NEW QUESTION # 81

You want to configure the TMS QA Approval procedure for an AS ABAP-based system landscape. Which of the following are pre-defined approval steps that you can choose?

Note: There are 3 correct answers to this question.

- A. To be approved by project manager
- B. To be approved by developer
- C. To be approved by request owner
- D. To be approved by department
- E. To be approved by system administration

Answer: C,D,E

Explanation:

In configuring the TMS (Transport Management System) QA Approval procedure for an AS ABAP-based system landscape, there are pre-defined approval steps available to ensure quality and compliance of transports. These include approval by the request owner (C), which ensures that the individual who created or is responsible for the transport request approves its movement to the next system; approval by the department (D), which may involve a review by a specific organizational unit or team; and approval by system administration (E), ensuring that the system administrators have verified the technical suitability and impact of the transport. Approval by the developer (A) or project manager (B) are not standard predefined steps in the TMS QA Approval procedure, although organizations may customize their processes to include such approvals.
