## Searching The Exam 1Z0-1163-1 Material, Passed Half of Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1

As we all know, the 1Z0-1163-1 certificate has a very high reputation in the global market and has a great influence. But how to get

the certificate has become a headache for many people. Our 1Z0-1163-1 learning materials provide you with an opportunity. Once you choose our 1Z0-1163-1 exam practice, we will do our best to provide you with a full range of thoughtful services. Our products are designed from the customer's perspective, and experts that we employed will update our 1Z0-1163-1 Learning Materials according to changing trends to ensure the high quality of the 1Z0-1163-1 study material.

## Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q41-Q46):

### NEW QUESTION # 41

What is a primary advantage of the Replenishment Planning process in Oracle Fusion Cloud SCM?

- A. It guarantees inventory levels remain static regardless of demand fluctuations.
- **B. It ensures optimal inventory levels by predicting demand and adjusting supply plans accordingly.**
- C. It reduces supplier payment cycles.

**Answer: B**

Explanation:

Replenishment Planning in Oracle Fusion Cloud SCM optimizes inventory levels by predicting demand and adjusting supply plans to prevent overstocking or stockouts. It uses demand forecasting and supply data to ensure inventory aligns with business needs. Option A (reducing payment cycles) is unrelated to replenishment planning. Option B (static inventory) is incorrect as the process dynamically adjusts to demand fluctuations, not maintains static levels. This advantage enhances operational efficiency and cost savings.

### NEW QUESTION # 42

What is a key advantage of the Production Order to Cost Update OMBP in Oracle Fusion Cloud SCM?

- A. It automates the production process, requiring minimal human supervision.
- **B. It provides accurate cost calculations, leading to better decision-making and improved profitability.**
- C. It provides real-time cost updates, ensuring immediate financial benefits.
- D. It enhances customer relationship management, leading to effective cost analysis.

**Answer: B**

Explanation:

The Production Order to Cost Update process within Oracle Manufacturing Business Process (OMBP) in Oracle Fusion Cloud SCM ensures accurate cost calculations by capturing and updating costs associated with production orders, such as materials, labor, and overhead. This accuracy supports better decision-making and improves profitability by enabling precise cost analysis and pricing strategies. Option A is irrelevant as it ties to CRM, not cost updates. Option B exaggerates automation-human oversight remains necessary. Option D focuses on real-time updates, which is secondary to the primary benefit of accuracy emphasized in Oracle documentation.

### NEW QUESTION # 43

Which feature in Oracle Fusion Cloud SCM provides real-time order promising based on supply and demand constraints?

- A. Cost Accounting.
- **B. Global Order Promising.**
- C. Manufacturing Execution.
- D. Supplier Portal.

**Answer: B**

Explanation:

Global Order Promising (A) provides real-time order promising by analyzing supply (inventory, production) and demand (orders, forecasts) constraints across the enterprise. For instance, if a customer requests 100 units and only 80 are available with a 2-day production lead time, GOP promises delivery in 2 days. Option B (Supplier Portal) supports collaboration, not promising. Option C (Manufacturing Execution) tracks production, not order commitments. Option D (Cost Accounting) handles financials. GOP enhances customer trust and planning accuracy by delivering feasible, data-driven promises.

#### NEW QUESTION # 44

What is the primary purpose of the Predict Demand process in Oracle Fusion Cloud SCM?

- A. It guarantees same-day delivery for all orders.
- B. It focuses only on local inventory availability.
- C. It uses machine learning and statistical forecasting to predict demand.
- D. It eliminates the need for supplier collaboration.

**Answer: C**

Explanation:

The Predict Demand process (B) in Oracle Fusion Cloud SCM aims to forecast customer demand using advanced tools like machine learning and statistical forecasting. Machine learning analyzes historical sales, market trends, and external factors (e.g., weather or economic indicators) to predict future demand with high accuracy, while statistical forecasting provides a baseline using mathematical models like moving averages. For example, it might predict a 20% increase in demand for air conditioners in summer based on past patterns. Option A is incorrect-demand prediction isn't limited to local inventory but informs broader supply planning. Option C is false; supplier collaboration remains essential to fulfill predicted demand. Option D is unrealistic-Predict Demand focuses on forecasting, not delivery guarantees. This process ensures businesses can proactively adjust inventory and production, reducing costs and improving service levels.

#### NEW QUESTION # 45

Which feature in Oracle Fusion Cloud Procurement allows suppliers to manage invoices and purchase orders?

- A. Intelligent Document Recognition (IDR).
- B. Receipt Accounting.
- C. Supplier Portal.
- D. Contract Fulfillment Automation.

**Answer: C**

Explanation:

The Supplier Portal (A) in Oracle Fusion Cloud Procurement allows suppliers to manage invoices and purchase orders (POs) by providing a self-service platform. Suppliers can view POs (e.g., 200 units due Friday), submit invoices, and track statuses in real time, reducing manual communication. Option B (Contract Fulfillment Automation) generates POs from contracts, not supplier management. Option C (IDR) extracts invoice data, not a supplier tool. Option D (Receipt Accounting) records receipts, not supplier interactions. For example, a supplier might invoice \$2,000 for a PO directly in the portal, speeding up payment cycles and improving transparency.

#### NEW QUESTION # 46

.....

BraindumpsVCE is also offering one year free 1Z0-1163-1 updates. You can update your 1Z0-1163-1 study material for 90 days from the date of purchase.
