

Exams DA0-002 Torrent and CompTIA DA0-002 Exam Cram Pdf: CompTIA Data+ Exam (2025) Pass Certify

P.S. Free & New DA0-002 dumps are available on Google Drive shared by ActualtestPDF: https://drive.google.com/open?id=11g0QY-_Cw9bGyxqF3fEIP4SL13a4ZqF

If you want to pass exam and get the related certification in the shortest time, the DA0-002 DA0-002 study materials from our company will be your best choice. Although there are a lot of same study materials in the market, we still can confidently tell you that our DA0-002 Study Materials are most excellent in all aspects. With our experts and professors' hard work and persistent efforts, the DA0-002 study materials from our company have won the customers' strong support in the past years.

If you are the first time to prepare the DA0-002 exam, it is better to choose a type of good study materials. After all, you cannot understand the test syllabus in the whole round. It is important to predicate the tendency of the DA0-002 study materials if you want to easily pass the exam. Now, all complicate tasks have been done by our experts. They have rich experience in predicating the DA0-002 exam. Then you are advised to purchase the study materials on our websites. Also, you can begin to prepare the DA0-002 Exam. You are advised to finish all exercises of our DA0-002 study materials. In fact, you do not need other reference books. Our study materials will offer you the most professional guidance. In addition, our DA0-002 study materials will be updated according to the newest test syllabus. So you can completely rely on our DA0-002 study materials to pass the exam.

DA0-002 Exam Cram Pdf | DA0-002 Valid Exam Cost

The third format is desktop DA0-002 practice exam software that can be accessed easily after installing it on your Windows PC or Laptop. These formats are there so that the students can use them as per their unique needs and prepare successfully for DA0-002 the on first try. The DA0-002 mock tests are specially built for you to evaluate what you have studied. These CompTIA Data+ Exam (2025) (DA0-002) practice exams (desktop and web-based) are customizable, which means that you can change the time and questions according to your needs. Our DA0-002 practice tests teach you time management so you can pass the CompTIA Data+ Exam (2025) (DA0-002) certification exam.

CompTIA Data+ Exam (2025) Sample Questions (Q59-Q64):

NEW QUESTION # 59

Software end users are happy with the quality of product support provided. However, they frequently raise concerns about the long wait time for resolutions. An IT manager wants to improve the current support process. Which of the following should the manager use for this review?

- A. UAT
- B. Survey
- C. KPI
- D. Infographic

Answer: B

Explanation:

This question falls under the Data Analysis domain, focusing on methods to gather data for process improvement. The IT manager needs to review user concerns about wait times, which requires collecting feedback.

* Infographic (Option A): An infographic visualizes data but isn't a method for gathering feedback.

* KPI (Option B): KPIs (e.g., average resolution time) measure performance but don't directly gather user feedback.

* Survey (Option C): A survey collects detailed feedback from users about their experiences, such as wait times, making it the best method for this review.

* UAT (Option D): User Acceptance Testing validates software functionality, not support processes.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods," and surveys are a standard method for collecting user feedback to analyze and improve processes.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 60

A table contains several rows of cellular numbers with call timestamps, call durations, called numbers, and carriers of the called number. Which of the following allows a data analyst to sort the cellular numbers based on the carriers of the called numbers and include the total call durations?

- A. `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number, called_number_carrier ORDER BY called_number_carrier;`
- B. `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier;`
- C. `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number ORDER BY called_number_carrier;`
- D. `SELECT cellular_number, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier;`

Answer: A

Explanation:

This question falls under the Data Analysis domain of CompTIA Data+ DA0-002, focusing on SQL queries for data analysis. The task requires sorting cellular numbers by the carrier of the called number (called_number_carrier) and calculating the total call durations (SUM(call_duration)).

* Option A: `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number ORDER BY called_number_carrier` This query groups by cellular_number only, but called_number_carrier is in the SELECT clause without being in the GROUP BY, which is invalid in SQL (it would raise an error in most databases).

* Option B: `SELECT cellular_number, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier` This query doesn't include called_number_carrier in the SELECT clause, so it cannot be used in the ORDER BY clause, making it invalid. Grouping by call_duration also doesn't align with the task.

* Option C: `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number, called_number_carrier ORDER BY called_number_carrier` This query correctly groups by both cellular_number and called_number_carrier (since both are in the SELECT clause), calculates the total call duration with SUM(call_duration), and sorts by called_number_carrier as required.

* Option D: `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier` Grouping by call_duration is incorrect because cellular_number and called_number_carrier are in the SELECT clause but not in the GROUP BY, making this query invalid.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods using SQL queries," and Option C correctly aggregates and sorts the data as specified.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 61

A data analyst encounters an issue with new software and a code that they are using. The analyst includes print statements in the code to try to identify the issue, without success. An informal peer review of the code also produces the same result. The analyst confirms that the software is updated to the latest version and compatible with the code. Which of the following troubleshooting steps should the analyst take next?

- A. Use the old software and preexisting code, since both were functional.
- B. Escalate to the department manager and ask for assistance.
- C. Contact the IT department and inform them that the software has a bug.

- **D. Research the issue online and see if a solution is available.**

Answer: D

Explanation:

This question pertains to the Data Governance domain, focusing on troubleshooting and maintaining data quality in software processes. The analyst has already tried basic debugging and confirmed compatibility, so the next step involves seeking external resources.

- * Use the old software and preexisting code, since both were functional (Option A): Reverting to old software avoids solving the issue and may introduce other risks (e.g., security vulnerabilities).
- * Contact the IT department and inform them that the software has a bug (Option B): Assuming a bug without further investigation is premature, especially since compatibility was confirmed.
- * Escalate to the department manager and ask for assistance (Option C): Escalation is a later step after exhausting technical troubleshooting options.
- * Research the issue online and see if a solution is available (Option D): Researching online (e.g., forums, documentation) is a logical next step to find solutions or identify known issues, especially after local debugging fails.

The DA0-002 Data Governance domain includes "data quality control concepts," and researching online is a standard troubleshooting step to maintain data process integrity.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 5.0 Data Governance.

NEW QUESTION # 62

Which of the following supports capabilities such as automatic versioning, corruption checks, KPIs, and user authentication?

- **A. Source control**
- B. Pipeline
- C. Notebook
- D. REST API

Answer: A

Explanation:

This question falls under the Data Governance domain, focusing on tools that support data management and quality control features. The task is to identify a tool with capabilities like versioning, corruption checks, KPIs, and authentication.

- * Notebook (Option A): Notebooks (e.g., Jupyter) are for data analysis and coding but don't inherently support versioning, corruption checks, or authentication.
- * REST API (Option B): REST APIs enable data access but don't provide versioning or corruption checks as a primary function.
- * Pipeline (Option C): Data pipelines automate data workflows but don't typically include versioning or authentication.
- * Source control (Option D): Source control systems (e.g., Git) support automatic versioning (tracking changes), corruption checks (integrity verification), KPIs (e.g., commit frequency), and user authentication (access control), making this the best fit.

The DA0-002 Data Governance domain includes "data quality control concepts," and source control systems provide the listed capabilities to ensure data integrity and security.

NEW QUESTION # 63

A data analyst needs to provide a weekly sales report for the Chief Financial Officer. Which of the following delivery methods is the most appropriate?

- A. A detailed text document
- B. A granular daily report in a dashboard
- C. A spreadsheet with raw data
- **D. A high-level email**

Answer: D

Explanation:

This question pertains to the Visualization and Reporting domain, focusing on report delivery methods for a specific audience. The Chief Financial Officer (CFO) needs a weekly sales report, suggesting a concise, executive-level summary.

- * A granular daily report in a dashboard (Option A): Daily granularity is too frequent for a weekly report, and a dashboard might be too interactive for a CFO's needs.
- * A detailed text document (Option B): A detailed document is too lengthy for a CFO, who typically needs a summary.

* A high-level email (Option D): A high-level email provides a concise summary of weekly sales, tailored for an executive like a CFO, making it the most appropriate delivery method.

The DA0-002 Visualization and Reporting domain emphasizes "translating business requirements to form the appropriate visualization," and a high-level email is best for delivering a weekly summary to a CFO.
