Exam Network-and-Security-Foundation Topic | Network-and-Security-Foundation New Practice Questions

We have to admit that the processional certificates are very important for many people to show their capacity in the highly competitive environment. If you have the WGU certification, it will be very easy for you to get a promotion. If you hope to get a job with opportunity of promotion, it will be the best choice chance for you to choose the Network-and-Security-Foundation study question from our company. Because our study materials have the enough ability to help you improve yourself and make you more excellent than other people. The Network-and-Security-Foundation learning dumps from our company have helped a lot of people get the certification and achieve their dreams. Now you also have the opportunity to contact with the Network-and-Security-Foundation test guide from our company.

Our company has always been following the trend of the Network-and-Security-Foundation certification. Our research and development team not only study what questions will come up in the Network-and-Security-Foundation exam. The content of our Network-and-Security-Foundation practice materials is chosen so carefully that all the questions for the exam are contained. And our study materials have three formats which help you to read, test and study anytime, anywhere. This means with our products you can prepare for exams efficiently. If you desire a Network-and-Security-Foundation Certification, our products are your best choice.

WGU Exam Network-and-Security-Foundation Topic & VCETorrent - Leader in Qualification Exams & Network-and-Security-Foundation New Practice Questions

We will continue to pursue our passion for better performance and human-centric technology of latest Network-and-Security-Foundation quiz prep. And we guarantee you to pass the exam for we have confidence to make it with our technological strength. A good deal of researches has been made to figure out how to help different kinds of candidates to get the Network-and-Security-Foundation certification. We treasure time as all customers do. Therefore, fast delivery is another highlight of our laTest Network-and-Security-Foundation Quiz prep. We are making efforts to save your time and help you obtain our product as quickly as possible. We will send our Network-and-Security-Foundation exam guide within 10 minutes after your payment. You can check your mailbox ten minutes after payment to see if our Network-and-Security-Foundation exam guide are in.

WGU Network-and-Security-Foundation Sample Questions (Q55-Q60):

NEW QUESTION # 55
When setting up a network, a technician needs a router that creates an access point.

Which router should be used?

- A. Core router
- B. Wireless router
- C. Broadband router
- D. Inter-provider border router

Answer: B

Explanation:
Awireless routeris designed to create an access point that allows wireless devices to connect to a network. It combines the functions of a traditional router with a wireless access point, enabling communication between wired and wireless devices. These routers use Wi-Fi standards (e.g., 802.11ac, 802.11ax) to transmit data wirelessly.
* Broadband routersprimarily provide internet connectivity but do not necessarily include Wi-Fi functionality unless specified.
* Core routershandle large-scale data routing in the backbone of networks but are not designed for access point creation.
* Inter-provider border routersfunction at an ISP level for routing traffic between different networks, not for providing user access.

NEW QUESTION # 56
A company has a legacy network in which all devices receive all messages transmitted by a central wire.
Which network topology is described?

- A. Bus
- B. Point-to-point
- C. Star
- D. Ring

Answer: A

Explanation:
ABus topologyis a network setup in which all devices share a single communication channel (central wire), and data is transmitted along this cable. Each device listens for data but only processes packets addressed to it.
This topology was widely used in older Ethernet networks.
* Star topologyuses a central switch or hub, not a shared wire.
* Point-to-point topologyinvolves a direct link between two devices, not multiple devices sharing a medium.
* Ring topologyconnects each device to two adjacent devices in a circular path, not a single shared bus.

NEW QUESTION # 57
After a series of attacks, an organization needs to bolster its data protection measures.
Which strategy should be used to increase data protection?

- A. Have restoration policies in place
- B. Use a variable network topology
- C. Implement wired equivalent privacy (WEP)
- D. Require that passwords change weekly

Answer: A

Explanation:
Having restoration policies in placeensures that in the event of data breaches, ransomware, or system failures, data can be quickly restored from secure backups. This minimizes downtime and data loss.
* Using a variable network topologydoes not directly improve data security.
* Changing passwords weeklymay lead to weaker security due to password fatigue.
* WEPis obsolete and does not provide strong encryption for data protection.

NEW QUESTION # 58
An organization's network has been the target of several cyberattacks.
Which strategy should the organization use for Wi-Fi hardening?

- A. Disable ESSID broadcasting
- B. Add more access points
- C. Trust local hosts by default
- D. Implement wired equivalent privacy (WEP)

Answer: A

Explanation:
Disabling ESSID broadcastingprevents the Wi-Fi network name from being publicly visible,making it harder for attackers to discover and target the network. While this is not a foolproof security measure, it adds an additional layer of protection against unauthorized access.
* Trusting local hosts by defaultis risky and not a security best practice.
* Adding more access pointsimproves coverage but does not enhance security.
* WEPis outdated and highly vulnerable to attacks; WPA2 or WPA3 should be used instead.

NEW QUESTION # 59
A person is troubleshooting a network issue and needs to see a list of all active network connections.
Which Linux command should be used?

- A. nslookup
- B. ifconfig
- C. dig
- D. netstat

Answer: D

Explanation:
Thenetstatcommand in Linux displays active network connections, listening ports, and network statistics. It is useful for diagnosing network issues and identifying open connections.
* nslookupis for DNS queries.
* digprovides DNS information, not network connection status.
* ifconfigshows network interface details but does not list active connections.

NEW QUESTION # 60
......

As you see, all of the three versions of our Network-and-Security-Foundation exam dumps are helpful for you to get the Network-and-Security-Foundation certification. So there is another choice for you to purchase the comprehensive version which contains all the three formats. And no matter which format of Network-and-Security-Foundation study engine you choose, we will give you 24/7 online service and one year's free updates. Moreover, we can assure you a 99% percent pass rate.

Network-and-Security-Foundation New Practice Questions: https://www.vcetorrent.com/Network-and-Security-Foundation-valid-vce-torrent.html

Fortunately, the Network-and-Security-Foundation practice test compiled by our company are the best choice for you, you just lucky enough to click into this website, since you are sure to pass the Network-and-Security-Foundation exam as well as getting the related certification under the guidance of our Network-and-Security-Foundation study guide which you can find in this website easily, WGU Exam Network-and-Security-Foundation Topic But if you don't have PayPal, you can use your credit card through PayPal, and note that we use paypal as a payment method to protect your information and transactions.

Determining the best way to manage your projects is both art and science, Build a graph representing the relationship between those elements, Fortunately, the Network-and-Security-Foundation practice test compiled by our company are the best choice for you, you just lucky enough to click into this website, since you are sure to pass the Network-and-Security-Foundation Exam as well as getting the related certification under the guidance of our Network-and-Security-Foundation study guide which you can find in this website easily.

Pass Guaranteed Quiz WGU - Network-and-Security-Foundation - Unparalleled Exam Network-and-Security-Foundation Topic

But if you don't have PayPal, you can use your credit card Network-and-Security-Foundation through PayPal, and note that we use paypal as a payment method to protect your information and transactions.

We guarantee 100% pass exam, No Help, No Pay, Our candidates can Network-and-Security-Foundation New Practice Questions save a lot of time with our Network-and-Security-Foundation valid exam dump, which makes you learn at any time anywhere in your convenience.

You will spend one or two days to practice the Network-and-Security-Foundation dumps questions and remember the key knowledge of Network-and-Security-Foundation dumps torrent skillfully.
