NEW QUESTION #397

How should the 'progress' practice be used?

- A. To define how the products will be delivered to enable control
- B. To identify opportunities that may make the project more successful
- C. To predict whether the benefits will exceed the costs
- D. To deliver change which will benefit people in their day-to-day work

Answer: C

Explanation:

The 'progress' practice in PRINCE2 should be used to monitor and control the performance of the project against its plans and the project's overall direction. This includes predicting whether the benefits will exceed the costs, which is crucial for evaluating the project's ongoing viability and justifying the continuation of the project based on its forecasted value to the organization. (PRINCE2 7 Foundation Handbook, AXELOS)

NEW QUESTION #398

According to the 'exception management' technique, when should the team manager raise an issue?

- A. when the team manager predicts that a product will cause a work package to exceed its time tolerance
- B. when the team manager identifies that the work package has already exceeded its time tolerance
- C. When the team manager predicts that a product will cause a stage to exceed its time tolerance
- D. When the team manager identifies that a product is going to be delivered late

Answer: A

Explanation:

According to the 'exception management' technique, the team manager should raise an issue when they predict that a product will cause a work package to exceed its time tolerance. This proactive approach allows for timely decision-making and corrective action by the Project Board, ensuring that project delivery is kept on track and within the agreed tolerances. References: PRINCE2 methodology and exception management guidance.
