Pass MB-335 Guarantee, MB-335 Valid Dumps Ebook

In general, we can say that the MB-335 certification can be a valuable investment in your career that will put your career on the right track and you can achieve your career objectives in a short time period. These are some important benefits that you can gain after passing the Microsoft MB-335 Certification Exam. Are you ready to pass the MB-335 exam? Looking for a simple, quick, and proven way to pass the Microsoft MB-335 Exam Questions? If your answer is yes then download Dumps4PDF exam questions and start this journey today.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q175-Q180):

NEW QUESTION # 175

A company plans to implement routing and route postings.

You must direct posting of route cards based upon the route group at Report as finished. You set the start default order for route posting to Never and the Report as finished to Route Group Dependent.

You set up the route group as shown below.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 176

You need to configure the warehouse manager's ModelA subassembly production requirements. Which setting should you use? To

answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 177

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A manufacturing plant uses Lean processes. You plan to outsource a painting operation to a subcontracting vendor. You create a service item named SP-01 to represent the painting service.

You need to create a subcontracting activity for the painting service.

Solution:

- * Create a purchase agreement for the subcontracting vendor that contains the pricing information for SP-01.
- * Create a vendor resource and a work cell for outsourced painting, then add the resource to the work cell.
- * Create a production flow process activity using the painting work cell and the service item as the picking activity.
- * Create a service term on the activity to tie the purchase agreement to the activity.

Does the solution meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:

The solution meets the goal. Here is the explanation:

To create a subcontracting activity for the painting service, you should use the following steps1:

Create a purchase agreement for the subcontracting vendor that contains the pricing information for SP-01. This step is correct, because you need to create a purchase agreement that defines the terms and conditions for purchasing the subcontracting service from the vendor1. You also need to add a purchase agreement line for SP-01 and specify the quantity and price of the service.

Create a vendor resource and a work cell for outsourced painting, then add the resource to the work cell. This step is correct, because you need to create a resource that is assigned to the vendor account and add it to a resource group that represents the subcontracting work cell1. This way, you can assign the subcontracting activity to the vendor resource.

Create a production flow process activity using the painting work cell and the service item as the picking activity. This step is correct,

because you need to create a process activity that represents the subcontracting service in the production flow¹. You also need to specify the painting work cell as the resource group and SP-01 as the product of the process activity. You also need to select the Generate license plate option on the mobile device menu item that is used for reporting as finished¹.

Create a service term on the activity to tie the purchase agreement to the activity. This step is correct, because you need to create a service term that links the purchase agreement line to the production flow process activity¹. A service term defines how a service item is consumed in production and how it is invoiced by the vendor.

1: Activity-based subcontracting

NEW QUESTION # 178

A company produces custom-made bicycles that offer many different configurations.

Your standard bicycle, B-0001, is made with many common components such as a frame and wheels.

Customers can choose between two frames: F-0001 or F-0009. Wheel W-0001 is only compatible with frame F-0001.

You create the following configuration groups: Frames, Wheels

You need to ensure that users can only select valid combinations of frames and wheels.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create a new Bill of materials version with component lines for the frames and wheel options.

Assign the Frames and Wheels configuration groups to the frame and wheel items respectively.

Configure the two bicycle configurations.

Add the Frames and Wheels configuration groups to the configuration route.

Create a configuration rule for the Frames group that selects valid wheels when a frame is selected.

Answer Area

Microsoft

Answer:

Explanation:

Actions

- Create a new Bill of materials version with component lines for the frames and wheel options.
- Assign the Frames and Wheels configuration groups to the frame and wheel items respectively.
- Configure the two bicycle configurations.
- Add the Frames and Wheels configuration groups to the configuration route.
- Create a configuration rule for the Frames group that selects valid wheels when a frame is selected.

Answer Area

- Assign the Frames and Wheels configuration groups to the frame and wheel items respectively.
- Create a new Bill of materials version with component lines for the frames and wheel options.
- Add the Frames and Wheels configuration groups to the configuration route.
- Configure the two bicycle configurations.
- Create a configuration rule for the Frames group that selects valid wheels when a frame is selected.

Explanation

Assign the Frames and Wheels configuration groups to the frame and wheel items respectively

Create a new Bill of materials version with component lines for the frames and wheel options

Add the Frames and Wheels configuration groups to the configuration route

Configure the two bicycle configurations

NEW QUESTION # 179

You are a production manager at a company which produces large batches of coffee and creamers.

After a quality inspection, batch 120008 of your cold brew coffee (item number CB-0001) was found to be too acidic and must be reworked.

You need to add 20 grams of sugar and stir the product for an additional 0.5 hours.

What three actions are required on the rework order? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Manually reserve batch 120008 after estimating the batch order.
- **B. Delete all route operations except for a half an hour stirring operation.**
- **C. Add 20 grams of sugar to the production formula.**
- D. Delete all items from the production formula except for 20 grams of sugar.
- **E. Add a route operation for 0.5 run time hours of stirring.**

Answer: B,C,E

Explanation:

The correct answer is B, C, and E. Here is the explanation:

To rework a batch order in Dynamics 365 Supply Chain Management, you need to create a new batch order and set the Rework batch toggle to Yes¹. You also need to select the Batch number of the original batch that needs to be reworked¹. The new batch order will have only one formula line that represents the original batch, and no route operations¹.

To add 20 grams of sugar and stir the product for an additional 0.5 hours, you need to do the following actions on the rework order: Add 20 grams of sugar to the production formula. You can do this by clicking on the Formula option on the All production orders form and adding a new formula line for sugar with a quantity of 20 grams¹. You can also specify the ingredient type for sugar, such as Compensating or Filler².

Add a route operation for 0.5 run time hours of stirring. You can do this by clicking on the Route option on the All production orders form and adding a new route operation for stirring with a run time of 0.5 hours¹. You can also specify the resource or resource group that will perform the stirring operation³.

Delete all route operations except for a half an hour stirring operation. You can do this by clicking on the Route option on the All production orders form and deleting any existing route operations that are not related to stirring¹. This way, you can avoid unnecessary steps and costs for the rework order.

NEW QUESTION # 180

.....

What is the measure of competence? Of course, most companies will judge your level according to the number of qualifications you have obtained. It may not be comprehensive, but passing the qualifying exam is a pretty straightforward way to hire an employer. Our MB-335 Study Materials on the market this recruitment phenomenon, tailored for the user the fast pass the examination method of study, make the need to get a good job have enough leverage to compete with other candidates.
