#### NEW QUESTION # 114

Which of the following data models are included in the Splunk Common Information Model (CIM) add-on? (select all that apply)

- **A. Email**
- B. User permissions
- C. Databases
- **D. Alerts**

**Answer: A,D**

Explanation:

The Splunk Common Information Model (CIM) Add-on includes a variety of data models designed to normalize data from different sources to allow for cross-source reporting and analysis. Among the data models included, Alerts (Option B) and Email (Option D) are part of the CIM. The Alerts data model is used for data related to alerts and incidents, while the Email data model is used for data pertaining to email messages and transactions. User permissions (Option A) and Databases (Option C) are not data models included in the CIM; rather, they pertain to aspects of data access control and specific types of data sources, respectively, which are outside the scope of the CIM's predefined data models.

#### NEW QUESTION # 115

Which of the following searches would return a report of sales by product-name?

- A. `chart sum(price) as sales by product_name`
- B. `timechart list(sales), values(product_name)`
- **C. `stats sum(price) as sales over product_name`**
- D. `chart sales by product_name`

**Answer: C**
