

Effective Exam H12-891_V1.0 Syllabus & Leader in Qualification Exams & Top H12-891_V1.0: HCIE-Datacom V1.0

What's more, part of that Exam-Killer H12-891_V1.0 dumps now are free: <https://drive.google.com/open?id=1WM2N5Dsau2GneI7RmhNdlSch3LYlomRf>

If you have a strong desire to get the Huawei certificate, our H12-891_V1.0 study materials are the best choice for you. At present, the certificate has gained wide popularity. So the official test syllabus of the H12-891_V1.0 exam begins to become complicated. So you must accept professional guidance. After all, lots of people are striving to compete with many candidates. Powerful competitiveness is crucial to pass the H12-891_V1.0 Exam. Maybe you think that our H12-891_V1.0 study materials cannot make a difference. But you must know that if you do not have a try, your life will never be improved. It is useless that you speak boast yourself but never act. Please muster up all your courage. No one will laugh at a hardworking person. Our H12-891_V1.0 study materials are your good study partner.

We believe that every customer pays most attention to quality when he is shopping. Only high-quality goods can meet the needs of every customer better. And our H12-891_V1.0 study materials have such high quality, because its hit rate of test questions is extremely high. Perhaps you will find in the examination that a lot of questions you have seen many times in our H12-891_V1.0 Study Materials. In addition, the passing rate is the best test for quality of study materials. And we can be very proud to tell you that the passing rate of our H12-891_V1.0 study materials is almost 100 %.

H12-891_V1.0 Latest Test Discount, Valid H12-891_V1.0 Test Vce

It is because of our high quality Huawei H12-891_V1.0 preparation software, PDF files and other relevant products, we have gathered thousands of customers who have successfully passed the Huawei H12-891_V1.0 in one go. You can also attain the same success rate by using our high standard H12-891_V1.0 Preparation products. Thousands of satisfied customers can't be wrong. You must try our products to believe this fact.

Huawei HCIE-Datacom V1.0 Sample Questions (Q48-Q53):

NEW QUESTION # 48

The following description of the PPPoE data frame is correct?(Multiple choice questions).

- A. Once a PPPoE session is established, all Ethernet packets are unicast
- B. When PPPoE passes session data, Code must be set to Ox0
- C. The Ethernet_Type domain is fixed to Ox8863
- D. The Session_ID of the PPP session is not allowed to change and must be the specified in the Discovery phase

Answer: B,D

NEW QUESTION # 49

The telemetry network model is broadly and narrowly defined. Which of the following modules are involved in telemetry in a narrow sense (device-side telemetry)?

- A. Data subscription
- B. Data push
- C. Data generation
- D. Data source

Answer: B,C,D

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Telemetry in a narrow sense refers specifically to the device-side telemetry process, which includes the following key modules:

Data generation (A): The device collects and generates telemetry data, such as performance metrics or operational statistics.

Data push (B): The device actively pushes the collected data to the configured destination (such as a collector or management system) using a data streaming protocol.

Data source (C): The entity on the device that generates or provides the monitored data.

Data subscription (D) is not part of the device-side telemetry; it is related to the management system side, where users subscribe to specific telemetry data streams.

Therefore, the correct answers are A, B, C.

NEW QUESTION # 50

When Huawei iMaster NCE-IP is used to configure SR-MPLS TE tunnels, which of the following protocols is used by the controller to collect device running status information?

- A. BGP-LS
- B. Telemetry
- C. Telnet
- D. IS-IS

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The iMaster NCE-IP controller uses Telemetry to collect real-time device running status information efficiently and with low latency.

Telemetry (A): Enables continuous data streaming to the controller, including network performance and link state information.

Telnet (B): Used for manual device management and not suitable for automated data collection.

BGP-LS (C): Used for distributing link-state information, but not for real-time performance data collection.

IS-IS (D): An IGP protocol, not used for collecting device status.

NEW QUESTION # 51

As shown in the figure, the use of redundant links between the branch and the headquarters to establish IPsec VPN, while turning on URLPF on the Router_B for traffic from branch 1, which of the following options is correct?

- A. When using IPsec multilink redundant backups, URLPF can be enabled under the tunnel interface, and URLPF strict mode can be used
- B. When using IPsec active-standby link redundancy backup, the URLPF function is enabled under the physical interface, and URLPF strict mode can be used.
- C. When using IPsec active-standby link redundant backups to enable the URLPF function under the physical interface, it is recommended to use URLPF loose mode.
- D. When using IPsec multilink redundant backup, the URLPF function can be used under the physical interface, and URLPF strict mode can be used

Answer: A,C

NEW QUESTION # 52

What can be determined from the following figure?

```
<R1> display bgp ipv6 routing-table
```

Total Number of Routes: 2

```
*>i Network : 3002::3
```

NextHop : 3000:FDEA::3

MED : 0

Path/Orgn : i

```
*>i Network : 3002::4
```

NextHop : 3000:FDEA::3

MED : 0

PrefixLen : 128

LocPrf : 100

PrefVal : 0

Path/Orgn : 65001 i

- A. If no routing policy is configured for the AS_Path attribute, 3002::4/128 originates from AS 65001.
- B. If no routing policy is configured for the AS_Path attribute, 3002::4/128 does not originate from AS 65001.
- C. R1 does not have routes 3002::3/128 and 3002::4/128.
- **D. R1 has routes 3002::3/128 and 3002::4/128.**

Answer: D

Explanation:

The command output shows:

```
*>i before both networks, which means these routes are the preferred routes (*) and are learned via internal BGP (i).
```

Two networks are listed: 3002::3 and 3002::4, which means R1 does have these two routes in its BGP IPv6 routing table.

For 3002::4, the path origin shows 65001 i, which means this route originated from AS 65001 and was learned through IBGP.

The AS_Path attribute is only shown for 3002::4, but both routes are clearly present.

Therefore, the correct conclusion is:

D: R1 has routes 3002::3/128 and 3002::4/128.

NEW QUESTION # 53

.....

H12-891_V1.0 practice materials are typically seen as the tools of reviving, practicing and remembering necessary exam questions for the exam, spending much time on them you may improve the chance of winning. However, our H12-891_V1.0 training materials can offer better condition than traditional practice materials and can be used effectively. We treat it as our major responsibility to offer help so our H12-891_V1.0 Practice Guide can provide so much help, the most typical one is their efficiency.

H12-891_V1.0 Latest Test Discount: https://www.exam-killer.com/H12-891_V1.0-valid-questions.html

Time is flying, hope you can begin your review on our H12-891_V1.0 study engine as quickly as possible, As the data shown from recent time, there are more than 28913 candidates joined in Exam-Killer H12-891_V1.0 Latest Test Discount and 3000 returned customers come back to place an order in our website, And the valid H12-891_V1.0 exam pdf written by our certified trainers lead you to the best way possible in order to ensure you get the fundamental knowledge of H12-891_V1.0 troytec exams and make the key points clearer, Huawei Exam H12-891_V1.0 Syllabus They guide our customers in finding suitable jobs and other information as well.
