PCA Exam Test Questions and Answers (Verified Answers)

1. report vital sign measurements immediately to the nurse if they are abnormally _____ or.

ANS High/Low

2. besides the rate when taking a pulse, what do you need to be aware of

ANS Rhythm and Quality

3. 6 reasons a patient may be at risk to fall

ANS: history of a fall aged over 65
taking 3-4 medications daily
problems with the bladder or

1/5

We here guarantee that we will never sell the personal information of our candidates. There is no need for you to worry about the individual privacy under our rigorous privacy PCA actual test guide. As regards purchasing, our website and PCA study files are absolutely safe and free of virus. For further consideration we will provide professional IT personnel to guide your installation and the use of our PCA Exam Questions remotely. So you can buy our PCA actual test guide without any misgivings. If you have any questions, please you contact us online through the email.

Before you place orders, you can download the free demos of PCA practice test as experimental acquaintance. Once you decide to buy, you will have many benefits like free update lasting one-year and convenient payment mode. We will inform you immediately once there are latest versions of PCA Test Question released. And if you get any questions, please get contact with us, our staff will be online 24/7 to solve your problems all the way.

Pass-Sure Exam PCA Questions | Easy To Study and Pass Exam at first attempt & Perfect PCA: Prometheus Certified Associate Exam

As we all know that if we get a certificate for the exam, we will have more advantages in the job market. We have PCA study guide for you to get the certificate quickly. Besides, we are pass guarantee, if you indeed fail the exam, we will be money back guarantee. PCA Study Guide of us obtain many good feedbacks from our customers. Free demo of PCA exam dumps are provided by us, you can have a try before you buy them, so that you can know the mode of the PCA learning materials.

Linux Foundation Prometheus Certified Associate Exam Sample Questions (Q36-Q41):

NEW QUESTION # 36

How would you correctly name a metric that provides metadata information about the binary?

- A. **app_build_info**
- B. app_build
- C. app_build_desc
- D. app_metadata

Answer: A

Explanation:

The Prometheus naming convention for metrics that expose build or version information about an application binary uses the `_info` suffix. The standard pattern is:

`<application>_build_info`

This metric typically includes constant labels such as version, revision, branch, and goversion to describe the build environment.

For example:

`app_build_info{version="1.2.3", revision="abc123", goversion="go1.22"}` 1 This approach follows the official Prometheus instrumentation guidelines, where metrics ending in `_info` convey metadata or constant characteristics about the running process.

The other options do not conform to the Prometheus best practice of suffix-based semantic naming.

Reference:

Extracted and verified from Prometheus documentation - Metric Naming Conventions, Exposing Build Information, and Standard `_info` Metrics sections.

NEW QUESTION # 37

Which Alertmanager feature prevents duplicate notifications from being sent?

- A. **Deduplication**
- B. Silencing
- C. Grouping
- D. Inhibition

Answer: A

Explanation:

Deduplication in Alertmanager ensures that identical alerts from multiple Prometheus servers or rule evaluations do not trigger duplicate notifications.

Alertmanager compares alerts based on their labels and fingerprints; if an alert with identical labels already exists, it merges or refreshes the existing one instead of creating a new notification.

This mechanism is essential in high-availability setups where multiple Prometheus instances monitor the same targets.

NEW QUESTION # 38

What is the name of the official *nix OS kernel metrics exporter?

- A. os_exporter
- B. Prometheus_exporter
- C. metrics_exporter
- D. **node_exporter**

Answer: D

Explanation:

The official Prometheus exporter for collecting system-level and kernel-related metrics from Linux and other UNIX-like operating systems is the Node Exporter.

The Node Exporter exposes hardware and OS metrics including CPU load, memory usage, disk I/O, network traffic, and kernel statistics. It is designed to provide host-level observability and serves data at the default endpoint `:9100/metrics` in the standard Prometheus exposition text format.

This exporter is part of the official Prometheus ecosystem and is widely deployed for infrastructure monitoring. None of the other listed options (Prometheus_exporter, metrics_exporter, or os_exporter) are official components of the Prometheus project.

Reference:

Verified from Prometheus documentation - Node Exporter Overview, System Metrics Collection, and Official Exporters List.

NEW QUESTION # 39

What popular open-source project is commonly used to visualize Prometheus data?

- A. Loki
- B. Thanos
- C. Kibana
- D. Grafana

Answer: D

Explanation:

The most widely used open-source visualization and dashboarding platform for Prometheus data is Grafana. Grafana provides native integration with Prometheus as a data source, allowing users to create real-time, interactive dashboards using PromQL queries. Grafana supports advanced visualization panels (graphs, heatmaps, gauges, tables, etc.) and enables users to design custom dashboards to monitor infrastructure, application performance, and service-level objectives (SLOs). It also provides alerting capabilities that can complement or extend Prometheus's own alerting system.

While Kibana is part of the Elastic Stack and focuses on log analytics, Thanos extends Prometheus for long-term storage and high availability, and Loki is a log aggregation system. None of these tools serve as the primary dashboarding solution for Prometheus metrics the way Grafana does.

Grafana's seamless Prometheus integration and templating support make it the de facto standard visualization tool in the Prometheus ecosystem.

Reference:

Verified from Prometheus documentation - Visualizing Data with Grafana, and Grafana documentation - Prometheus Data Source Integration and Dashboard Creation Guide.

NEW QUESTION # 40

Which of the following PromQL queries is invalid?

- A. max without (instance, job) up
- B. max by (instance) up
- C. max on (instance) (up)
- D. max without (instance) up

Answer: C

Explanation:

The max operator in PromQL is an aggregation operator, not a binary vector matching operator. Therefore, the valid syntax for aggregation uses by() or without(), not on().

☐ max by (instance) up → Valid; aggregates maximum values per instance.

☐ max without (instance) up and max without (instance, job) up → Valid; aggregates over all labels except those listed.

☐ max on (instance) (up) → Invalid; the keyword on() is only valid in binary operations (e.g., +, -, and, or, unless), where two vectors are being matched on specific labels.

Hence, max on (instance) (up) is a syntax error in PromQL because on() cannot be used directly with aggregation operators.

Reference:

Verified from Prometheus documentation - Aggregation Operators, Vector Matching - on()/ignoring(), and PromQL Language Syntax Reference sections.

NEW QUESTION # 41

.....

The research and production of our PCA study materials are undertaken by our first-tier expert team. The clients can have a free download and tryout of our PCA study materials before they decide to buy our products. They can use our products immediately

after they pay for the PCA study materials successfully. If the clients are unlucky to fail in the test we will refund them as quickly as we can. There are so many advantages of our products that we can't summarize them with several simple words. You'd better look at the introduction of our PCA Study Materials in detail as follow by yourselves.

PCA Valid Test Braindumps: <https://www.dumpsactual.com/PCA-actualtests-dumps.html>

Linux Foundation Exam PCA Questions We pride ourselves on our industry-leading standards of customer care, It will never occur to our PCA preparation labs user there will be hassle money, Moreover, we are also providing a money-back guarantee on all of Linux Foundation PCA test products, PCA free download material has helped most candidates get their PCA certification, We just sell the latest version of PCA dumps torrent.

Established IT organizations don't typically make a wholesale change in their PCA technology overnight, Secure your network, step by step—and keep it secure, We pride ourselves on our industry-leading standards of customer care.

100% Pass-Rate Exam PCA Questions, Ensure to pass the PCA Exam

It will never occur to our PCA Preparation labs user there will be hassle money, Moreover, we are also providing a money-back guarantee on all of Linux Foundation PCA test products.

PCA free download material has helped most candidates get their PCA certification, We just sell the latest version of PCA dumps torrent.
