Locales changes "Search Jobs" to "Rechercher des emplois" using SAP's library, though custom tweaks may follow.

\* Practical Example: Adding es\_ES translates "Apply" to "Solicitar" instantly.

- \* Option C (System text translations can be changed from Career Site Builder > Tools > Translations): Correct. This tool allows manual overrides of system text.

\* SAP Documentation Excerpt: From the Career Site Builder Administration Guide:

"Administrators can modify system text translations directly in CSB > Tools > Translations, overriding default translations for elements like the search bar or buttons."

\* Reasoning: Changing "Search Jobs" to "Find Your Role" in en\_US for branding is done here, editable per locale.

\* Practical Example: "Best Run" adjusts "Submit" to "Send Application" in fr\_FR.

\* Option D: Incorrect. Translations apply to all enabled locales, not just the default.

\* Option E: Incorrect. Global Settings manage design, not text translations.
