NEW QUESTION # 115

Universal Containers has a multi-layer bundle with a Percent of Total option in the first level. This Percent of Total option's calculation should be based on other options at the same level.

How should the admin set this up?

- A. Set the percent of Total Category field on each Product in the bundle to the same value.
- B. Set the percent of Total Scope field on the product Option record to a value of package.
- C. Set the percent of Total Scope field on the Product Option record to a value of Components.
- D. Set the Percent of Total Scope field on the Product Option record to a value of Group.

Answer: C

Explanation:

Requirement Overview:

* A Percent of Total option in a multi-level bundle must calculate its value based on other options in the same level.

Key Configuration:

* The Percent of Total Scope field determines the scope of the calculation.

* Setting it to Components limits the calculation to options within the same bundle level.

Steps to Configure:

* Navigate to the Product Option record for the Percent of Total option.

* Set Percent of Total Scope to Components.
