CFA Institute Certificate in ESG Investing ESG-Investing Prüfungsfragen mit Lösungen (Q473-Q478):

473. Frage
According to the Stockholm Resilience Centre, which of the following planetary boundaries have already been crossed as a result of human activity?

- A. Both climate change and loss of biosphere integrity
- B. Loss of biosphere integrity only
- C. Climate change only

Antwort: A

Begründung:
According to the Stockholm Resilience Centre, both climate change and loss of biosphere integrity are planetary boundaries that have already been crossed as a result of human activity.
* Planetary Boundaries Framework: The Stockholm Resilience Centre's planetary boundaries framework identifies critical thresholds in Earth system processes that should not be crossed to avoid catastrophic environmental changes.
* Crossed Boundaries: Both climate change and loss of biosphere integrity (biodiversity loss) are identified as boundaries that have already been transgressed due to human activities, leading to significant environmental and ecological disruptions.
CFA ESG Investing References:
The CFA Institute's discussions on environmental risks highlight the importance of understanding planetary boundaries in assessing long-term sustainability risks and integrating these considerations into investment decisions.

474. Frage
In France, shareholders eligible for being awarded double voting rights are:

- A. long-standing shareholders of at least two years
- B. founding shareholders during an IPO
- C. minority shareholders that are employee representatives

Antwort: A

Begründung:
In France, shareholders eligible for being awarded double voting rights are long-standing shareholders of at least two years.
* Long-standing shareholders of at least two years (B): French law grants double voting rights to shareholders who have held their shares for a minimum of two years, incentivizing long-term investment and stability in the company's shareholder base.
* Founding shareholders during an IPO (A): Founding shareholders may have significant voting power initially, but double voting rights based on duration of shareholding are specifically granted to those holding shares for at least two years.
* Minority shareholders that are employee representatives (C): While employee representatives can have certain rights and influence, double voting rights are explicitly tied to the duration of shareholding.

475. Frage
Which of the following steps in the ESG rating process is most likely the earliest source of the dispersal of opinions between different ESG rating agencies?

- A. Identification of ESG factors
- B. Determination of weighting and scoring methodologies
- C. Gathering of a set of data points for the identified ESG indicators

Antwort: A

Begründung:

The earliest source of the dispersal of opinions between different ESG rating agencies is most likely the identification of ESG factors.
* Identification of ESG factors (A): Different rating agencies may prioritize and identify different ESG factors based on their proprietary methodologies, resulting in variation from the outset. This initial step influences the entire rating process as it determines which aspects of ESG will be assessed.
* Determination of weighting and scoring methodologies (B): Although critical, discrepancies in weighting and scoring methodologies come after the identification of ESG factors. These methodologies
* vary based on the initial set of factors considered important by each agency.
* Gathering of a set of data points for the identified ESG indicators (C): This step involves data collection based on the previously identified factors and methodologies. Differences in data sources and quality further contribute to variation, but the foundational divergence starts with factor identification.

476. Frage
A common characteristic of the EU Paris-Aligned Benchmarks and the EU Climate Transition Benchmarks is that they both:

- A. permit only green investments.
- B. require a reduction in carbon emissions intensity in the starting year.
- C. permit fossil fuel investments as part of a transition process.

Antwort: B

Begründung:
Both the EU Paris-Aligned Benchmarks and the EU Climate Transition Benchmarks require an initial reduction in carbon emissions intensity in the starting year, to ensure alignment with climate goals and the Paris Agreement. (ESGTextBook[PallasCatFin], Chapter 3, Page 153)

477. Frage
According to the Sustainability Accounting Standards Board (SASB), GHG emission is material for more than 50% of the industries in which sector?

- A. Extractives and minerals processing
- B. Technology and communications
- C. Health care

Antwort: A

Begründung:
According to the Sustainability Accounting Standards Board (SASB), greenhouse gas (GHG) emissions are material for more than 50% of industries in the extractives and minerals processing sector. This sector's activities are closely associated with significant GHG emissions due to the nature of resource extraction and processing operations, making GHG management a critical aspect of their environmental performance.
