100% Pass Trustable Cisco - New 300-445 Exam Answers

With the help of 300-445 guide questions, you can conduct targeted review on the topics which to be tested before the exam, and then you no longer have to worry about the problems that you may encounter a question that you are not familiar with during the exam. With 300-445 Learning Materials, you will not need to purchase any other review materials. Please be assured that with the help of 300-445 learning materials, you will be able to successfully pass the exam.

Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q78-Q83):

NEW QUESTION # 78

When selecting deliverables for IT operations, what metric is commonly included in executive dashboards?

- A. Hardware inventory reports

- B. Key performance indicators (KPIs)
- C. Server access logs
- D. Network topology diagrams

Answer: B

Explanation:

Key performance indicators (KPIs) are commonly included in executive dashboards as metrics for tracking overall network performance and identifying areas for improvement.

NEW QUESTION # 79

Which integration type facilitates real-time data exchange between Cisco technologies and third-party platforms?

- A. SNMP integration
- B. Alerting thresholds
- C. API integration
- D. Open telemetry

Answer: C

Explanation:

API integration enables real-time data exchange, ensuring seamless interoperability between Cisco technologies and third-party platforms.

NEW QUESTION # 80

What is the primary function of Cisco Catalyst Manager in endpoint agent deployment?

- A. Centralizing device management
- B. Optimizing web application performance
- C. Monitoring WAN performance
- D. Analyzing server logs

Answer: A

Explanation:

Cisco Catalyst Manager primarily centralizes device management, facilitating efficient deployment and configuration of endpoint agents across the network in network assurance.

NEW QUESTION # 81

What is the primary function of a scripting agent in network assurance?

- A. Optimizing server configurations
- B. Monitoring hardware health
- C. Analyzing security logs
- D. Automating repetitive tasks

Answer: D

Explanation:

Scripting agents automate repetitive tasks to enhance operational efficiency and ensure consistent network performance.

NEW QUESTION # 82

What is the purpose of a local collection agent in network assurance?

- A. Managing user authentication
- B. Optimizing server configurations
- C. Monitoring physical hardware
