The SAP C_TS422_2023 exam questions on the platform have been gathered by subject matter experts to ensure that they accurately reflect the format and difficulty level of the actual SAP C_TS422_2023 exam. This makes these SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing PDF Questions ideal for individuals looking to pass the SAP C_TS422_2023 Exam on their first try. You can evaluate the product with a free C_TS422_2023 demo.

SAP C_TS422_2023 Exam Syllabus Topics:

Topic	Details
Topic 1	• Material Requirements Planning in SAP S • 4HANA: This part of the exam covers an examination of planning strategies, tools, and long-term planning concepts. Overview of MRP fundamentals and lot size procedures.
Topic 2	• Master Data in SAP S • 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version.
Topic 3	• Advanced Planning in SAP S • 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts.
Topic 4	• Introduction to SAP S • 4HANA Supply Chain Planning: This part covers the background and motivation for SAP S • 4HANA, its main components, business applications, and user experience strategy.
Topic 5	• Lean Manufacturing in SAP S • 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems.
Topic 6	• Demand Management in SAP S • 4HANA: This section covers a comparison of production methods in various manufacturing environments.
Topic 7	• Introduction to SAP S • 4HANA Production Planning: This section covers an overview of production planning components, functions, and planning approaches. Exploration of emerging trends.

Topic 8	• Managing Clean Core: This section covers the application of clean core principles to enhance business process agility, reduce adaptation efforts, and drive innovation in ERP systems.
Topic 9	• Production Orders in SAP S • 4HANA: This section covers BOM item categorization, order status management, availability checks, routing selection, order type setup, and material handling processes.

Free PDF Quiz SAP - C_TS422_2023 –Efficient Dumps Reviews

With our software version of our C_TS422_2023 guide braindumps, you can practice and test yourself just like you are in a real exam for our C_TS422_2023 study materials have the advandage of simulating the real exam. The results of your C_TS422_2023 Exam will be analyzed and a statistics will be presented to you. So you can see how you have done and know which kinds of questions of the C_TS422_2023 exam are to be learned more.

SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q20-Q25):

NEW QUESTION # 20
Which of the following processes lead to an entry in the MRP planning file?
Note: There are 3 correct answers to this question.

- A. Changing the operation times in the production data structure
- B. Changing the purchasing contract in materials management
- C. Changing the storage bin in warehouse management
- D. Changing the procurement type in the product master
- E. Changing the stock in inventory management

Answer: B,D,E

Explanation:
The MRP planning file is a list of all materials relevant to the planning run. The system sets an entry in the planning file for a material when there is a change that affects the material requirements planning, such as changes to stock, requirements, receipts, or MRP data in the material master. The following processes lead to an entry in the MRP planning file:
Changing the procurement type in the product master, which determines how the material is procured (internally or externally) and affects the MRP procedure and lot-sizing procedure.
Changing the stock in inventory management, which changes the stock/requirements situation of the material and triggers a net requirements calculation.
Changing the purchasing contract in materials management, which creates a purchase requisition as a receipt element and affects the availability of the material. Reference: Planning File, Planning File Entries for MRP Areas, SAP Exam C_TS422_1909 Topic 10 Question 10 Discussion

NEW QUESTION # 21
Which of the following questions do you have to answer before you start creating a bill of material (BOM)?

- A. In which storage location is the BOM required?
- B. Is the material type allowed in the BOM?
- C. Which base unit of measure does the material have?
- D. What status does the BOM have?

Answer: B

Explanation:
Before you create a BOM, you need to check if the material type of the header material is allowed in the BOM usage. The material type defines the attributes and functions of a material, such as whether it is a finished product, a raw material, or a trading good. The

BOM usage defines the purpose and application of a BOM, such as production, engineering, or sales. Only certain combinations of material types and BOM usages are valid in SAP S/4HANA. For example, you cannot create a production BOM for a material type that is not relevant for production planning. Reference: [SAP S/4HANA Production Planning and Manufacturing Certification Guide], page 63; [SAP Help Portal: Material Type].

NEW QUESTION # 22
During production order creation, several valid production versions are found. How does the system choose the production version?

- A. Lot size or material cost
- B. Alphanumeric or quota arrangement
- C. Validity period or sales order
- D. Planned order or material number

Answer: C

Explanation:
The system chooses the production version based on the validity period and the sales order. The validity period determines whether the production version is valid for the planned start date of the production order. The sales order determines whether the production version is assigned to a specific sales order item or not. If there are multiple production versions that meet these criteria, the system chooses the one with the lowest alphanumeric value. Reference: [SAP S/4HANA Production Planning and Manufacturing Certification Guide], page 113; [SAP Help Portal: Production Version]

NEW QUESTION # 23
What are the prerequisites for a reporting point confirmation in repetitive manufacturing? Note: There are 2 correct answers to this question.

- A. Activating the reporting point backflush in the order dependent parameters
- B. Defining the operations as reporting points using the control key
- C. Defining the relevant work centers in the routing
- D. Activating the reporting point backflush in the work centers

Answer: B

NEW QUESTION # 24
How can you set up a material as a phantom assembly? Note: There are 2 correct answers to this question.

- A. Select a special MRP type inside the material master.
- B. Select a special procurement type inside the material master.
- C. Use a special item category in your material BOM (bill of material).
- D. Define the special procurement type inside the material BOM (bill of material).

Answer: B,D

NEW QUESTION # 25
......

The SAP C_TS422_2023 mock tests are specially built for you to evaluate what you have studied. These SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing (C_TS422_2023) practice exams (desktop and web-based) are customizable, which means that you can change the time and questions according to your needs. Our SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing (C_TS422_2023) practice tests teach you time management so you can pass the SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing (C_TS422_2023) certification exam.
