- **B. authority**
- C. identity

Answer: B

What cultural implication would a therapist need to be mindful of, when providing services to a Chinese exchange student trying to adjust to life in an American family?

- A. marginalization
- B. discrimination
- **C. acculturation**

Answer: C

Explanation:

Acculturation refers to the process by which individuals from one culture adjust to and adopt aspects of another culture, often when living in a new country. A therapist must be mindful of the acculturation process, as the student may experience challenges balancing their original cultural identity with the expectations and norms of the American family. "Acculturation is a central concern when individuals from one culture adapt to a new cultural environment, which can impact emotional adjustment and identity." Reference: Helwig, A. A. (2020). "Kuder-Richardson formulas provide an index of reliability that represents the average of all possible split-half coefficients for a test." Reference: Helwig, A. A. (2020). CPCE Study Guide and Review; Cohen, R. J., & Swerdlik, M. E. (2018).
