Using the best business practices for project management you determine that the project correctly aligns with the company goals and the scope of the project is correct.
What is the NEXT step?

- A. Verify budget
- B. Verify constraints
- C. Verify resources
- D. Review time schedules

Answer: C

NEW QUESTION # 188
Which one of the following BEST describes which member of the management team is accountable for the day-to-day operation of the information security program?

- A. Security technicians
- B. Security mangers
- C. Security analysts
- D. Security administrators

Answer: B

Explanation:
* Security managers are responsible for overseeing the day-to-day operations of the information security program.
* Their role includes coordinating activities, managing staff, and ensuring policies and procedures are implemented and followed consistently.
Why Other Options Are Incorrect:
* A. Security administrators: Focus on implementing and maintaining security systems but do not oversee operations.
* C. Security technicians: Handle technical tasks like configuring systems but do not manage programs.
* D. Security analysts: Primarily analyze and report on security events and incidents.
EC-Council CISO Reference:

The curriculum highlights the role of security managers in operational accountability, ensuring the security program functions efficiently.

NEW QUESTION # 189
