Exam UiPath-ADPv1 Questions Pdf & UiPath UiPath-ADPv1 Sample Questions Answers: UiPath (ADPv1) Automation Developer Professional Finally Passed

Our website offer considerate 24/7 services with non-stopping care for you. Although we cannot contact with each other face to face, but there are no disparate treatments and we treat every customer with consideration like we are around you at every stage during your review process. We will offer help insofar as I can. Some company refused to rescind customers' money when they fail unfortunately at the end of the day. While our UiPath-ADPv1 practice materials are beneficiary even you lose your chance of winning this time. Full refund or other version switch is accessible.

UiPath (ADPv1) Automation Developer Professional Sample Questions (Q23-Q28):

NEW QUESTION # 23

"Process A" is scheduled to run at 2:00 PM using a time trigger with the Schedule ending of Job execution feature configured to stop the job after 20 minutes. Assuming that the robots are busy and "Process A" is queued until 2:05 PM. at what time will "Process A" be stopped?

- A. 2:05 PM
- B. 2:20 PM
- **C. 2:25 PM**
- D. 2:28 PM

Answer: C

Explanation:

"Process A":

- * The process is scheduled to run at 2:00 PM, but due to busy robots, it starts at 2:05 PM.
- * The Schedule ending of Job execution feature is configured to stop the job after 20 minutes.
- * Therefore, "Process A" will be stopped 20 minutes after it started, which is at 2:25 PM.

NEW QUESTION # 24

In a UiPath State Machine workflow, which section of State activity is used to specify conditional/triggers logic and multiple outgoing transitions in a state machine?

- A. Entry
- B. Triggers
- C. Exit
- **D. Transitions**

Answer: D

NEW QUESTION # 25

What is the correct sequence of steps in a REFramework project that is linked to Orchestrator if an application exception occurs on a Queue Item in the Process Transaction state?

Instructions: Drag the Description found on the "Left" and drop on the correct Step Sequence found on the Right".

Description	Step Sequence
Execute the Initialization State	Step 1:
Set Transaction Status to "Failed" and take a screenshot	Step 2:
Process another Queue Item, if one exists	Step 3:
Close All Applications or Kill Applications	Step 4:

Answer:

Explanation:

Description	Step Sequence
Execute the Initialization State	Step 1: Set Transaction Status to "Failed" and take a screenshot
Set Transaction Status to "Failed" and take a screenshot	Step 2: Close All Applications or Kill Applications
Process another Queue Item, if one exists	Step 3: Execute the Initialization State
Close All Applications or Kill Applications	Step 4: Process another Queue Item, if one exists

NEW QUESTION # 26

Which activity can be used to transition a Background Process to Foreground?

- A. Use Foreground
- B. Activate
- C. Maximize Window
- D. Set Focus

Answer: A

Explanation:

A background process is a type of automation that can run in parallel with one foreground process on the same robot, without requiring user interaction. A foreground process is a type of automation that requires user interaction and runs on the visible desktop. A background process can transition to foreground by using the Use Foreground activity, which moves the current background process into the foreground, executing all the activities it contains. After the execution is complete, the process is moved back into the background.

The other options are not activities that can be used to transition a background process to foreground. Option B, Activate, is an activity that activates a specified UI element by bringing it to the foreground. Option C, Maximize Window, is an activity that maximizes a specified window. Option D, Set Focus, is an activity that sets the keyboard focus to a specified UI element.

NEW QUESTION # 27

A developer needs to design a process using the REFramework, but without Orchestrator Queues. Which Is the correct order of actions the developer needs to do in the Get Transaction Data state in this case?

- A. 1. Remove the Get Transaction Item activity from GetTransactionData workflow.2. Add a Read Row activity in GetTransactionData workflow to read the data from a local Excel file.3. Add the logic required to read the data source only one time.4. Add the logic required to retrieve only one row from read data each time.5. Add the logic required to check if all rows/transaction items from the read data have been processed.
- B. 1. Remove the Get Transaction Item activity from GetTransactionData workflow.2. Add a Read Range activity in GetTransactionData workflow to read the data from a local Excel file.3. Add the logic required to read the data source only one time.4. Add the logic required to retrieve only one row from read data each time.5. Add the logic required to check if all rows/transaction items from the read data have been processed.
- C. 1. Remove the Get Transaction Item activity from GetTransactionData workflow.2. Add a Read Range activity in GetTransactionData workflow to read the data from a local Excel file.3. Add the logic required to read the data source only one time.4. Add the logic required to retrieve only one row from read data each time.
- D. 1. Remove the Get Transaction Item activity from GetTransactionData workflow.2. Add a Read Row activity in GetTransactionData workflow to read the data from a local Excel file.3. Add the logic required to read the data source only one time.4. Add the logic required to check if all rows/transaction items from the read data have been processed

Answer: B

Explanation:

- * The correct order of actions in the Get Transaction Data state is:
- * Remove the Get Transaction Item activity from the GetTransactionData workflow.
- * Add a Read Range activity in the GetTransactionData workflow to read the data from a local Excel file.
- * Add the logic required to read the data source only one time.
- * Add the logic required to retrieve only one row from read data each time.
- * Add the logic required to check if all rows/transaction items from the read data have been processed.
- * This sequence ensures that the data is read once, processed row by row, and checks for completion.

NEW QUESTION # 28

.....

It is really a tough work to getting UiPath-ADPv1 certification in their spare time because preparing actual exam dumps needs plenty time and energy. As the one of certification exam dumps provider, VCETorrent enjoys a high popularity for its profession of UiPath-ADPv1 Exam Dumps and training materials. You will get high passing score in test with the help of our UiPath-ADPv1 braindumps torrent.
