

Exam CC Bootcamp | Test CC Answers

As this new frontier of personalizing the online experience advances, our CC exam guide is equipped with comprehensive after-sale online services. And we have customer service people 24 hours online to deal with your difficulties on our CC exam questions. If you have any question or request for further assistance about the CC study braindumps, you can leave us a message on the web page or email us. All in all, we take an approach to this market by prioritizing the customers first, and we believe the customer-focused vision will help our CC test guide' growth.

ISC CC Exam Syllabus Topics:

Topic	Details
Topic 1	Security Principles: This section of the exam measures skills of Security Analysts and Information Assurance Specialists and covers fundamental security concepts such as confidentiality, integrity, availability, authentication methods including multi-factor authentication, non-repudiation, and privacy. It also includes understanding the risk management process with emphasis on identifying, assessing, and treating risks based on priorities and tolerance. Candidates are expected to know various security controls, including technical, administrative, and physical, as well as the ISC2 professional code of ethics. Governance processes such as policies, procedures, standards, regulations, and laws are also covered to ensure adherence to organizational and legal requirements.
Topic 2	- Network Security: This domain assesses the knowledge of Network Security Engineers and Cybersecurity Specialists. It covers foundational computer networking concepts including OSI and TCP - IP models, IP addressing, and network ports. Candidates study network threats such as DDoS attacks, malware variants, and man-in-the-middle attacks, along with detection tools like IDS, HIDS, and NIDS. Prevention strategies including firewalls and antivirus software are included. The domain also addresses network security infrastructure encompassing on-premises data centers, design techniques like segmentation and defense in depth, and cloud security models such as SaaS, IaaS, and hybrid deployments.
Topic 3	Security Operations: This area targets Security Operations Center (SOC) Analysts and System Administrators. It covers data security with encryption methods, secure handling of data including classification and retention, and the importance of logging and monitoring security events. System hardening through configuration management, baselines, updates, and patching is included. Best practice security policies such as data handling, password, acceptable use, BYOD, change management, and privacy policies are emphasized. Finally, the domain highlights security awareness training addressing social engineering awareness and password protection to foster a security-conscious organizational culture.
Topic 4	Access Control Concepts: This section measures skills of Access Control Specialists and Physical Security Managers in understanding physical and logical access controls. Topics include physical security measures like badge systems, CCTV, monitoring, and managing authorized versus unauthorized personnel. Logical access control concepts such as the principle of least privilege, segregation of duties, discretionary access control, mandatory access control, and role-based access control are essential for controlling information system access.

Topic 5	• Business Continuity (BC), Disaster Recovery (DR) & Incident Response Concepts: This domain targets Business Continuity Planners and Incident Response Coordinators. It focuses on the purpose, importance, and core components of business continuity, disaster recovery, and incident response. Candidates learn how to prepare for and manage disruptions while maintaining or quickly restoring critical business operations and IT services.

Test CC Answers, CC Valid Exam Prep

With the ISC CC Certification Exam, you can demonstrate your skills and upgrade your knowledge. The ISC CC certification exam will provide you with many personal and professional benefits such as more career opportunities, updated and in demands expertise, an increase in salary, instant promotion, and recognition of skills across the world.

ISC Certified in Cybersecurity (CC) Sample Questions (Q375-Q380):

NEW QUESTION # 375

Which aspect of cybersecurity is MOST impacted by Distributed Denial of Service (DDoS) attacks?

- A. Non-repudiation
- B. Confidentiality
- C. Availability
- D. Integrity

Answer: C

NEW QUESTION # 376

What is the first phase in System Development Life Cycle

- A. Feasibility Study
- B. Development Phase
- C. Requirements Analysis Phase
- D. Design Phase

Answer: A

NEW QUESTION # 377

Which term describes a communication tunnel that provides point-to-point transmission of both authentication and data traffic over an untrusted network?

- A. None of the Above
- B. DMZ
- C. Zero Trust
- D. VPN

Answer: D

NEW QUESTION # 378

Which phase of the access control process(AAA) does a user prove his/her identity?

- A. Authentication
- B. Accounting
- C. Identification
- D. Authorization

Answer: A

NEW QUESTION # 379

Which drives for the IPv6 introduction

- A. Because IPv4 was projected to be exhausted
- B. IPV6 support WiFi
- C. IPv4 was not secured
- D. IPv4 not combatible with new devices

Answer: A

NEW QUESTION # 380
