

Examcollection FCSS_EFW_AD-7.4 Questions Answers & Certification FCSS_EFW_AD-7.4 Test Answers

2025 Latest VCEdumps FCSS_EFW_AD-7.4 PDF Dumps and FCSS_EFW_AD-7.4 Exam Engine Free Share:
https://drive.google.com/open?id=16FGPpwO2f5_e_3R1bp-DOUm3tZDwwLG

As practice makes perfect, we offer three different formats of FCSS_EFW_AD-7.4 exam study material to practice and prepare for the FCSS_EFW_AD-7.4 exam. Our Fortinet FCSS_EFW_AD-7.4 practice test simulates the real FCSS - Enterprise Firewall 7.4 Administrator (FCSS_EFW_AD-7.4) exam and helps applicants kill exam anxiety. These FCSS_EFW_AD-7.4 practice exams provide candidates with an accurate assessment of their readiness for the FCSS_EFW_AD-7.4 test.

Fortinet FCSS_EFW_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	• System Configuration: This section of the exam measures the skills of Network Security Engineers and covers the implementation of the Fortinet Security Fabric, ensuring seamless integration across security solutions. It also includes configuring hardware acceleration on FortiGate devices to optimize performance. Candidates will learn to set up different operation modes for high-availability clusters and implement enterprise networks using VLANs and VDOMs. Additionally, it covers various use case scenarios that demonstrate how Fortinet solutions contribute to secure network environments.
Topic 2	• Central Management: This section of the exam measures the skills of Security Administrators and focuses on implementing central management for Fortinet security solutions. It includes configuring and managing devices centrally to streamline network security operations. Candidates will understand how to maintain consistency in security policies and automate deployments for efficient management of large-scale enterprise environments.
Topic 3	• VPN: This section of the exam measures the skills of Network Security Engineers and covers the implementation of secure communication tunnels for enterprise environments. Candidates will learn to configure IPsec VPN with IKE version 2 to establish encrypted connections. The section also includes the implementation of ADVPN to enable on-demand VPN tunnels between different sites, ensuring secure and dynamic connectivity.

Topic 4	• Routing: This section of the exam measures the skills of Security Administrators and covers the implementation of advanced routing protocols to manage enterprise traffic effectively. Candidates will gain expertise in configuring Open Shortest Path First (OSPF) for dynamic routing and Border Gateway Protocol (BGP) to facilitate communication between different networks, ensuring efficient traffic flow across enterprise environments.
Topic 5	• Security Profiles: This section of the exam measures the skills of Network Security Engineers and focuses on managing security inspection profiles, including SSL and SSH inspections. Candidates will learn to apply a combination of web filtering, application control, and Internet Service Database (ISDB) to enhance network security. The section also covers integrating Intrusion Prevention Systems (IPS) to monitor and mitigate threats within enterprise networks.

Certification FCSS_EFW_AD-7.4 Test Answers, Study Guide FCSS_EFW_AD-7.4 Pdf

VCEDumps offers updated FCSS_EFW_AD-7.4 questions in a PDF document. These FCSS_EFW_AD-7.4 real exam questions come with accurate answers, ensuring reliability and authenticity. The PDF format provides portability, allowing you to study for the Fortinet FCSS_EFW_AD-7.4 examination without time and location constraints. You can access the PDF file on your laptop, tablet, or smartphone, making it incredibly convenient.

Fortinet FCSS - Enterprise Firewall 7.4 Administrator Sample Questions (Q54-Q59):

NEW QUESTION # 54

A FortiGate device with UTM profiles is reaching the resource limits, and the administrator expects the traffic in the enterprise network to increase.

The administrator has received an additional FortiGate of the same model.

Which two protocols should the administrator use to integrate the additional FortiGate device into this enterprise network? (Choose two.)

- A. FGCP in active-passive mode and with VDOM disabled
- **B. FGCP in active-active mode and with switches**
- C. VRRP with switches
- **D. FGSP with external load balancers**

Answer: B,D

Explanation:

When adding an additional FortiGate to an enterprise network that is already reaching its resource limits, the goal is to distribute traffic efficiently and ensure high availability.

FGSP (FortiGate Session Life Support Protocol) with external load balancers FGSP allows session-aware load balancing between multiple FortiGate units without requiring them to be in an HA (High Availability) cluster.

With external load balancers, incoming traffic is evenly distributed across multiple FortiGate devices.

This approach is useful for scaling out traffic handling capacity while ensuring that sessions remain synchronized between firewalls.

FGSP is effective when stateful failover is required but without the constraints of traditional HA.

FGCP (FortiGate Clustering Protocol) in active-active mode and with switches FGCP active-active mode enables multiple FortiGate devices to share traffic loads, increasing throughput and efficiency.

Active-active mode is suitable for balancing UTM processing across multiple FortiGates, making it ideal when resource limits are a concern.

Using switches ensures redundancy and avoids single points of failure in the network.

This mode is commonly used in enterprise networks where both scalability and redundancy are required.

NEW QUESTION # 55

Exhibits:

```
Hub # show router bgp
config router bgp
  set as 65100
  set router-id 172.16.1.1
  config neighbor-group
    edit "advpn"
      set remote-as 65100
      set route-reflector-client disable
    next
  end
  config neighbor-range
    edit 1
      set prefix 172.16.1.0 255.255.255.0
      set neighbor-group "advpn"
```

FORTINET

```

end
config network
  edit 1
    set prefix 10.1.0.0 255.255.255.0
  next
end
....
end

```

Refer to the exhibits, which contain the network topology and BGP configuration for a hub.

An administrator is trying to configure ADVPN with a hub-spoke VPN setup using iBGP. All the VPNs are up and connected to the hub. The hub is receiving route information from both spokes over iBGP; however, the spokes are not receiving route information from each other.

What change must the administrator make to the hub BGP configuration so that the routes learned by one spoke are forwarded to the other spokes?

- A. Configure the hub as a route reflector client.
- B. Configure an individual neighbor and remove neighbor-range configuration.
- C. Make the configuration of remote-as different from the configuration of local-as.
- D. Change the router id to 10.1.0.254.

Answer: A

NEW QUESTION # 56

View the exhibit, which contains the output of a diagnose command, and the answer the question below.

```

# diagnose debug rating
Locale       : English
License      : Contract
Expiration   : Thu Sep 28 17:00:00 20XX
-- Server List (Thu APR 19 10:41:32 20XX) --

```

IP	Weight	RTT	Flags	T	Packets	Curr Lost	Total Lost
64.26.151.37	10	45		5	262432	0	846
64.26.151.35	10	46		5	329072	0	6806
66.117.56.37	10	75		5	71638	0	275
66.210.95.240	20	71		-8	36875	0	92
209.222.147.36	20	103	DI	-8	34784	0	1070
208.91.112.194	20	107	D	-8	35170	0	1533
96.45.33.65	60	74		0	33728	0	120
80.85.69.41	71	226		1	33797	0	192
62.209.40.74	156	97		9	33754	0	145
121.111.236.179	45	44	F	-5	26410	26226	26227

Which statements are true regarding the Weight value?

- A. It determines which FortiGuard server is used for license validation.
- B. Its value is incremented with each packet lost.
- C. Its initial value is calculated based on the round trip delay (RTT).
- D. Its initial value is statically set to 10.

Answer: B

NEW QUESTION # 57

Refer to the exhibit, which shows an OSPF network.

Which types of link-state advertisements (LSA) will NGFW-1 send, if it is a backup designated router (BDR)?

- A. NGFW-1 will send type 1 and type 5 LSAs.
- **B. NGFW-1 will send type 1 and type 3 LSAs.**
- C. NGFW-1 will send type 1 and type 2 LSAs.
- D. NGFW-1 will send type 1 and type 4 LSAs.

Answer: B

NEW QUESTION # 58

What configuration changes can reduce the memory utilization in a FortiGate? (Choose two.)

- A. Increase the TCP session timers.
- **B. Reduce the session time to live.**
- **C. Reduce the maximum file size to inspect.**
- D. Increase the FortiGuard cache time to live.

Answer: B,C

NEW QUESTION # 59

.....

If our FCSS - Enterprise Firewall 7.4 Administrator guide torrent can't help you pass the exam, we will refund you in full. If only the client provide the exam certificate and the scanning copy or the screenshot of the failure score of FCSS_EFW_AD-7.4 Exam, we will refund the client immediately. The procedure of refund is very simple. The client can contact us by sending mails or contact us online. We will solve your problem as quickly as we can and provide the best service. Our after-sales service is great as we can solve your problem quickly and won't let your money be wasted.
