Placement Type

-
-
-
-

Answer:

Explanation:

Placement Type

- Tile
- Carousel
- Hero
- Footer bar

Requirement

- To display an offer as a rotating strip of images
- To display an offer at the bottom of the page
- To display an offer at the top of the page
- To display an offer at a defined location on the account page

Placement Type

- Carousel
- Footer bar
- Hero
- Tile

NEW QUESTION # 85

J)+ Bank uses Pega Customer Decision Hub to approve credit card limit changes requested by customers automatically. A scorecard model determines the customer credit score. The automatic approval of credit card limits are processed based on the following criteria set by the bank.

Credit Score	Max Credit Card limit
<150	USD1000
<175	USD2000
Otherwise	USD3000

The bank wants to change the threshold value for the USD2000 credit limit from <175 to <200. How do you implement this change?

- A. Change in the strategy the condition from .pxSegment <=175 to .pxSegment <=200.
- **B. Change the cutoff value in the Results tab of the scorecard model.**
- C. Change the cutoff value in the Results tab of the scorecard decision component.
- D. Map the score value in the decision strategy to <=200.

Answer: B

Explanation:

The scorecard model determines the customer credit score based on various factors, such as income, expenses, assets, liabilities, etc. The scorecard model has a Results tab where you can define the cutoff values for different segments based on the credit score. To change the threshold value for the USD2000 credit limit from <175 to <200, you need to change the cutoff value in the Results tab of the scorecard model. Changing the cutoff value in the scorecard decision component, changing the condition in the strategy, or mapping the score value in the decision strategy will not affect the credit score calculation or segmentation.

NEW QUESTION # 86

A financial services organization introduces a new policy that limits each customer to two promotional emails per month. To meet

compliance requirements, the implementation team must configure this limit in the Next- Best-Action Designer. Which configuration steps achieve the desired email frequency limit?

- A. Configure an engagement policy that applies email limits to customer groups only.
- **B. Set customer contact limits for the email channel with a two-message monthly restriction.**
- C. Establish context-level limits that track two monthly interactions across channels.
- D. Create a suppression policy that uses a two-email threshold and a monthly tracking period.

Answer: B

NEW QUESTION # 87

To access a property from an unconnected component, you use the

- A. property value
- B. customer-dot-property construct
- C. dot-property value directly
- **D. component-dot-property construct**

Answer: D

Explanation:

To access a property from an unconnected component, you use the component-dot-property construct. For example, if you want to access the property .Rank from an unconnected component named ActionRanking, you use ActionRanking.Rank. Verified References: Pega Academy - Decisioning Consultant - Accessing properties from unconnected components

NEW QUESTION # 88

U+ Bank wants to send promotional emails related to credit card offers to their qualified customers. The business intends to use the same action flow template with the desired flow pattern for all the credit card actions. What do you configure to implement this requirement?

- **A. Dynamic template**
- B. Output template
- C. File template
- D. Email treatment

Answer: A

Explanation:

To implement this requirement, you need to configure a dynamic template in Customer Decision Hub. A dynamic template is a type of template that allows you to define a common action flow pattern for a group of actions that share similar characteristics, such as channel, issue, or group. You can specify which properties and components are required for each action in the group, and how they are mapped to the action flow template. This way, you can reuse the same action flow template for all the credit card actions, while still allowing some variations in their content and configuration. Verified Reference: Pega Academy - Decisioning Consultant - Creating dynamic templates

NEW QUESTION # 89

.....

If you want to pass your exam just one time, then our PEGACPDC25V1 exam torrent will be your best choice.
