PDFVCE is providing a set of **CAP exam questions** with the answers. **CAP practice exams** have been built to imitate the real exam.

The SecOps Group Certified AppSec Practitioner Exam Sample Questions (Q50-Q55):

NEW QUESTION # 50
In the context of the following JWT token, which of the following statements is true?
eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.ey
JUYW1I1joiU2vjbB3ZiNo_mn0vNWT4G1-
ATqOTmo7rm70VI12WCdkMI_S1_bPg_G8

- A. The highlighted segment of the token represents a JWT Header.
- B. The highlighted segment of the token represents a JWT Payload.
- C. None of the above.
- D. Both A and B are correct.

Answer: B

Explanation:
A JSON Web Token (JWT) consists of three parts separated by dots (.):Header,Payload, andSignature. Each part is Base64Url-encoded. The given JWT is:

eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJUYW1I1joiU2vjbB3ZiNo_mn0vNWT4G1-ATqOTmo7rm70VI12WCdkMI_S1_bPg_G8 The first part (eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9) is the Header, which typically includes metadata like the algorithm (alg) and type (typ). Decoding it gives: {"alg":"HS256","typ":"JWT"}.

The second part (eyJUYW1I1joiU2vjbB3ZiNo_mn0vNWT4G1-ATqOTmo7rm70VI12WCdkMI_S1_bPg_G8) is the Payload, which contains claims (e.g., user data, expiration). The highlighted segment corresponds to this second part, making it the Payload. Decoding it (though incomplete due to truncation) would reveal claims in JSON format.

The third part (not fully shown) would be the Signature, used to verify the token's integrity.

Option A ("The highlighted segment of the token represents a JWT Header"): Incorrect, as the highlighted segment is the second part, which is the Payload.

Option B ("The highlighted segment of the token represents a JWT Payload"): Correct, as the highlighted segment is the Payload portion of the JWT.

Option C ("Both A and B are correct"): Incorrect, as only B is correct.

Option D ("None of the above"): Incorrect, as B is correct.

The correct answer is B, aligning with the CAP syllabus under "JWT Security" and "Token-Based Authentication." References: SecOps Group CAP Documents - "JSON Web Tokens (JWT)," "Authentication Security," and "OWASP JWT Cheat Sheet" sections.

NEW QUESTION # 51

In which of the following phases does the SSAA maintenance take place?

- A. Phase 4
- B. Phase 1
- C. Phase 3
- D. Phase 2

Answer: A

Explanation:
