Oracle GoldenGate 19c Implementation Professional Sample Questions (Q137-Q142):

NEW QUESTION # 137

Which transactions are captured if you ADD EXTRACT with BEGIN NOW at 1:00 PM, but START EXTRACT at 2:00 PM?

- A. Only transactions that started before 1:00 PM and committed after 1:00 PM
- **B. Transactions that started at or after 1:00 PM**
- C. Transactions that started before 1:00 PM and committed after 2:00 PM
- D. Only transactions that started at or after 2:00 PM

Answer: B

Explanation:

When you run ADD EXTRACT ... BEGIN NOW at 1:00 PM, GoldenGate records the current CSN/SCN as the starting point. So even if you start the Extract later (e.g., at 2:00 PM), it will capture transactions that started at or after 1:00 PM, ensuring no changes are missed from the defined start point.

NEW QUESTION # 138

A macro is a built-in automation tool that enables you to call a stored set of processing steps. It can consist of a set of parameters that can be referenced from within a parameter file. What is true about the parameters of a macro?

- **B. You can reuse a group of parameters in commands and functions by using a macro.**
- C. You cannot have macros in a GLOBALS parameter file.
- D. The parameters in a macro cannot be dynamic parameters.

A macro in Oracle GoldenGate lets you define a reusable set of parameters that can be inserted into multiple parameter files or locations, promoting consistency and efficiency in Extract or Replicat configurations.

Initial Load is a process of extracting data records from the source database and loading those records onto the target database. There are many advantages in using GoldenGate to obtain the data from the source and load the records onto the target. What describes the advantage of continuing to make data changes on the source database while loading data onto the target database?

- A. Enable change delivery to handle collisions with initial load.
- B. Enable the LGWR to indicate in the transaction log when initial load commenced.
- **C. Enable data changes on source tables without locking tables.**
- D. Enable Extract to indicate in the trail file when initial load commenced.

Answer: C
