

Authoritative Cisco Reliable 300-745 Test Testking Are Leading Materials & Marvelous Valid Test 300-745 Tips

DOWNLOAD the newest PrepAwayExam 300-745 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=14GOWIjrz-QJK6Bwljy5l77yb7u_V7uAb

To pass the Cisco 300-745 Exam is a dream who are engaged in IT industry. If you want to change the dream into reality, you only need to choose the professional training. PrepAwayExam is a professional website that providing IT certification training materials. Select PrepAwayExam, it will ensure your success. No matter how high your pursuit of the goal, PrepAwayExam will make your dreams become a reality.

Cisco 300-745 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Artificial Intelligence, Automation, and DevSecOps: Explores AI's role in securing network infrastructure, selecting tools for automated security architectures such as SOAR, IaC, and API tooling, and integrating security into DevSecOps workflows and pipelines to minimize deployment risk.
Topic 2	<ul style="list-style-type: none">Risk, Events, and Requirements: Covers SOC incident handling and response tools, modifying security designs to mitigate or respond to incidents, and applying frameworks like MITRE CAPEC, NIST SP 800-37, and SAFE. Includes matching regulatory and compliance requirements to business scenarios.
Topic 3	<ul style="list-style-type: none">Applications: Focuses on selecting security solutions to protect applications and designing secure architectures for cloud-native, containerized, and serverless environments using segmentation. Also addresses security design impacts of emerging technologies like AI, ML, and quantum computing.
Topic 4	<ul style="list-style-type: none">Secure Infrastructure: Covers selecting security approaches for endpoints, identities, email, and modern environments like hybrid work, IoT, SaaS, and multi-cloud. Includes choosing VPN tunneling solutions, securing management planes, and selecting the appropriate firewall architecture based on business needs.

Valid Test 300-745 Tips & Reliable 300-745 Test Bootcamp

If candidates want to obtain certifications candidates should notice studying methods. If you do not want to purchase our Cisco 300-745 new exam bootcamp materials and just want to study yourself, willpower is the most important. Passing so many exams is really not easy. Reasonable studying methods and relative work experience make you half the work with double the results. 300-745 New Exam Bootcamp materials will be a shortcut for you.

Cisco Designing Cisco Security Infrastructure Sample Questions (Q45-Q50):

NEW QUESTION # 45

A company recently discovered that a former employee, who left to join a competitor, continued to access and exfiltrate sensitive data over several weeks after leaving. The breach highlighted vulnerabilities in the organization's data security and access management practices. To prevent such incidents in the future, the organization must adopt measures that detect and restrict unauthorized data access and transfer. Which mitigation strategy must be implemented to address the issue?

- A. Upgrade network policy access.
- B. Deploy audit logging and monitoring solution.
- **C. Implement data loss prevention strategy.**
- D. Implement web application firewall.

Answer: C

Explanation:

A Data Loss Prevention (DLP) strategy directly addresses the problem of unauthorized access and exfiltration of sensitive data. DLP tools monitor, detect, and block suspicious data transfers, ensuring that insiders or former employees cannot copy, email, or upload sensitive information without authorization. This provides the required prevention and control that the scenario calls for.

NEW QUESTION # 46

Which benefit does AI provide in network security?

- A. It replaces comprehensive defense in depth.
- **B. It identifies vulnerabilities associated with weak TLS algorithms.**
- C. It provides complete protection from DDoS attacks.
- D. It speeds up network data transmission rates.

Answer: B

Explanation:

AI in network security enhances threat detection and vulnerability identification by analyzing large volumes of traffic and encryption patterns. It can automatically detect risks such as weak TLS algorithm usage, which would otherwise be difficult to identify quickly with manual processes.

NEW QUESTION # 47

Employees in a healthcare organization could not access their devices when they returned to work after the weekend. The security team discovered that a threat actor had encrypted the devices. Which security solution would mitigate the risk in future?

- A. network configuration management
- **B. endpoint detection and response**
- C. data loss prevention
- D. password policy enforcement

Answer: B

Explanation:

Endpoint Detection and Response (EDR) provides continuous monitoring, detection, and automated response to suspicious activity on devices. It can identify and stop ransomware attacks before encryption occurs, mitigating the risk of device lockouts in the future.

NEW QUESTION # 48

A security engineer on an application design team must choose a framework of attack patterns to evaluate during threat modeling. Which framework provides the common set of attacks?

- A. Cisco SAFE
- **B. MITRE CAPEC**
- C. GDPR
- D. SOC2

Answer: B

NEW QUESTION # 49

A global marketing firm, based in California with customers on every continent, suffered a data breach that exposed employee and customer PII. Which regulations is the company in danger of violating?

- **A. GDPR**
- B. ISO SP800-53
- C. FedRamp
- D. ISO27001

Answer: A

Explanation:

The General Data Protection Regulation (GDPR) is a comprehensive data privacy law in the European Union (EU) that has a significant global reach. For a California-based marketing firm with customers on every continent, any breach involving the Personally Identifiable Information (PII) of European residents triggers immediate and severe legal exposure under GDPR. This regulation is unique because of its extraterritorial application; it mandates that any entity-regardless of its physical headquarters-must comply if they offer goods or services to, or monitor the behavior of, individuals located within the EU.

In the event of a data breach, GDPR requires organizations to notify the relevant supervisory authority within 72 hours and, in cases of high risk, notify the affected individuals without undue delay. Failure to implement adequate technical and organizational measures to protect data can result in astronomical fines of up to €20 million or 4% of annual global turnover, whichever is higher. While other frameworks like NIST SP 800-53 (often confused with ISO in Option A) or ISO 27001 (Option D) provide the architectural standards and controls to prevent such incidents, they are voluntary standards or frameworks, not legally binding regulations that a company "violates" in the same sense as GDPR. FedRAMP (Option B) is specific to US federal government cloud service providers and would not typically apply to a private marketing firm's global operations. Thus, GDPR represents the primary regulatory threat for a global firm handling international PII.

NEW QUESTION # 50

.....

The pages of our 300-745 guide torrent provide the demo and you can understand part of our titles and the form of our software. On the pages of our 300-745 exam torrent you can see the version of the product, the updated time, the quantity of the questions and answers, the characteristics and merits of the product, the price of the product and the discounts. The pages also list the details and the guarantee of our 300-745 Exam Torrent, the methods to contact us, the evaluations of the past client on our product, the related exams and other information about our 300-745 guide torrent. So before your purchase you can have an understanding of our product and then decide whether to buy our 300-745 study questions or not.
