Oracle 1z0-1080-25 Test Review

Latest Oracle 1z0-1080-25 Learning Material - 1z0-1080-25 Brain Exam

We have authoritative production team made up by thousands of experts helping you get bang of our Oracle Accounting Hub Cloud 2022 Implementation Professionals study material and enjoy the high quality study experience. We will update the content of 1z0-1080-25 test guide from time to time according to recent changes of examination outline and current products, to make every candidate can be well prepared and complete the exam fully in the shortest time. Besides, our 1z0-1080-25 Brain Exam can help you optimize your learning method by simplifying intricate concepts so that you can master better. One study is enough, with our 1z0-1080-25 test guide, there is no doubt that you can use these your precious time on 100% hours of practice before you take the exam.

Oracle Accounting Hub Cloud 2022 Implementation Professionals Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which statement is true about managing data access for users?

- A. Data assignments can be made only to users who are assigned to specific user roles.
- B. Data assignments can be made to all users without a role assignment.
- C. Data assignments can be made only to users who are assigned to specific job roles.
- D. Data assignments can be made only to users who are assigned to specific data roles.

Answer: C

NEW QUESTION # 54

What is a user job role data context assignment?

- A. Security data role context assignment to a user job role.
- B. Security data role context assignment to a user job role.
- C. Security data role assignment to a user job role.
- D. Data role context assignment to a user.

Answer: A

Your eligibility of getting a high standard of career situation will be improved if you can pass the exam, and our 1z0-1080-25 practice materials are your most reliable ways to get it. You can feel assertive about your exam with our 100 guaranteed professional 1z0-1080-25 practice materials, let along various opportunities like getting promotion, being respected by surrounding people on your profession's perspective. All those beneficial outcomes come from your decision of our 1z0-1080-25 practice materials. We are willing to be your side offering whatever you need compared to other exam materials that malfunctioning in the market.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 2	• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.

Topic 3	• Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 4	• Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.
Topic 5	• This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 6	• Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 7	• Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.
Topic 8	• Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 9	• Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 10	• Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 11	• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 12	• Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 13	• Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 14	• Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.
Topic 15	• Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 16	• Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 17	• Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.
Topic 18	• Explain required and user-defined dimensions; how dimension hierarchies impact Planning
Topic 19	• Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.
Topic 20	• Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.

Topic 21	• Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.
Topic 22	• Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system
Topic 23	• Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 24	• Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 25	• Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.
Topic 26	• Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.

Latest Oracle 1z0-1080-25 Learning Material | 1z0-1080-25 Reliable Exam Labs

We can confidently say that Our 1z0-1080-25 training quiz will help you. First of all, our company is constantly improving our products according to the needs of users. If you really want a learning product to help you, our 1z0-1080-25 study materials are definitely your best choice, you can't find a product more perfect than it. Second, our 1z0-1080-25 learning questions have really helped a lot of people. Looking at the experiences of these seniors, I believe that you will definitely be more determined to pass the 1z0-1080-25 exam.

Oracle Planning 2025 Implementation Professional Sample Questions (Q28-Q33):

NEW QUESTION # 28

Which three are required when enabling Flexible Account Mapping in Workforce?

- A. Enable Flexible Account Mapping only when you bring your own chart of accounts in Financials.
- B. Enable Financials and the Financials Expense planning option to enable this feature.
- C. For Mapping Level, specify whether the mapping should be done at the Global level (the same mapping for every entity) or at the Entity level.
- D. Specify whether Mapping Drivers should be based on Grade or on Defaults for the application.
- E. Map Salary and Merit from Workforce to the same account in Financials and Projects.

Answer: B,C,D

NEW QUESTION # 29

Which card in the Application cluster allows you to enable modules?

- A. Tools
- B. Enable Features
- C. Configure
- D. Cube Editor
- E. Settings

Answer: C

Explanation:

In Oracle Planning 2024, the Application cluster in the navigator includes cards for managing application settings and features. The card that allows you to enable modules (e.g., Workforce, Projects) is:

* A. Settings: Incorrect. Settings is not a card in the Application cluster; it's typically a broader system-level option, not specific to module enablement.

* B. Configure: Correct. The Configure card in the Application cluster provides access to the Enable Features page, where administrators can turn on modules like Financials, Workforce, or Projects.

* C. Tools: Incorrect. The Tools card offers utilities (e.g., diagnostics, job scheduling), not module enablement.

* D. Enable Features: Incorrect. While "Enable Features" is the specific action/page, it is accessed via the Configure card, not a standalone card in the Application cluster.

* E. Cube Editor: Incorrect. Cube Editor is for managing cube structures (e.g., dimensions), not enabling modules.

The Oracle documentation specifies that the Configure card is the entry point for enabling modules, making B the correct answer.

NEW QUESTION # 30

After loading data from external systems, you can quickly perform task that can add or update existing employee and job data using Mass Update forms. Which two actions can you take on the Mass Update forms in Workforce?

- **A. Change existing properties and then override default assignments and rates.**
- B. Delete the loaded salary information and then run the data mail for Compensation Data to calculate the updated benefits.
- **C. Add a new record for an existing employee who was not in the load file, and apply configured defaults.**
- D. If an existing employee was not loaded from the load file, you won't be able to add their compensation before first adding them to the source system and reloading the file.

Answer: A,C

NEW QUESTION # 31

Which three actions can you perform with Valid Intersections?

- **A. Filter cell intersections to users when they enter data or select runtime prompts.**
- B. Prevent users from executing any type of Calculation Manager rule that uses runtime prompts.
- **C. Allow all users to select from a nonfiltered list of members on the form's point of view.**
- D. Restrict cells containing invalid data, setting them to a read-only state within forms.
- **E. Specify that certain programs are valid only for some periods or departments.**

Answer: A,C,E

NEW QUESTION # 32

You must assign a Planning user with a Cloud EPM predefined role that allows them to create and administer Planning or Planning Modules and service components. This role should also allow them to grant permissions to other users.

Which of the following predefined role must you assign this Planning user?

- A. Approvals Administrator
- B. Identity Role Administrator
- **C. Service Administrator**
- D. System Administrator

Answer: C

Explanation:

In Oracle Planning 2024, predefined roles in Cloud EPM determine user permissions. The requirement is for a role that allows a Planning user to create and administer Planning or Planning Modules and service components, as well as grant permissions to other users. Among the options:

* A. System Administrator: Incorrect. This role exists in some Oracle systems but is not a Cloud EPM predefined role specific to

* B. Approvals Administrator: Incorrect. This role manages approval processes (e.g., workflows) but does not include creating/administering applications or granting permissions beyond approvals.

* C. Identity Role Administrator: Incorrect. While this role manages identity and access (e.g., assigning roles), it does not allow creating or administering Planning applications or service components.

* D. Service Administrator: Correct. The Service Administrator role in Cloud EPM allows users to create and manage Planning applications, configure modules and service components (e.g., forms, rules), and assign permissions to other users via access control.
