

Pass Guaranteed Quiz HCL-HWA-ADM-102 - Valid HCLSoftware Certified Administrator- HWA 10.2 Detailed Answers

We guarantee that if you study our HCL-HWA-ADM-102 guide materials with dedication and enthusiasm step by step, you will desperately pass the exam without doubt. As the authoritative provider of study materials, we are always in pursuit of high pass rate of HCL-HWA-ADM-102 Practice Test compared with our counterparts to gain more attention from potential customers. We believe in the future, our HCL-HWA-ADM-102 study torrent will be more attractive and marvelous with high pass rate.

BraindumpsPrep also offers the HCL-HWA-ADM-102 web-based practice exam with the same characteristics as desktop simulation software but with minor differences. It is online HCLSoftware Certification Exam which is accessible from any location with an active internet connection. This HCLSoftware Certified Administrator- HWA 10.2 HCL-HWA-ADM-102 Practice Exam not only works on Windows but also on Linux, Mac, Android, and iOS. Additionally, you can attempt the OMG HCL-HWA-ADM-102 practice test through these browsers: Opera, Safari, Firefox, Chrome, MS Edge, and Internet Explorer.

HCL-HWA-ADM-102 Sure Pass & HCL-HWA-ADM-102 Questions Pdf

Free demos offered by BraindumpsPrep gives users a chance to try the product before buying. Users can get an idea of the HCL-HWA-ADM-102 exam dumps, helping them determine if it's a good fit for their needs. The demo provides access to a limited

portion of the HCL-HWA-ADM-102 Dumps material to give users a better understanding of the content. Overall, BraindumpsPrep HCLSoftware HCL-HWA-ADM-102 free demo is a valuable opportunity for users to assess the value of the BraindumpsPrep's study material before making a purchase.

HCLSoftware Certified Administrator- HWA 10.2 Sample Questions (Q458-Q463):

NEW QUESTION # 458

Scenario: To temporarily fence a domain to prevent new job launches while allowing running jobs to complete in HCL Workload Automation 10.2, which conman commands?

(Select two)

- A. unlink domain DOMAIN
- B. stop domain DOMAIN
- C. hold domain DOMAIN
- D. fence cpu;cpu=DOMAIN/*;fence=100
- E. limit domain;DOMAIN;limit=0

Answer: D,E

Explanation:

fence cpu;cpu=DOMAIN/*;fence=100 sets a high fence to block lower-priority launches. limit domain;DOMAIN;limit=0 prevents additional concurrent jobs.

NEW QUESTION # 459

Troubleshooting HCL HWA 10.2 shows batchman trace+audit correlation: TWS_home/trace/batchman.*.trc "Intercom.msg write blocked" timestamp matches auditbox.msg 4200 "conman STOP batchman" bursts. CP=21h18m stalled. What root cause mitigation prevents recurrence?

- A. conman alias throttle; batchman priority
- B. localopts enIntercomThrottling=YES;maxConmanBurst=1800/min;auditbox.msg 75M
- C. globalopts CONMAN_THROTTLE=1200/min
- D. planman extend /NOCONMAN

Answer: B

Explanation:

enIntercomThrottling=YES;maxConmanBurst=1800/min rate-limits 4200 STOP commands preventing Intercom.msg blocking and CP=21h18m stalls; auditbox.msg 75M capacity handles burst metadata vs alias lacking enforcement or globalopts missing workstation granularity maintaining production stability during conman storms.

NEW QUESTION # 460

Scenario: After installing a backup dynamic domain manager in HCL Workload Automation 10.2, the switch to backup appears successful via command line, but database fields in PPS_PRODUCT_PROPERTIES still reference the original dynamic domain manager. What is the likely cause and resolution?

- A. Reported defect in certain versions; workaround by manually updating table or applying fix.
- B. SSL certificate mismatch; regenerate certificates.
- C. Database privileges issue for the installation user; grant higher privileges.
- D. Known limitation in mixed-version environments; apply latest fix pack.
- E. Incorrect -componenttype parameter; reinstall with DDM.

Answer: A

Explanation:

In some HCL Workload Automation versions including early 10.2 fix packs, switching a dynamic domain manager to backup succeeds at the file and command-line level, but certain fields in the PPS_PRODUCT_PROPERTIES table within the dynamic domain manager database remain pointed to the previous workstation. This is a known defect affecting database consistency. Resolution typically involves applying the relevant fix pack or, as a temporary workaround, manually correcting the table entries or

rerunning configuration steps post-switch.

NEW QUESTION # 461

For Oracle database usage in HCL Workload Automation 10.2 master domain manager installation, which editions support the Partitioning feature for improved event-driven workload automation performance?

- A. Oracle Standard Edition One
- **B. Oracle Enterprise Edition**
- C. Oracle Personal Edition
- D. Oracle Express Edition
- E. Oracle Standard Edition

Answer: B

Explanation:

The Oracle Partitioning option, which enhances performance for event-driven workload automation by optimizing large table handling, is available only in Oracle Enterprise Edition. Oracle Standard Edition and its variants (including Standard Edition One) do not include this feature, limiting performance gains in high-volume event processing scenarios. Choosing Enterprise Edition is recommended when partitioning is required.

NEW QUESTION # 462

HCL HWA 10.2 containers OpenShift dynamic agent fails SSL with "CN mismatch" despite agent.dynamic.gateway.jmFullyQualifiedHostname=ocp-mdm.apps.cluster.com matching Route. OpenShift Certificate Manager active. What Route TLS configuration blocks workstation SSL?

- A. agent.ssl.hostnameVerifier=ALLOW_ALL insecure
- B. OpenShiftRoute certificateSubjectName wrong CN
- C. NetworkPolicy ocp-network-policy blocks Route
- **D. Route tls.termination=edge missing reencrypt for gateway**

Answer: D

Explanation:

OpenShift containers SSL requires Route tls.termination=reencrypt (not edge) for dynamic agent gateway passthrough to waserver port 31114; edge termination breaks CN validation despite correct hostname. Route reencrypt preserves end-to-end TLS maintaining workstation certificate architecture integrity.

NEW QUESTION # 463

.....

BraindumpsPrep is not only a website but as a professional study tool for candidates. Last but not least, we have advanced operation system of HCL-HWA-ADM-102 training materials which not only can ensure our customers the fastest delivery speed but also can protect the personal information of our customers automatically. In addition, our professional after sale stuffs will provide considerate online after sale service on the HCL-HWA-ADM-102 Exam Questions 24/7 for all of our customers. And our pass rate of HCL-HWA-ADM-102 studying guide is as high as 99% to 100%. You will get your certification with our HCL-HWA-ADM-102 practice prep.
