API 936 certification program is administered by the American Petroleum Institute (API), a non-profit organization that sets standards for the oil and gas industry. The API 936 certification is widely recognized and respected by employers in the industry, and it can be a valuable asset for professionals seeking to advance their careers.

API-936 is a globally recognized certification exam for refractory personnel. It is designed to provide a comprehensive understanding of refractory materials, installation, testing, and inspection. Refractory Personnel certification is particularly important to those in the oil and gas industry, where refractory materials are used extensively in high-temperature environments. The API-936 Certification is a must-have for refractory inspectors, engineers, and supervisors who are responsible for ensuring the safety and efficiency of refractory installations.

API Refractory Personnel Sample Questions (Q76-Q81):

NEW QUESTION # 76

Packing of chemical setting refractories should have mechanical protection by

- A. Cardboard
- B. Any of the above.
- C. Rigid plastic
- D. Metal outside

Answer: B

NEW QUESTION # 77

A layer coat of refractory lining that is applied to an existing lining in an attempt to extend the lining's life is known as:

- A. paint
- B. overspray
- **C. overlay**
- D. buttercoat

Answer: C

Explanation:

The term "overlay" is defined in refractory terminology as:

"Overlay: A layer of refractory material applied over an existing lining, generally to extend service life or repair localized damage."

- API TR 980, Section 2, Definitions

The other terms do not carry this specific meaning in the context of refractory maintenance.
