Microsoft Collaboration Communications Systems Engineer Sample Questions (Q74-Q79):

NEW QUESTION # 74

Your company deploys 200 Microsoft Teams Rooms on Windows systems.

You are evaluating whether to purchase the Microsoft Teams Rooms Premium license for the rooms.

Which two actions require the Microsoft Teams Rooms Premium license? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point

- A. Postpone updates until a certain date.
- B. **Get reporting insights into room usage and participant count**
- C. Modify the Direct guest jam settings
- D. **View peripheral health.**
- E. Download device logs.

Answer: B,D

Explanation:

The Microsoft Teams Rooms Premium include Premium-managed service.

B: The Microsoft Teams Rooms managed service monitors devices, collects device data, and allows Microsoft to remotely access and manage room devices.

C: Microsoft Teams Rooms Premium extra features include:

* Enhanced insights

Benefit from rich analytics, reporting, and proven learnings at scale across many customers.

Proven learnings at scale that continually improve the operational experience Reports and dashboards on daily operations and room performance including inventory, room health, and room reliability (C) Insights and recommendations on room usage and incident trend history Full transparency on all operations taken on your behalf, and alerts that need your attention using the dedicated admin portal Reference:

NEW QUESTION # 75

Case Study 3 - Contoso, Ltd

Overview

Company Information

Contoso, Ltd. is an international manufacturing company that has 2,000 employees.

Contoso currently uses a third-party meeting service. The company plans to migrate the meeting service to Microsoft Teams and replace all legacy video teleconferencing (VTC) devices.

Physical Locations

Contoso has offices in Toronto, New York, Rome, and London. The company has a global sales team that works remotely.

Existing Environment

Active Directory Environment

The on-premises network contains an Active Directory Domain Services (AD DS) forest named contoso.com

Microsoft 365 and Teams Environment

Contoso has a Microsoft 365 subscription. All users are licensed for Microsoft 365 E5 and Teams Premium. All users are enabled for Teams Phone by using Operator Connect.

The contoso.com domain syncs to Microsoft 365 by using Azure AD Connect cloud sync. All users use the Microsoft Authenticator app for multi-factor authentication (MFA) to cloud services.

A Microsoft Surface Hub device is deployed to the boardroom in each office.

The reception area at the Toronto office is configured to use a phone number of +14165555555 in Teams.

Problem Statements

Contoso identifies the following issues:

- A user in the London office cannot locate the recorded files from a recurring Teams meeting.

- Executives in the New York office report having to use Microsoft Authenticator to access their Microsoft OneDrive files from the Surface Hub.
- A user in the Toronto office reports receiving incoming calls while attending Teams meetings instead of having calls sent automatically to voicemail.

Requirements

Planned Changes

Contoso plans to implement the following changes:

- Deploy a new Teams-certified endpoint to all the boardrooms and huddle spaces in all the offices.
- Start a pilot project to deploy an Intelligent Speaker to the boardroom in the Rome office and evaluate transcription and voice attribution capabilities.
- Deploy a Teams shared device to the lunchroom in the Toronto office. Calls placed to +14165555555 must ring in both the reception area and the lunchroom.

Technical Requirements

Contoso identifies the following technical requirements:

- The endpoint deployed to each boardroom must include a console on the table. The endpoint must automatically invite the existing Surface Hub when joining a Teams meeting.
- The sales team must be able to temporarily sign in to the endpoints deployed to the huddle spaces to respond to Teams messages and attend video calls.
- The endpoints deployed to the huddle spaces must allow only outbound emergency calls when a user is NOT signed in.
- During Teams meetings, the sales team must have a watermark displayed on shared content.

You need to implement the planned changes for the Rome office boardroom.

Which two settings should you configure for the device? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Default Video Camera
- B. Default Speaker
- C. Microphone for Conferencing
- D. Speaker for Conferencing
- E. Content Camera

Answer: C,D

Explanation:

Scenario: Requirements. Planned Changes

Start a pilot project to deploy an Intelligent Speaker to the boardroom in the Rome office and evaluate transcription and voice attribution capabilities.

Audio

Configure the following parameters for program audio.

* Microphone for Conferencing selects the microphone to use in a conference.

Select a microphone from the drop-down list.

* Speaker for Conferencing selects the speaker to use in a conference. Select a speaker from the drop-down list. Speaker functions are controlled by the control device Reference:

NEW QUESTION # 76

Your network contains an on-premises Active Directory Domain Services (AD DS) domain named contoso.com.

You have a Microsoft 365 subscription.

You plan to implement Microsoft Teams Rooms shared room video conferencing.

You deploy 50 Teams Rooms on Windows devices and join each device to contoso.com.

You need to enable Direct Guest Join on all 50 devices. The solution must minimize administrative effort.

What should you do?

- A. From the Microsoft Teams admin center, select all the devices, and then add a tag.
- B. Deploy a SkypeSettings.xml file to each device by using Group Policy.
- C. From the Microsoft Teams admin center, configure a configuration policy.
- D. Run the Set-CsTeamsGuestMeetingConfiguration cmdlet.

Answer: C

Explanation:

Direct Guest Join allows Teams Rooms to join meetings that are hosted by external users (guests) without requiring complex configurations on each individual device. This is essential for seamless video conferencing with external participants.

By configuring a centralized configuration policy in the Microsoft Teams admin center, you can efficiently apply settings to all Teams Rooms devices simultaneously. This eliminates the need for manual configuration on each device, significantly reducing administrative overhead and effort.

Configuration policies allow you to manage settings for multiple devices in bulk, ensuring that all devices have consistent settings regarding Direct Guest Join and other related features.

NEW QUESTION # 77

You have a Microsoft Teams Phone deployment.

You have a dial plan that contains the following normalization rule:

Pattern:
