Latest 1z0-1080-25 Test Questions - 1z0-1080-25 Updated Demo

As the professional provider of exam related materials in IT certification test, PDF4Test has been devoted to provide all candidates with the most excellent questions and answers and has helped countless people pass the exam. PDF4Test Oracle 1z0-1080-25 study guide can make you gain confidence and help you take the test with ease. You can pass 1z0-1080-25 Certification test on a

moment's notice by PDF4Test exam dumps. Isn't it amazing? But it is true. As long as you use our products, PDF4Test will let you see a miracle.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.
Topic 2	Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system
Topic 3	Explain required and user-defined dimensions; how dimension hierarchies impact Planning
Topic 4	Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 5	Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 6	Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 7	Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 8	Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 9	Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.
Topic 10	Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 11	Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 12	Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 13	Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.
Topic 14	Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 15	Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 16	This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.

Topic 17	Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 18	Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.

Oracle Planning 2025 Implementation Professional Sample Questions (Q64-Q69):

NEW QUESTION # 64

What is the purpose of selecting the Project Benefits option when enabling Projects?

- A. Plan detailed project revenue for Contract projects.
- B. Track the Workforce expense benefits calculated on each Contract project.
- C. Plan detailed project expenses for projects.
- D. Help justify the need for projects and plan nonfinancial benefits.

Answer: D

NEW QUESTION # 65

What can help you optimize your decision-making by performing automated what if analysis in Strategic Modeling?

- A. Consolidations
- B. Simulations
- C. Model Change Management
- D. EPM Automate

Answer: B

NEW QUESTION # 66

Which option describes Intelligent Performance Management (IPM) Insights?

- A. Enables users to keep their work private (from the other non-administrators) as they develop their plans.
- B. Checks when conditions are met in forms, and generates messages when data violates specified condition
- C. Analyzes past data and predicted data, helping you find patterns in data
- D. Displays high-level aggregated information for quick consumptions at a glance

Answer: C

NEW QUESTION # 67

You want to analyze past data and predicted data to help you find patterns and insights into data that you might not have found on your own. To accomplish this, you configure Insights. Which two are steps for configuring Insights?

- A. Select Auto Predict to predict future performance based on historical data using time series forecasting techniques.
- B. Set the Impact Magnitude Threshold to categorize insights into High, Medium, and Low groups.
- C. With Auto Predict selected, select all insights you enter data on them Features page of IPM Configurator.
- D. Select the Distribution Type that best represents your knowledge about the input for the insight.

Answer: A,B

NEW QUESTION # 68

In which three ways can you create data maps that copy data using Smart Push?

- A. Between two Planning instances
- B. From Financial Consolidation and Close to Planning
- C. From Tax Reporting Cloud to Planning
- D. From Planning to Financial Consolidation and Close
- E. From Planning to Tax Reporting Cloud

Answer: A,B,D

Explanation:

In Oracle Planning 2024, Smart Push is a feature within data maps that enables efficient, real-time data movement between Oracle EPM Cloud applications or instances. It copies data dynamically when triggered (e.g., via forms or rules). The three supported ways to create data maps with Smart Push are:

- * A. From Planning to Tax Reporting Cloud: Incorrect. Smart Push does not support direct data movement from Planning to Tax Reporting Cloud, as these modules lack a predefined integration path for this feature.
- * B. From Tax Reporting Cloud to Planning: Incorrect. Similarly, Smart Push does not facilitate data movement from Tax Reporting Cloud to Planning.
- * C. From Financial Consolidation and Close to Planning: Correct. Smart Push supports moving consolidated data (e.g., actuals) from Financial Consolidation and Close (FCC) to Planning for planning purposes.
- * D. From Planning to Financial Consolidation and Close: Correct. Smart Push allows pushing planned data from Planning to FCC for consolidation or reporting.
- * E. Between two Planning instances: Correct. Smart Push can move data between two Planning instances (e.g., test and production environments) to synchronize data.

These three options-C, D, and E-are explicitly supported by Smart Push in Oracle EPM Cloud, as per the documentation, enabling seamless data integration across these applications.
