The ExamDumpsVCE CIS-SPM Exam Questions are designed and verified by experienced and qualified ServiceNow CIS-SPM exam trainers. They work together and share their expertise to maintain the top standard of ServiceNow CIS-SPM exam practice test. So you can get trust on ServiceNow CIS-SPM exam questions and start preparing today.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q94-Q99):

NEW QUESTION # 94

What is the default table that stores the idea categories that a user can select from when submitting an idea?

- A. dmn_demand
- B. im_idea_core
- C. im_category
- D. im_module

Answer: C

Explanation:

According to the Category Configuration document, the default table that stores the idea categories that a user can select from when submitting an idea is im_category. This table contains the predefined categories for ideas, such as Business Process, Customer Service, or IT Service. The other options are not correct, as they are not the tables that store the idea categories. The dmn_demand table stores the demand records that are created from the approved ideas. The im_module table stores the idea modules that are used to group ideas by different criteria. The im_idea_core table stores the core fields of the idea records.

NEW QUESTION # 95

Which statement defines the Project Workspace?

- A. A central location for creating and managing projects
- B. A central location to view of all projects in a portfolio to prioritize work
- C. A central location transform the navigation of lists and forms into an interactive graphical experience
- D. A central location for viewing and assessing business demands

Answer: A

Explanation:

Explanation

According to the ServiceNow documentation¹, the Project Workspace is a central location for creating and managing projects. It provides a graphical interface that allows users to view and edit project information, such as tasks, resources, risks, issues, and dependencies. The Project Workspace also enables users to collaborate with team members and stakeholders, track project progress, and generate reports.

The other options are incorrect because:

A: A central location to view of all projects in a portfolio to prioritize work: This describes the Portfolio Workbench, not the Project Workspace².

C: A central location transform the navigation of lists and forms into an interactive graphical experience: This describes the Lens, not the Project Workspace³.

D: A central location for viewing and assessing business demands: This describes the Demand Workbench, not the Project Workspace.

NEW QUESTION # 96

Which stage of the Now Create methodology includes Transition, Mobilize, Prepare and Conduct?

- A. Prepare
- **B. Transition**
- C. Initiate
- D. Close

Answer: B

Explanation:

Explanation

The Transition stage of the Now Create methodology includes the activities of Transition, Mobilize, Prepare and Conduct. This stage is focused on transitioning the solution from development to production, mobilizing the stakeholders for the go-live, preparing the environment and data for the launch, and conducting the final testing and validation. You can find more information about the Transition stage in the Now Create ebook or the Project Methodology website for ServiceNow.

NEW QUESTION # 97

Depending on the execution type selected for a particular project, one of these dashboards will also be available:

- A. PMO Dashboard
- B. User Manager Dashboard
- **C. Project Summary - Waterfall Dashboard**
- D. Timecard Dashboard

Answer: C

Explanation:

Explanation

According to the Project Summary - Waterfall Dashboard document, depending on the execution type selected for a particular project, the Project Summary - Waterfall Dashboard will also be available. This dashboard provides a comprehensive view of the project status, progress, and performance using various widgets. The other options are not correct, as they are not dashboards that are dependent on the execution type of the project. The Timecard Dashboard is a dashboard that displays the time worked by users on various tasks. The User Manager Dashboard is a dashboard that displays the user management activities and statistics. The PMO Dashboard is a dashboard that displays the portfolio and project performance and health.

NEW QUESTION # 98

Users with what role can be considered for resource planning?

- A. it_user.
- B. it_pps_user.
- **C. pps_resource.**
- D. it_project_user.

Answer: C

Explanation:

Explanation

According to the ServiceNow Resource Management document, users with the pps_resource role can be considered for resource planning, as this role grants access to the Resource Management application and allows the users to view and update their resource allocations. The other options are not correct, as they are not roles that are related to resource planning. The it_project_user role grants access to the Project Portfolio Management application and allows the users to create and update projects. The it_user role grants access to the IT Service Management application and allows the users to manage incidents, problems, and changes. The

it_pps_user role grants access to the Project Portfolio Suite application and allows the users to manage portfolios, programs, and projects.

NEW QUESTION # 99

.....
