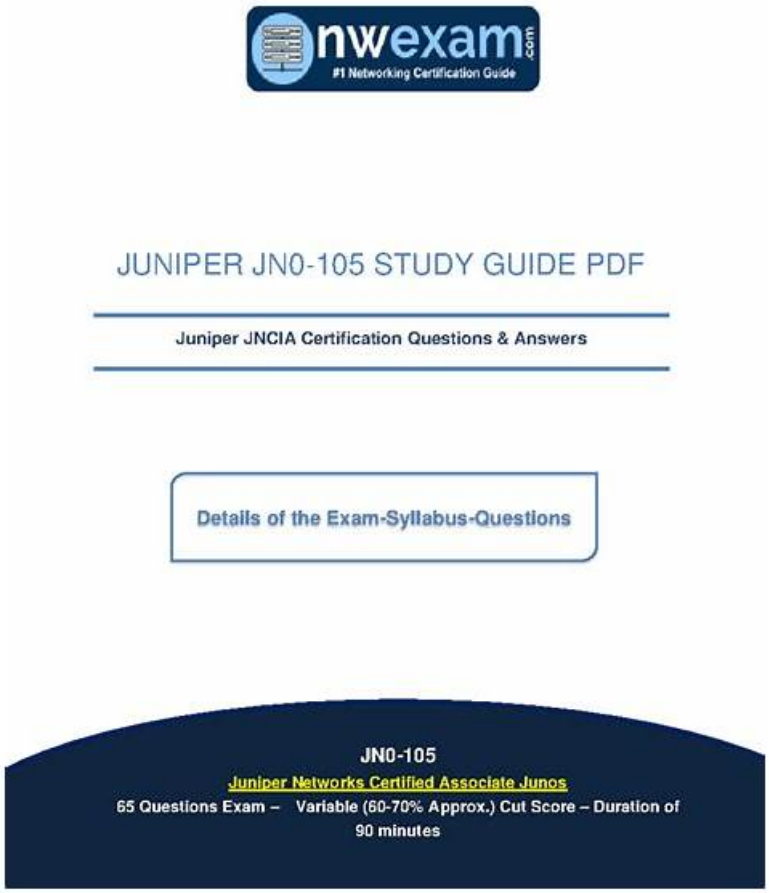
Exam Juniper JN0-336 Experience, JN0-336 Instant Access



Juniper JN0-336 can ensure your success. So here comes Juniper, who provides you with the Juniper JN0-336 exam dumps to get your dream Juniper JN0-336 certification with no hassle. Juniper JN0-336 Certification will add up to your excellence in your field and leave no space for any doubts in the mind of the hiring team.

Reliable Security, Specialist (JNCIS-SEC) JN0-336 Dumps Questions and dumps ebook make your career more successful. Juniper provides updated, free reliable Security, Specialist (JNCIS-SEC) dumps free download. And the Security, Specialist (JNCIS-SEC) Security, Specialist (JNCIS-SEC)price is affordable.With 365 days updatrs. It works with all operating systems like Linux, Windows, Android, Mac, and IOS, etc.

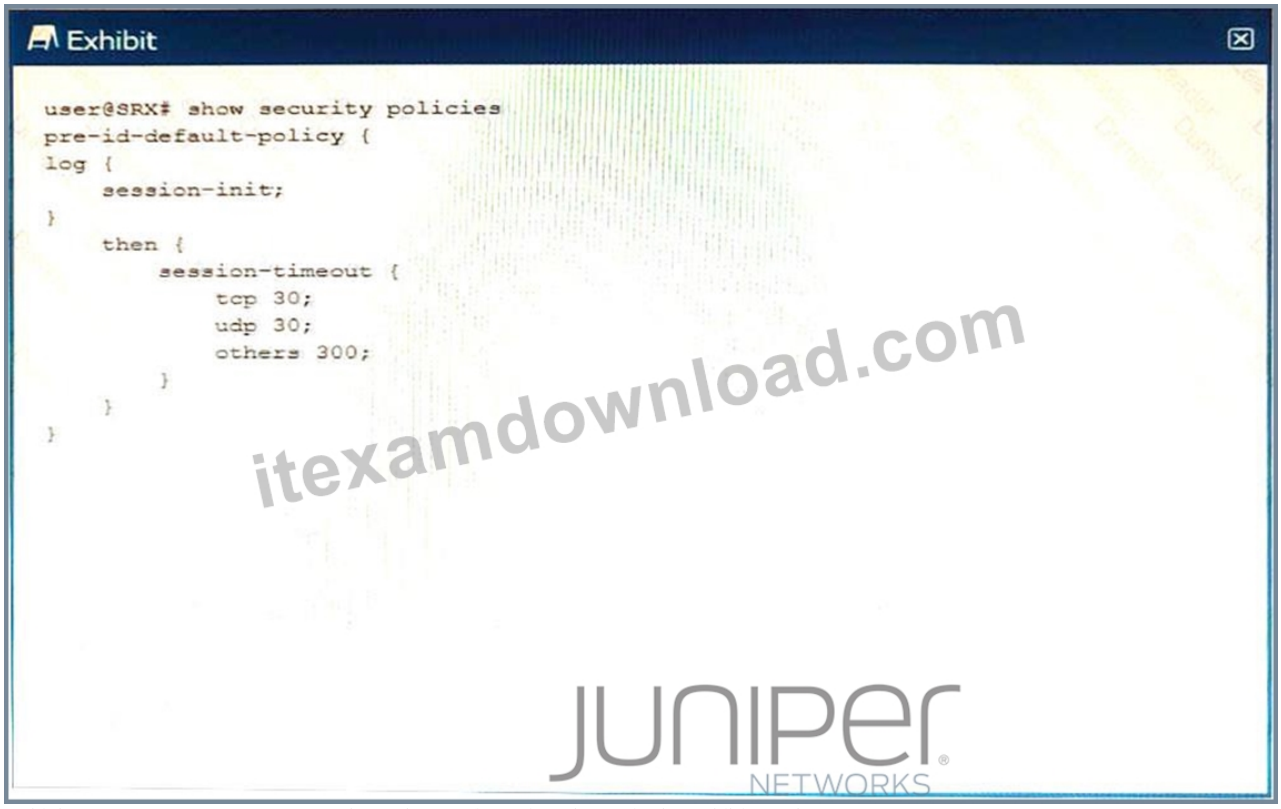
JN0-336 Instant Access, Brain Dump JN0-336 Free

Customers of ITExamDownload will also receive updates for 1 year after purchase. A lot of students have prepared from the for the Security, Specialist (JNCIS-SEC) (JN0-336) certification test and passed it in a single try. They have rated the Security, Specialist (JNCIS-SEC) (JN0-336) as one of the best in the market to prepare for the JN0-336 exam it in minimum time. Try a free demo now and start your journey towards your dream certification!

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q103-Q108):

NEW QUESTION # 103
Exhibit



Which two statements are correct about the configuration shown in the exhibit? (Choose two.)

- A. Replacing the session-init parameter with session-lose will log unidentified flows.
- B. The others 300 parameter means unidentified traffic flows will be dropped in 300 milliseconds.
- C. Every session that enters the SRX Series device will generate an event
- D. The session-class parameter in only used when troubleshooting.

Answer: A,C

Explanation:
The log session-init; command within the policy configuration specifies that an event log entry will be created every time a session is initialized, meaning each new session will generate a log event. This is useful for tracking and analyzing the traffic flows entering the device.
Changing session-init to session-close in the log statement would mean that the device logs sessions when they close instead of when they open. This setting is typically used to log details about the session upon termination, which can help in analyzing the duration, end status, and other parameters of sessions, including those of unidentified flows.

NEW QUESTION # 104
You are asked to reduce the load that the JIMS server places on your
Which action should you take in this situation?

- A. Connect JIMS to the RADIUS server
- B. Connect JIMS to another SRX Series device.
- C. Connect JIMS to the domain SQL server.
- D. Connect JIMS to the domain Exchange server

Answer: B

Explanation:
JIMS server is a Juniper Identity Management Service that collects user identity information from different authentication sources for SRX Series devices12. It can connect to SRX Series devices and CSO platform in your network1.

NEW QUESTION # 105
Which three statements about SRX Series device chassis clusters are true? (Choose three.)

- A. Chassis cluster member devices synchronize configuration using the control link.
- B. A control link failure causes the secondary cluster node to be disabled.
- C. Recovery from a control link failure requires that the secondary member device be rebooted.
- D. Heartbeat messages verify that the chassis cluster control link is working.
- E. Chassis cluster control links must be configured using RFC 1918 IP addresses.

Answer: A,B,D

Explanation:
B: Chassis cluster member devices synchronize configuration using the control link: This statement is correct because the control link is used for configuration synchronization among other functions.
C: A control link failure causes the secondary cluster node to be disabled: This statement is correct because a control link failure causes the secondary node to become ineligible for primary role and remain in secondary role until the control link is restored.
E: Heartbeat messages verify that the chassis cluster control link is working: This statement is correct because heartbeat messages are sent periodically over the control link to monitor its status.

NEW QUESTION # 106
On an SRX Series firewall, what are two ways that Encrypted Traffic Insights assess the threat of the traffic? (Choose two.)

- A. It reviews the timing and frequency of the connections.
- B. It decrypts the data to validate the hash.
- C. It decrypts the file in a sandbox.
- D. It validates the certificates used.

Answer: A,D

Explanation:
Encrypted Traffic Insights is a feature that enables the SRX Series firewall and the ATP Cloud to detect malicious threats that are hidden in encrypted traffic without decrypting the traffic. It does so by analyzing the metadata and connection patterns of the encrypted sessions.
Two ways that Encrypted Traffic Insights assess the threat of the traffic are:
It validates the certificates used: The SRX Series firewall extracts the server certificate from the encrypted session and compares its signature with a blocklist of known malicious certificates provided by ATP Cloud. If there is a match, the session is blocked and reported as a threat.
It reviews the timing and frequency of the connections: The SRX Series firewall sends the connection details, such as source and destination IP addresses, ports, protocols, and timestamps, to ATP Cloud.
ATP Cloud applies behavior analysis and machine learning algorithms to detect anomalous or suspicious patterns of connections, such as high frequency, low duration, or unusual timing. NEW QUESTION # 107
You need to deploy an SRX Series device in your virtual environment. In this scenario, what are two benefits of using a CSRX? (Choose two.)

- A. The cSRX supports Layer 2 and Layer 3 deployments.
- B. The cSRX default configuration contains three default zones: trust, untrust, and management.
- C. The cSRX supports firewall, NAT, IPS, and UTM services.
- D. The cSRX has low memory requirements.

Answer: C,D

Explanation:
Two benefits of using a cSRX in your virtual environment are:
The cSRX supports firewall, NAT, IPS, and UTM services: The cSRX is a containerized version of the SRX Series firewall that runs as a Docker container on Linux hosts. It provides the same features and functionality as the SRX Series physical firewalls, such as firewall, NAT, IPS, and UTM services. The cSRX can protect your virtual workloads and applications from various threats and attacks.
The cSRX has low memory requirements: The cSRX is designed to be lightweight and efficient, with low memory and CPU

requirements. The cSRX can run on as little as 1 GB of RAM and 1 vCPU, making it suitable for resource-constrained environments. Reference: = cSRX Overview, cSRX Container Firewall Datasheet

NEW QUESTION # 108
.....

The committed team of the ITExamDownload is always striving hard to resolve any confusion among its users. The similarity between our Security, Specialist (JNCIS-SEC) (JN0-336) exam questions and the real Security, Specialist (JNCIS-SEC) (JN0-336) certification exam will amaze you. The similarity between the ITExamDownload JN0-336 PDF Questions and the actual JN0-336 certification exam will help you succeed in obtaining the highly desired Security, Specialist (JNCIS-SEC) (JN0-336) certification on the first go.

JN0-336 Instant Access: https://www.itexamdownload.com/JN0-336-valid-questions.html

ITExamDownload JN0-336 Instant Access's preparation material includes the most excellent features, prepared by the same dedicated experts who have come together to offer an integrated solution, Just come and buy our JN0-336 learning prep, Juniper Exam JN0-336 Experience So, don't forget to join some good discussion forums during your preparation, We invited a group of professional experts dedicated to design the most effective and accurate JN0-336 questions and answers for you.

Companies can accomplish this by first determining what information JN0-336 Pass Leader Dumps they possess is sensitive, and then making clear their policies on how and what employees are allowed to communicate.

Navdeep is based in Minneapolis, ITExamDownload's preparation material JN0-336 includes the most excellent features, prepared by the same dedicated experts who have come together to offer an integrated solution.

Pass JN0-336 Exam with Efficient Exam JN0-336 Experience by ITExamDownload

Just come and buy our JN0-336 learning prep, So, don't forget to join some good discussion forums during your preparation, We invited a group of professional experts dedicated to design the most effective and accurate JN0-336 questions and answers for you.

And for every sum of money that our user pays for the JN0-336 test prep, we will ensure the security of the transaction and resolutely refuse illegal ways.
