H19-619_V1.0 Lead2pass Review - Dumps H19-619_V1.0 PDF

Huawei H19-619_V1.0 reliable brain dumps are promised to help you clear your H19-619_V1.0 test certification with high scores. H19-619_V1.0 questions & answers will contain comprehensive knowledge, which will ensure high hit rate and best pass rate. When you choose H19-619_V1.0 Pdf Torrent, you will get your H19-619_V1.0 certification with ease, which will be the best choice to accelerate your career as a professional in the Information Technology industry.

Huawei HCSP-Presales-Government Public Services V1.0 Sample Questions

(Q156-Q161):

NEW QUESTION # 156

Which needs are included in intelligent discovery?

- A. The degree of intelligent application needs to be improved
- B. Completely replacing manual discovery
- C. Accuracy of intelligent-recognition algorithms needs to be enhanced
- D. Utilization of infrastructure resources needs improvement

Answer: A,C,D

Explanation:

Intelligent discovery needs deeper intelligent application (A), better algorithm accuracy (C), and higher infrastructure utilization (D). Completely replacing manual discovery (B) is unrealistic at present; human-machine collaboration is still the norm.

NEW QUESTION # 157

Device Access Service (IoTDA) is Huawei Cloud's IoT platform that connects massive devices to the cloud. In Huawei's data platform solution, which descriptions of IoTDA capabilities are correct?

- A. Device management
- B. Data routing/flow
- C. Device access
- D. Message communication
- E. Industry applications

Answer: A,B,C,D

Explanation:

IoTDA provides device access, device management, message communication, and data routing/flow for connected devices. Industry applications (D) are built on top of these capabilities but are not themselves a core function of IoTDA.

NEW QUESTION # 158

Integrated government service platform construction is an independent opportunity area, while the government cloud merely acts as its infrastructure carrier.

- A. True
- B. False

Answer: B

Explanation:

The 14th Five-Year National E-Government Informatization Plan clearly identifies government cloud as the core infrastructure supporting integrated service platforms. The platform depends on the government cloud's computing, data, and security functions—not as a separate layer, but as a tightly coupled foundation.

NEW QUESTION # 159

The main "Xinchuang" (IT localization) vendors are Loongson, Hygon, and Zhaoxin.

- A. True
- B. False

Answer: B

Explanation:

Loongson, Hygon, and Zhaoxin are important CPU vendors in the Xinchuang ecosystem, but not the only major ones. Others like Kunpeng, Feiteng (Phytium), etc., are also core players, so calling only these three the "main" vendors is incomplete.

NEW QUESTION # 160

Large AI models can rapidly generate industry-specific application models by using small sample datasets and simple fine-tuning.

- A. True
- B. False

Answer: A

Explanation:

Pretrained large models encode general knowledge that can be efficiently adapted to industry tasks through parameter-efficient fine-tuning (e.g., LoRA, Prompt Tuning) using minimal domain data. This method significantly reduces cost and time, aligning with real-world practices.

NEW QUESTION # 161

• • • • •

Now we can say that HCSP-Presales-Government Public Services V1.0 (H19-619_V1.0) exam questions are real and top-notch Huawei H19-619_V1.0 exam questions that you can expect in the upcoming Huawei H19-619_V1.0 exam. In this way, you can easily pass the HCSP-Presales-Government Public Services V1.0 (H19-619_V1.0) exam with good scores. The countless H19-619_V1.0 Exam candidates have passed their dream Huawei H19-619_V1.0 certification exam and they all got help from real, valid, and updated H19-619_V1.0 practice questions, You can also trust on ValidExam and start preparation with confidence.
