SAP Certified Associate - Positioning SAP Business AI Solutions as part of SAP Business Suite Sample Questions (Q20-Q25):

NEW QUESTION # 20

Match the outcomes in the dropdown lists to the capabilities of Joule

□

Answer:

Explanation:

□

NEW QUESTION # 21

(What are some potential benefits of using SAP Business AI in finance? Note: There are 3 correct answers to this question.)

- A. Reduce sales outstanding
- B. Simplify error resolution
- C. Guard against fraud
- D. Generate creative accounting solutions
- E. Enforce compliance

Answer: B,C,E

Explanation:

Comprehensive and Detailed Explanation From Exact Extract: SAP Business AI in finance provides benefits such as enforcing compliance through risk management and governance, guarding against fraud via anomaly detection, and simplifying error resolution with intelligent guidance in processes like invoice matching and payment clarification. These capabilities enhance accuracy, reduce risks, and improve operational efficiency in financial operations.

Exact extracts supporting this:

Enforce compliance: "With SAP AI-powered governance, compliance, and risk management solutions, finance departments can identify and respond to risks as they arise."learning.sap.com "Optimize working capital, manage risk, ensure compliance, and grow revenue."sap.com Guard against fraud: "AI-assisted anomaly detection to protect the business against fraud."learning.sap.com "Reduce revenue losses due to fraud using AI with SAP Business Integrity Screening for SAP S/4HANA Cloud Private Edition."sap.com Simplify error resolution: "Intelligent guidance to simplify error resolution."learning.sap.com "Eliminate manual payment clarifications, reducing accounts receivable matching effort by 71% with AI-powered matching and payment advice extraction."sap.com Other options are incorrect because:

Option A: SAP Business AI focuses on reliable, data-grounded solutions rather than "creative" accounting, which could imply non-compliant or unethical practices.

Option D: While AI optimizes working capital, reducing days sales outstanding (DSO) is more directly associated with cash application automation, but the primary benefits highlighted are compliance, fraud protection, and error simplification; DSO reduction is a secondary outcome.

Reference from Positioning SAP Business AI Solutions as part of SAP Business Suite documents or Study Guide: Sourced from the SAP Learning Journey "Discovering New AI Capabilities for SAP Finance" and the SAP product page for "SAP Business AI - Artificial Intelligence for ERP & Finance." These emphasize AI's role in compliance, fraud detection, and error resolution within financial processes, as aligned with C_BCBAI_2502 certification materials.

NEW QUESTION # 22

What is the primary objective of SAP Responsible Design and Production?

Please choose the correct answer.

Response:

- A. Enhance customer relationship management
- B. Manage employee benefits
- **C. Support circular economy strategies**
- D. Automate payroll processing

Answer: C

NEW QUESTION # 23

A company wants to leverage AI for optimizing hiring processes and employee retention. Which SAP solutions should they use?

Note: There are 3 correct answers to this question.

- **A. SAP Conversational AI**
- **B. SAP AI Business Services**
- **C. SAP SuccessFactors AI**
- D. SAP Blockchain for Business
- E. SAP Workforce Management

Answer: A,B,C

Explanation:

SAP provides targeted AI solutions to enhance human resources (HR) processes, particularly in optimizing hiring and improving employee retention. The correct answers are SAP SuccessFactors AI, SAP AI Business Services, and SAP Conversational AI, as these solutions directly support AI-driven recruitment, workforce analytics, and employee engagement.

SAP documentation states: "AI in human resources involves using artificial intelligence to streamline and enhance HR processes such as recruitment, employee engagement, and performance management. It automates repetitive tasks, analyzes large volumes of data for better decision-making, and offers personalized experiences for employees, ultimately improving efficiency and effectiveness in HR functions." SAP SuccessFactors AI is central to this, offering "an AI-driven talent intelligence hub" that personalizes talent experiences, optimizes recruitment through intelligent candidate screening, and predicts employee attrition rates. For example, Delta Air Lines uses SAP SuccessFactors AI to build a skills-based organization, enhancing hiring and retention.

SAP AI Business Services provide reusable AI capabilities, such as machine learning and natural language processing, to "enrich HR processes across the intelligent, sustainable enterprise." These services support data-driven insights for workforce planning and retention strategies. SAP Conversational AI, powered by Joule, enables "natural language interactions to improve employee engagement" by automating responses to HR-related queries, such as benefits or career development, thereby enhancing retention. FC Bayern's use of SAP SuccessFactors with AI demonstrates elevated HR processes through personalized employee experiences. The incorrect options-SAP Blockchain for Business and SAP Workforce Management-are not relevant.

SAP Blockchain for Business focuses on secure transactions, not HR processes. SAP Workforce Management, while HR-related, is not an AI-driven solution within SAP's Business AI portfolio, as it primarily handles scheduling and time tracking without embedded AI capabilities.

NEW QUESTION # 24

In Custom AI Adoption (CAIA) with SAP, what is the correct order of steps?

□

Answer:

Explanation:

□

NEW QUESTION # 25

.....

Our C-BCBAI-2502 study questions in every year are summarized based on the test purpose, every answer is a template, there are subjective and objective C-BCBAI-2502 exams of two parts, we have in the corresponding modules for different topic of deliberate practice. To this end, our C-BCBAI-2502 training materials in the qualification exam summarize some problem-solving skills, and

induce some generic templates. The user can scout for answer and scout for score based on the answer templates we provide, so the universal template can save a lot of precious time for the user to study and pass the C-BCBAI-2502 Exam.
