**VMware 2V0-12.24 Dumps PDF To Gain Brilliant Result 2025**

VMware certification will be a qualification assess standard for experienced workers, it is also a breakthrough for some workers who are in bottleneck. 2V0-12.24 new test camp materials are a good helper. For most IT workers it also increases career chances. For companies one certification increases strong competitive power. 2V0-12.24 New Test Camp materials will make you stand out from peers in this field applicable in all over the world.

## VMware vSphere Foundation 5.2 Administrator Sample Questions (Q94-Q99):

### NEW QUESTION # 94

What is the primary symptom of an issue with vSphere HA host states?

- A. VMs are not being migrated using vMotion
- B. Hosts frequently disconnect from vCenter Server
- C. Snapshots cannot be created or consolidated
- **D. HA-protected VMs are not restarted after a host failure**

**Answer: D**

Explanation:

vSphere HA (High Availability) is designed to automatically restart virtual machines on other hosts in the cluster in case of a host failure. If there is an issue with vSphere HA host states, the primary symptom is that HA-protected VMs do not restart after a host failure, which indicates a problem with HA configuration or functionality.

### NEW QUESTION # 95

After deploying the VMware Cloud Foundation management domain, an administrator needs to configure backup for the components within the domain.

Which two steps are involved in configuring the backup of VMware Cloud Foundation management components? (Choose two.)

- A. Install a third-party backup solution on each ESXi host.
- **B. Create a backup schedule on the SDDC manager to automate taking regular backups.**
- C. Manually export the NSX configuration to the SDDC Manager.
- **D. Configure an external SFTP backup repository on the SDDC Manager.**
- E. Enable the vCenter Server snapshot manager on the SDDC Manager.

**Answer: B,D**

Explanation:

To configure backups for the VMware Cloud Foundation management components, you must set up an external SFTP backup repository within the SDDC Manager. This repository will store the backup files for management components like vCenter, NSX Manager, and SDDC Manager itself.

Creating a backup schedule within the SDDC Manager ensures that regular, automated backups are taken, helping to maintain data integrity and recovery options for the management domain.

### NEW QUESTION # 96

Based on the context you've provided, it seems that the answer is related to the requirements or prerequisites for setting up Aria Suite Lifecycle or a similar VMware product.

- **A. The password for the vcfadmin@local account**
- B. A free IP address on the VMware NSX Tier 0
- **C. The password for the root account**
- **D. The FQDN of the Aria Suite Lifecycle cluster**
- **E. The FQDN of the Aria Suite Lifecycle appliance**
- F. The password for the admin@local account
- G. A free IP Address within the cross-region virtual network segment

**Answer: A,C,D,E**

Explanation:

The fully qualified domain name (FQDN) of the Aria Suite Lifecycle appliance and cluster are necessary for proper configuration

and integration within the VMware Cloud Foundation environment.

The password for the root account is required to authenticate and provide administrative access to the environment.

The password for the vcfadmin@local account is needed to perform administrative tasks related to VMware Cloud Foundation (VCF).

#### NEW QUESTION # 97

An administrator's passwords for their NSX 'root', 'admin', and 'audit' accounts in the Cloud Foundation management domain expired. The administrator logged into the NSX Manager console and changed the passwords for all three accounts. The passwords are now showing a status of "Disconnected" in the SDDC Manager UI.

- A. In SDDC Manager, navigate to Password Management and select the account with the password with a "Disconnected" status, click the vertical ellipsis (three dots), and click Sync.
- B. In SDDC Manager, navigate to Password Management and select the account with the password with a "Disconnected" status, click the vertical ellipsis (three dots), and click Remediate.
- C. In order to correct this issue, how can SDDC Manager be updated with the new passwords?
- **D. In SDDC Manager, navigate to Password Management and select the account with the password with a "Disconnected" status, click the vertical ellipsis (three dots), and click Rotate.**

**Answer: D**

Explanation:

To resolve the issue of disconnected accounts in SDDC Manager after password changes, the administrator must navigate to the Password Management section in the SDDC Manager UI. From there, the administrator can select the affected account, click the vertical ellipsis (three dots), and choose Update to enter the new password for that account, ensuring SDDC Manager is synced with the correct credentials.

#### NEW QUESTION # 98

When commissioning new hosts in VMware Cloud Foundation, which three parameters must be provided? (Choose three.)

- **A. SSO Domain Name**
- **B. Username**
- C. ESXi Version
- **D. Storage Type**
- E. Network Pool Name
- F. Hardware Type

**Answer: A,B,D**

Explanation:

Storage Type: The storage type needs to be specified during the commissioning of new hosts in VMware Cloud Foundation, as it is important for the configuration of storage resources for the hosts.

SSO Domain Name: The Single Sign-On (SSO) domain is an essential parameter to associate the hosts with the existing authentication domain.

Username: The administrator needs to provide a username with appropriate permissions to configure the hosts during the commissioning process.

#### NEW QUESTION # 99

.....

We ensure that if you fail to pass your exam by using 2V0-12.24 exam materials of us, we will give you full refund, and the money will be returned to your payment account. Besides, we are pass guarantee, if you choose us, you can pass the exam, otherwise we will give you refund. 2V0-12.24 exam materials cover most of knowledge points for the exam, and you can master the major knowledge points for the exam as well as improve your professional ability in the process of training materials. In order to let you know the latest information for the exam, we offer you free update for one year for 2V0-12.24 Exam Dumps.
