- **C. FortiGuard servers are not reachable from the endpoint.**
- D. The URL is blocked by the web filter endpoint profile.

- A. FortiGate FSSO
- B. FortiGate endpoint control
- **C. FortiGate explicit proxy**
- D. FortiGate certificates

Answer: C

Explanation:

FortiGate explicit proxy allows FortiGate to intercept web traffic for authentication purposes.

ZTNA integrates with various FortiGate features to provide secure access and ensure that users are authenticated before accessing resources.

By using an explicit proxy, FortiGate can handle web traffic and enforce authentication policies for remote users who are not directly on the corporate network (off-fabric).
