Candidates for the C_BCBTM_2509 exam can rely on our practice material because it is of the greatest quality and will assist them in preparing for the SAP certification test successfully on the first try. UpdateDumps's main goal is to offer 100% actual C_BCBTM_2509 Exam Questions in order to help applicants clear the C_BCBTM_2509 test in a short time. We are confident that our updated C_BCBTM_2509 practice questions will help you pass the SAP Certified Associate - Positioning SAP Business Transformation Management Solutions (C_BCBTM_2509) certification exam on the first attempt.

SAP C_BCBTM_2509 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Understanding WalkMe: This section of the exam evaluates the competencies of Digital Adoption Specialists and covers the role of WalkMe within the SAP ecosystem. It focuses on how WalkMe enhances user experience, drives digital adoption, and simplifies workflows across SAP solutions. Candidates learn how WalkMe guidance and automation tools support end-users in navigating complex SAP applications, ultimately improving productivity, engagement, and system utilization.
Topic 2	<ul style="list-style-type: none">Understanding Business Transformation: This section of the exam evaluates the abilities of Business Transformation Advisors and covers the fundamental principles of business transformation in the digital age. It emphasizes recognizing transformation drivers, defining strategic objectives, and integrating technological innovations into organizational change processes. Candidates are expected to understand how SAP tools and methodologies enable efficient transformation planning, execution, and sustainability across various industries.

Topic 3	<ul style="list-style-type: none"> Understanding SAP Signavio and SAP LeanIX Solutions: This section of the exam measures the expertise of Enterprise Architects and focuses on the core concepts of SAP Signavio and SAP LeanIX. It includes understanding how these solutions enhance enterprise architecture management, process intelligence, and business process transformation. Learners explore how SAP Signavio provides visibility into business processes and how SAP LeanIX supports IT landscape transparency, allowing organizations to improve alignment between business goals and IT systems.
Topic 4	<ul style="list-style-type: none"> Positioning SAP Business Transformation Management Solutions: This section of the exam measures the skills of SAP Solution Consultants and focuses on understanding how to position SAP Business Transformation Management solutions within diverse enterprise environments. It covers identifying the value proposition of these solutions, aligning them with customer transformation strategies, and demonstrating how they support business agility and operational excellence through data-driven insights and process optimization.

2026 SAP C_BCBTM_2509: Reliable SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Exam Outline

Both practice exams (web-based & desktop) give a SAP C_BCBTM_2509 real exam feeling and identify your mistakes so you can overcome your weaknesses before the C_BCBTM_2509 final test. The desktop SAP C_BCBTM_2509 Practice Test software works on Windows after software installation. You can take the web-based SAP Certified Associate - Positioning SAP Business Transformation Management Solutions C_BCBTM_2509 practice exam via any operating system.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q28-Q33):

NEW QUESTION # 28

What measures does WalkMe take to enhance data security for enterprise customers?

(Note: There are 3 correct answers to this question.)

- A. Integrating multi-factor authentication for added security layers
- B. Modifying user environments for additional data privacy
- C. Following international privacy regulations to ensure compliance
- D. Offering localized data storage options based on regional requirements
- E. Utilizing advanced encryption methods to protect sensitive data

Answer: A,C,E

Explanation:

WalkMe, as part of the SAP Business Transformation Management (BTM) ecosystem, follows strict enterprise-grade data protection standards. SAP and WalkMe both adhere to GDPR, SOC 2 Type II, and ISO 27001 compliance frameworks to ensure secure handling of enterprise and user data.

"WalkMe employs advanced encryption protocols, multi-factor authentication, and compliance with global privacy standards such as GDPR and SOC 2 to protect customer data." Reference:

Advanced Encryption Methods (Answer A):

WalkMe uses AES-256 and TLS encryption standards to safeguard sensitive data both at rest and in transit.

"Customer data in WalkMe's systems is protected using industry-standard AES-256 encryption, ensuring data confidentiality and integrity." Multi-Factor Authentication (Answer B):

WalkMe provides multi-factor authentication (MFA) to add additional layers of protection for user access and administrative functions.

"Multi-factor authentication provides enhanced protection for access to WalkMe's administrative environments." Compliance with International Privacy Regulations (Answer D):

WalkMe aligns with international laws such as GDPR, CCPA, and SOC 2, ensuring that customer data is processed and stored securely.

"WalkMe complies with international privacy and data protection regulations to guarantee enterprise-level security compliance."

Incorrect Options:

C: Localized storage is not a standard feature; WalkMe uses globally compliant cloud infrastructure.
E: Modifying user environments is not part of WalkMe's data protection strategy.
Verified Correct Answers: A, B, and D

NEW QUESTION # 29

What are the main value drivers of SAP Business Transformation Management solutions?
(Note: There are 2 correct answers to this question.)

- A. They help generate insights into both processes and applications and their dependencies.
- B. They enable customers to discover, analyze, and scope optimization potential during daily operations.
- C. They provide advanced capabilities for blockchain development and cryptocurrency management.
- D. They manage physical inventory in warehouses and real-time transaction processing for retail environments.

Answer: A,B

Explanation:

SAP Business Transformation Management (BTM) solutions deliver value by providing visibility, analytics, and optimization across business processes and IT systems. They integrate SAP Signavio, SAP LeanIX, and WalkMe to enable organizations to understand dependencies, identify inefficiencies, and accelerate transformation initiatives.

"SAP BTM solutions help enterprises gain comprehensive insights into processes, applications, and dependencies, enabling them to discover, analyze, and optimize their operations continuously." Reference:

Generating Insights into Processes and Applications (Answer C):

SAP Signavio and LeanIX together provide a data-driven foundation that helps identify how processes and applications interact, uncovering optimization opportunities and transformation risks.

"By linking process intelligence with enterprise architecture management, SAP BTM solutions generate deep insights into process flows, system dependencies, and business value realization." Discovering and Scoping Optimization Potential (Answer D):

The BTM suite empowers users to continuously monitor performance and identify improvement opportunities during daily operations through analytics and observability.

"SAP BTM enables organizations to discover, analyze, and scope optimization potential within their daily business operations using integrated analytical capabilities." Incorrect Options:

A: Inventory and retail transaction management are handled by SAP S/4HANA and not part of BTM.

B: Blockchain and cryptocurrency management are not components of the BTM solution portfolio.

Therefore, the verified and correct answers as per SAP BTM documentation are:

C: They help generate insights into both processes and applications and their dependencies.

D: They enable customers to discover, analyze, and scope optimization potential during daily operations.

NEW QUESTION # 30

What is the primary benefit of using SAP Business Transformation Management solutions early in a RISE project?
(Note: There are 2 correct answers to this question.)

- A. They make ERP transformations more cost efficient by providing faster insights into operations.
- B. They automate non-critical business functions without supporting overall ERP transformation.
- C. They are primarily focused on human resources management.
- D. The earlier the solutions are leveraged in a transformation project, the more value they can generate.

Answer: A,D

Explanation:

Leveraging SAP Business Transformation Management (BTM) Solutions early in a RISE with SAP project allows organizations to gain critical insights into their existing processes, applications, and technology landscape. This helps accelerate transformation readiness and reduces rework during design and implementation.

"Early adoption of SAP BTM Solutions within RISE projects maximizes value by providing transparency and actionable insights into business processes and IT landscapes, ensuring cost-efficient and faster ERP transformation." Reference:

Early Value Realization (Answer A):

The earlier BTM tools such as SAP Signavio, SAP LeanIX, and WalkMe are applied, the faster organizations can identify inefficiencies and define transformation scope, which increases long-term value generation.

"The earlier SAP BTM tools are introduced, the more transformation value can be realized through early visibility, stakeholder alignment, and optimized process design." Cost Efficiency through Faster Insights (Answer B):

SAP BTM solutions provide data-driven visibility into as-is processes and dependencies, enabling companies to reduce

transformation costs by addressing inefficiencies early.

"SAP BTM enables customers to accelerate decision-making and reduce transformation cost and effort through real-time operational insights." Incorrect Options:

C: BTM solutions do not focus on non-critical automation; they support end-to-end ERP transformation.

D: They are not specific to HR; they span all business domains (Finance, Supply Chain, IT, etc.).

Therefore, the verified and correct answers are:

A: The earlier the solutions are leveraged in a transformation project, the more value they can generate.

B: They make ERP transformations more cost efficient by providing faster insights into operations.

NEW QUESTION # 31

Which use cases are central to SAP LeanIX solutions?

(Note: There are 2 correct answers to this question.)

- A. Technology Risk and Compliance
- B. Application Portfolio Management
- C. Spend Management
- D. Blockchain Analytics

Answer: A,B

Explanation:

SAP LeanIX is primarily focused on providing Enterprise Architecture Management (EAM) and Technology Risk and Compliance (TRC) capabilities, both essential for enabling data-driven transparency and governance in transformation projects.

"Core SAP LeanIX use cases include Application Portfolio Management (APM) and Technology Risk & Compliance (TRC), which help organizations streamline IT landscapes and mitigate risks." Reference:

Application Portfolio Management (Answer B):

SAP LeanIX enables organizations to document, analyze, and optimize their application landscape to ensure efficiency and alignment with business goals.

"The Application Portfolio Management use case helps enterprises assess application value, cost, and redundancy, improving decision-making and IT governance." Technology Risk and Compliance (Answer C):

This feature supports continuous evaluation of IT technology standards and compliance requirements, helping to manage risk exposure and regulatory alignment during transformation.

"Technology Risk and Compliance offers visibility into technology obsolescence, compliance, and cybersecurity risks to support resilient IT operations." Incorrect Options:

A: Spend management belongs to SAP Ariba and SAP Concur, not LeanIX.

D: Blockchain analytics is not a LeanIX function; LeanIX focuses on architecture and compliance, not blockchain technologies.

Verified Correct Answers:

B: Application Portfolio Management

C: Technology Risk and Compliance

NEW QUESTION # 32

What primary issue does WalkMe's solution aim to solve for customers?

- A. Need for upgrading physical infrastructure in organizations
- B. High employee turnover rates
- C. Challenges in adopting and effectively using digital tools
- D. Difficulty in maintaining accurate financial records

Answer: C

Explanation:

The WalkMe Digital Adoption Platform (DAP), which is integrated into SAP's Business Transformation Management (BTM) solutions, primarily addresses the challenge of digital adoption - helping users effectively utilize enterprise software and workflows.

"WalkMe is designed to eliminate user friction with digital systems by providing contextual, in-application guidance and automation that accelerates digital adoption." Reference:

The main problem WalkMe solves is difficulty in adopting and effectively using digital tools, which directly impacts productivity, process efficiency, and transformation success.

"Organizations struggle with the complexity of modern applications; WalkMe's solution enables users to navigate and complete digital processes successfully without training dependency." Options B, C, and D do not represent the platform's focus:
