P.S. Free & New EAEP2201 dumps are available on Google Drive shared by Exams4Collection: [https://drive.google.com/open?id=1p9uTZ9Lr6sKTTr5t0MYv2Pc\\_5C\\_zoIJ](https://drive.google.com/open?id=1p9uTZ9Lr6sKTTr5t0MYv2Pc_5C_zoIJ)

When you have a lot of electronic devices, you definitely will figure out the way to study and prepare your EAEP2201 exam with them. It is so cool even to think about it. As we all know that the electronic equipment provides the convenience out of your imagination. With our APP online version of our EAEP2201 practice materials, your attempt will come true. Our EAEP2201 exam dumps can be quickly downloaded to the electronic devices.

Our EAEP2201 preparation questions deserve you to have a try. As long as you free download the demos on our website, then you will love our EAEP2201 preparation braindumps for its high quality and efficiency. All you have learned on our EAEP2201 Study Materials will play an important role in your practice. We really want to help you solve all your troubles about learning the EAEP2201 exam. Please give us a chance to prove.

## EAEP2201 Study Materials & EAEP2201 Premium VCE File & EAEP2201 Exam Guide

So rest assured that with the Exams4Collection EAEP2201 exam questions you will get everything that is necessary for EAEP2201 exam preparation and success. Take a decision right now and just get registered in the Esri EAEP2201 certification exam and start preparation with Exams4Collection EAEP2201 Exam Questions. You do not need to get worried about it choose the right Exams4Collection Enterprise Administration Professional 2201 exam questions formats and start this journey without wasting further time.

## Esri Enterprise Administration Professional 2201 Sample Questions (Q63-Q68):

### NEW QUESTION # 63

A GIS analyst publishes a 3D scene from ArcGIS Pro to ArcGIS Enterprise to create a hosted 3D scene layer. Which data store hosts the data for the 3D scene layer?

- A. Raster
- **B. Tile cache**
- C. Relational

**Answer: B**

**Explanation:**

Hosted 3D scene layers are stored in the tile cache data store, which is optimized for storing and serving cached 3D content, such as buildings and elevation surfaces. This data store supports scene layers published from ArcGIS Pro and allows for efficient rendering in 3D web scenes within the portal.

The relational data store is used for feature layers and structured tabular data. The raster data store supports large raster datasets for imagery layers. Neither is appropriate for 3D scene layer content. Thus, for hosted 3D scenes, the correct data store is the tile cache. Reference Source: ArcGIS Enterprise Help - Data store types and publishing workflows

#### NEW QUESTION # 64

An organization's portal license file provides for 30 Editor user type and 15 GIS Professional user type licenses. After performing a needs assessment, the GIS administrator discovers that the organization requires 10 Viewer, 40 Editor, and 20 GIS Professional user type licenses.

When downloading a new license file, how many of each user type license should the administrator specify?

- A. 10 Viewer, 10 Editor, and 5 GIS Professional user type licenses
- B. 40 Editor and 20 GIS Professional user type licenses
- **C. 10 Viewer, 40 Editor, and 20 GIS Professional user type licenses**
- D. 30 Viewer, 30 Editor, and 15 GIS Professional user type licenses

**Answer: C**

Explanation:

When downloading a new license file from My Esri to accommodate the organization's user needs, administrators should request the exact quantities identified in the internal needs assessment:

- \* 10 Viewer
- \* 40 Editor
- \* 20 GIS Professional

These quantities will be used to generate the new license file, which reflects the actual number of entitlements needed. Esri licensing is flexible in this regard, and the administrator can request different counts per type within their entitlements.

From the ArcGIS Enterprise Licensing documentation:

"When generating a new license file for your deployment, you can specify the number of each user type and role needed. The license file will reflect these values, and must match the needs of your organization."

- \* Option A provides insufficient licenses.
- \* Option B omits the necessary Viewer licenses.
- \* Option D reflects original entitlements, not the updated requirement.

#### NEW QUESTION # 65

An organization experiences a temporary loss of service for its ArcGIS Enterprise deployment due to expired licenses.

What should the administrator have done to prevent this issue?

- A. Use the license file in read-only mode to extend the license
- B. Design an information banner to automatically display the license expiration date
- **C. Create a Python script to run an administrative report and schedule the script to run regularly**
- D. Configure the ArcGIS Enterprise portal to send an automated email when the portal license is expiring

**Answer: C**

Explanation:

ArcGIS Enterprise doesn't currently offer automated license expiration email alerts. However, administrators can use administrative scripts to query license status and generate reports that can be automated using task schedulers (e.g., Windows Task Scheduler).

From Esri guidance:

"Administrators can monitor license status using the ArcGIS REST API or scripting tools. Automating these checks allows timely action before licenses expire."

- \* Option A is not a native capability of the portal.
- \* Option C is not tied to licensing and is only useful as a passive alert.
- \* Option D is not a valid license management option.

Reference: ArcGIS Enterprise - Managing License Expiry and Automating Admin Reports

#### NEW QUESTION # 66

An ArcGIS analyst is curating a series of basemaps for field crews editing utility infrastructure in the field.

The analyst must ensure optimal performance.

Which type of service should be published?

- A. Cached map service

- B. Vector tile service
- C. Dynamic map service

**Answer: B**

Explanation:

For field operations, Vector Tile Services are highly efficient and suitable for basemaps. They offer fast rendering, smaller file sizes, and are easily scalable across various devices, including those with limited bandwidth or processing capabilities. Vector tiles also support dynamic styling and are ideal for offline use, which is often necessary for field crews working in areas with limited connectivity.

Cached map services (Option A) are raster-based and can be larger in size, making them less optimal for mobile use. Dynamic map services (Option C) require real-time data rendering, which can be resource-intensive and may not perform well in field conditions with limited connectivity.

Reference Source: ArcGIS Enterprise documentation on customizing basemaps

#### NEW QUESTION # 67

A GIS administrator needs to change the ownership of a shared update group to a different user. The administrator receives an error message: "Unable to reassign the group at this time." What is causing this error?

- A. The sharing settings on the group are configured incorrectly
- B. It is not possible to reassign ownership of shared update groups
- C. The user does not have the correct privileges

**Answer: B**

#### NEW QUESTION # 68

.....

With rigorous analysis and summary of EAEP2201 exam, we have made the learning content easy to grasp and simplified some parts that beyond candidates' understanding. In addition, we add diagrams and examples to display an explanation in order to make the interface more intuitive. Our EAEP2201 Exam Questions will ease your pressure of learning, using less Q&A to convey more important information, thus giving you the top-notch using experience. With our EAEP2201 practice engine, you will have the most relaxed learning period with the best pass percentage.

**EAEP2201 Exam Discount:** <https://www.exams4collection.com/EAEP2201-latest-braindumps.html>

We will send you the latest EAEP2201 exam dumps always once it releases new version, If you prepare Esri EAEP2201 certification, you will want to begin your training, so as to guarantee to pass your exam, Esri EAEP2201 Exam Labs At last, you will not regret your choice, If you are one of those EAEP2201 Enterprise Administration Professional 2201 exam candidates, don't worry because we have a portable file of Esri Enterprise Administration Professional 2201 PDF Questions for you, And after-sales service staff will help you to solve all the questions arising after you purchase EAEP2201 learning question, any time you have any questions you can send an e-mail to consult them.

We are thinking about more features that allow you more EAEP2201 malleability in the framework without causing breaking changes, Exposing the Fallacy of Good Enough" Software.
