SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q46-Q51):

NEW QUESTION # 46

You create a supplier claim notification with reference to material document year, number and item from a goods receipt for the PO. What information is copied to the notification?

Note : 3 correct answer

- A. Advanced Shipping number
- B. Inspection lot number
- C. Purchasing document number and item
- D. Quantity and unit
- E. Material number

Answer: C,D,E

NEW QUESTION # 47

How does the system handle equipment and functional locations in an inspection lot in calibration inspection?

- A. As a material
- B. As physical sample
- C. As a inspection point
- D. As a characteristic

Answer: A

NEW QUESTION # 48

You have created a customer business partner in Sales and Distribution. What are some of the options available for an outbound quality inspection? Note: There are 2 correct answers to this question.

- A. The inspection occurs after release of the sales order
- B. The inspection occurs before the goods issue is posted
- C. The inspection occurs after creation of the sales order
- D. The inspection is skipped

Answer: B,D

Explanation:

Outbound quality inspections (e.g., inspection type 10) in Sales and Distribution (SD) occur for deliveries:

* The Inspection is Skipped (A): If no inspection type (e.g., 10) is active in the material master or quality info record: SD, the inspection can be skipped, a valid option in standard SAP.

* The Inspection Occurs Before the Goods Issue is Posted (D): For inspection type 10, the inspection lot is created with the delivery (before goods issue, transaction VL02N), allowing inspection before stock is moved (standard process).

* After Release of the Sales Order (B): Inspections are tied to deliveries, not sales order release.

* After Creation of the Sales Order (C): Inspection lots are not created at SO creation; they require a delivery.

Thus, "The inspection is skipped" and "The inspection occurs before the goods issue is posted" are the correct answers. References: SAP Help Portal - "Outbound Inspections in QM"; SAP S/4HANA QM User Guide - "SD Integration".

NEW QUESTION # 49

Which business object must you use to create a stability study?

- A. Quality inspection lot
- B. Sample drawing procedure
- C. Physical sample
- D. Quality notification

Answer: D

NEW QUESTION # 50

The adapt field selection function allows you to define a customer specific field selection for quality management screens. Where in the system can you make the adjustments?

- A. In the table control settings
- B. In the IMG settings
- C. In the default settings for QM transactions
- D. In user specific presettings

Answer: A

NEW QUESTION # 51

.....
