## Practice 3V0-21.23 Engine & 3V0-21.23 Question Explanations

Different from other similar education platforms, the 3V0-21.23 study materials will allocate materials for multi-plate distribution, rather than random accumulation without classification. How users improve their learning efficiency is greatly influenced by the

scientific and rational design and layout of the learning platform. The 3V0-21.23 study materials are absorbed in the advantages of the traditional learning platform and realize their shortcomings, so as to develop the 3V0-21.23 Study Materials more suitable for users of various cultural levels. If just only one or two plates, the user will inevitably be tired in the process of learning on the memory and visual fatigue, and the 3V0-21.23 study materials provided many study parts of the plates is good enough to arouse the enthusiasm of the user, allow the user to keep attention of highly concentrated.

## VMware vSphere 8.x Advanced Design Sample Questions (Q91-Q96):

- All operating system critical patches must be installed within 24 hours of release.
- All virtual machine templates must be updated every three months in line with company policy.

Which requirement classification is being gathered for the design documentation?

- A. Availability
- B. Recoverability
- C. Manageability
- D. Security

**Answer: C**

### NEW QUESTION # 92

Which design decision must be included in a design to allow for the deployment of a minimum supported configuration of vCenter High Availability (HA)?

- A. A vSphere cluster will consist of more than three nodes
- B. The vCenter HA network will support a latency of less than 50 ms
- C. The deployed vCenter Server will be Tiny
- D. A new subnet will be provisioned for vCenter HA services

**Answer: D**

Explanation:

vcha needs it's own network separate to the management network.
