How to study the PDI Exam

There are two main types of resources for preparation of certification exams first there are the study guides and the books that are detailed and suitable for building knowledge from ground up then there are video tutorial and lectures that can somehow ease the pain of through study and are comparatively less boring for some candidates yet these demand time and concentration from the learner. Smart Candidates who want to build a solid foundation in all exam topics and related technologies usually combine video lectures with study guides to reap the benefits of both but there is one crucial preparation tool as often overlooked by most candidates the practice exams. Practice exams are built to make students comfortable with the real exam environment. Statistics have shown that most students fail not due to that preparation but due to exam anxiety the fear of the unknown. Free4Torrent expert team recommends you to prepare some notes on these topics along with it don't forget to practice **Salesforce PDI exam dumps** which been written by our expert team, Both these will help you a lot to clear this exam with good marks.

Oracle Cloud EPM Data Integration 2024 Implementation Professional Sample Questions (Q29-Q34):

NEW QUESTION # 29

In Oracle Cloud EPM, what is the role of source and target application categories during the registration process?

- A. They set security levels for the application
- **B. They define the type of data being exchanged between systems**
- C. They control report generation frequency
- D. They assign user roles for data integration

Answer: B

Explanation:

Source and target application categories define the type of data being exchanged between systems, such as financial data or planning data.

NEW QUESTION # 30

Which of the following can be used to create file-based integrations in Oracle Cloud EPM?

- A. SOAP-based APIs
- B. EPM Narrative Reporting
- **C. CSV files**
- D. Oracle Hyperion Planning

Answer: C

Explanation:

CSV files are commonly used for file-based integrations in Oracle Cloud EPM, enabling bulk data loading from flat files into the system.

NEW QUESTION # 31

What must be done to modify an existing data map to meet new data movement requirements in Oracle Cloud EPM?

- A. Reassign user roles for each data load
- **B. Adjust the source and target mappings to reflect the new requirements**
- C. Schedule the data map to run at different intervals
- D. Automate the financial reporting process

Answer: B

Explanation:

Modifying an existing data map requires adjusting the source and target mappings to ensure that the data movement meets the new requirements.

NEW QUESTION # 32

What happens if the connection details for a target application are incorrectly specified during registration?

- A. A validation process will override the connection settings
- B. The system will ignore the connection and use a default one
- C. Oracle Cloud EPM will automatically correct the error
- **D. Data loads will fail until the details are corrected**

Answer: D

Explanation:

If connection details are incorrect, data loads will fail because Oracle Cloud EPM won't be able to connect to the target application for data integration.

NEW QUESTION # 33

Which of the following steps must be taken to configure the EPM Integration Agent for accessing an on- premise system?

- A. Increase the number of validation rules for each integration
- B. Reconfigure the period mappings for every data entry
- C. Automate financial reporting after each data load
- D. Set up a secure connection and configure the source system's API

Answer: D

Explanation:

Configuring the EPM Integration Agent for accessing an on-premise system requires setting up a secure connection and configuring the source system's API to allow data extraction.
