If you are lack of skills in the preparation of getting the certification, our Analytics-DA-201 study materials are the best choice for you. Many people have successfully realized economic freedom after getting the Analytics-DA-201 certificate and changing a high salary job. So you need to act from now, come to join us and struggle together. Our Analytics-DA-201 Study Materials will help you change into social elite and you will never feel dispointed.

Salesforce Analytics-DA-201 Exam Syllabus Topics:

Topic	Details
Topic 1	• ABAP RESTful Application Programming Model: This section of the exam evaluates the capabilities of the SAP S • 4HANA Technical Consultant in using the ABAP RESTful Application Programming Model (RAP). It focuses on understanding the structure and components of RAP, including behavior definitions, service bindings, and metadata extension. The goal is to validate the ability to develop modern and scalable applications using RAP.
Topic 2	• ABAP Core Data Services and Data Modeling: This section of the exam measures the skills of the SAP ABAP Cloud Developer and covers the fundamental understanding of core data services (CDS) and how to design data models in the SAP ABAP environment. Candidates are expected to know how to define, consume, and optimize CDS views effectively to support application development in the cloud.

Topic 3	• Object-Oriented Design: This section of the exam evaluates the SAP ABAP Cloud Developer's understanding of object-oriented principles in the ABAP context. It focuses on class-based programming, inheritance, interfaces, and polymorphism, all crucial for building modular and maintainable ABAP cloud applications.
Topic 4	• ABAP SQL and Code Pushdown: This section of the exam measures the competencies of the SAP ABAP Cloud Developer related to performance optimization through ABAP SQL and code pushdown techniques. It ensures that the developer understands how to shift logic to the database layer using efficient SQL scripting to enhance performance in data-intensive applications.
Topic 5	• Core ABAP Programming: This part of the exam assesses the foundational programming skills of the SAP S • 4HANA Technical Consultant. It includes knowledge of syntax, control structures, modularization, and internal tables in ABAP. The section aims to validate the candidate's proficiency in writing clean, efficient ABAP code using best practices.

Analytics-DA-201 Certificate Exam | Study Analytics-DA-201 Materials

We are never satisfied with the present situation and expand and update the Analytics-DA-201 exam practice guide by all means. We focus on the innovation and organize our expert team to compile new knowledge points and update the test bank. We treat our clients as our god and treat their supports to our Analytics-DA-201 Study Materials as our driving forces to march forward. So the clients can enjoy the results of the latest innovation on Analytics-DA-201 exam questions and achieve more learning resources. The credits belong to our diligent and dedicated professional innovation team and our experts.

Salesforce Certified Tableau Data Analyst Sample Questions (Q79-Q84):

NEW QUESTION # 79
A Data Analyst needs to update an existing dashboard. The current dashboard shows financial results data, and users have asked for a comparison of budgets to be added to the dashboard. A new data source has been created that includes both the actual costs and budgets and was published to the corporate Tableau site.
How should the analyst update the existing dashboard?

- A. Create a new workbook in Tableau Desktop and connect to the new data source. Copy and paste all the tabs from the old workbook into the new one.
- B. Edit the existing workbook on the Tableau site and connect to the new data source. Blend the new data source with the existing data source.
- C. Create a copy of the existing workbook, open it in Tableau Desktop, and connect to the new data source. Update each sheet, using fields from the new data source.
- D. Edit the existing workbook on the Tableau site and connect to the new data source. From the Data menu, choose Replace Data Source.

Answer: D

NEW QUESTION # 80
A Data Analyst has the following primary data source that contairis a dimension named Dorm_Code.

Dorm_Name	Dorm_Code
Hawthorne	DK8K
Blinx	A1TYU
Michaels	G3NU
Rogers	F6N7
Mazy	J8TO
Cameroon	9MJH
Keramins	Z1KL

The analyst receives the following secondary data source that contains updated dorm codes.

The analyst needs to bring the updated dorm codes into Tableau and use the codes in existing visualizations.

The new dorm codes must use the existing field name of Dorm_Code.

What should the analyst do?

- A. Bring in the secondary data source by using relationships. From the Data pane, right-click Dorm_Name, select Replace References, and then select Dorm Name New.
- B. Create a data blend and select Edit Primary Aliases to replace the primary data source alias values with values from the secondary data source.
- C. Bring in the secondary data source as a union.
- D. Bring in the secondary table as a left join to the primary data source. From the Data Source page, select Create Calculated Field in the Dorm_Name field and enter [Dorm_Name_New] in the calculation window.

Answer: A

NEW QUESTION # 81
A Data Analyst has the following worksheet, with Profit data for Categary and Sub-Categury.

The analyst executed the following calculated field at the Total level:

COUNTD(IF (INCLUDE [Sub-Category]: SUM([Profit]) < 0 THEN [Category] END) What is the result?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

NEW QUESTION # 82
You have the following Map.

You need the map to appear as shown in the following visualization.

What should you do?

- A. Change the mark type to Map.
- B. Change the opacity to 75%.
- C. Drag Location to Size on the Marks card.
- D. Drag Population to Size on the Marks card.
- E. Change the mark type to Density.

Answer: E

Explanation:
To create a map visualization that shows the concentration of data points in different locations, you need to change the mark type to Density. This will create a heatmap that uses color and size to indicate the density of the data points. You can also adjust the intensity and transparency of the density marks to suit your needs. References: The information is based on the following sources:
* Create Heatmaps that Show Trends or Density in Tableau
* Build a Simple Map - Tableau

NEW QUESTION # 83
You have a dataset that contains people and the awards they have won.

Name	Award
Sung Shanan	Award of Excellence
Andrew Gjertsen	Lifetime Achievement Award
Phillina Ober	Data Analytics Award
Roland Fjeld	Award of Excellence
Brosina Hoffman	Lifetime Achievement Award
Carlos Soltero	Creative Thinker Award

Which formula should you use to get the number of different types of awards that have been won?

- A. MAX {(Award})
- B. INDEX()
- C. COUNTD {(NAME])
- D. COVAR({Award})
- E. COUNTD({Award})

Answer: E

Explanation:
To get the number of different types of awards that have been won, you should use the formula COUNTD ({Award}). This formula will return the count of distinct values in the Award field, which are the different types of awards that have been won.
The other options are not correct for this scenario. COVAR({Award}) is not a valid function in Tableau. MAX ({Award}) will return the maximum value in the Award field, which may not be a type of award. INDEX() will return the index or rank of each row in a partition, which is not related to the types of awards. References:
https://help.tableau.com/current/pro/desktop/en-us/functions_functions_aggregate.htm#COUNTD https://help.tableau.com/current/pro/desktop/en-us/functions_functions_tablecalculation.htm#INDEX The COUNTD function in Tableau calculates the number of distinct (unique) items in a field. When looking to get the number of different types of awards that have been won, the COUNTD([Award]) function will count each unique award name only once, regardless of how many times it appears in the dataset. This will return the total number of unique award types.

NEW QUESTION # 84

......

Our product backend port system is powerful, so it can be implemented even when a lot of people browse our website can still let users quickly choose the most suitable for his Analytics-DA-201 learning materials, and quickly completed payment. It can be that the process is not delayed, so users can start their happy choice journey in time. Once the user finds the learning material that best suits them, only one click to add the Analytics-DA-201 learning material to their shopping cart, and then go to the payment page to complete the payment, our staff will quickly process user orders online. In general, users can only wait about 5-10 minutes to receive our Analytics-DA-201 learning material, and if there are any problems with the reception, users may contact our staff at any time. To sum up, our delivery efficiency is extremely high and time is precious, so once you receive our email, start your new learning journey.
