

# PL-900 New Question | Valid PL-900 Test Sample

2026 Latest Pass4guide PL-900 PDF Dumps and PL-900 Exam Engine Free Share: <https://drive.google.com/open?id=1JxB8E8VWPWX-t64XU-zhQ-XYVtbQh20F>

The design of our PL-900 guide training is ingenious and delicate. Every detail is perfect. For example, if you choose to study our learning materials on our windows software, you will find the interface our learning materials are concise and beautiful, so it can allow you to study PL-900 exam questions in a concise and undisturbed environment. In addition, you will find a lot of small buttons, which can give you a lot of help. Some buttons are used to hide or show the answer. What's more important is that we have spare space, so you can take notes under each question in the process of learning PL-900 Study Tool. When you start, there will be a timer to help you to time, so that you can finish the problem within the prescribed time and it can create an environment. If you are satisfied with our PL-900 exam questions, you can make a choice to purchase them.

Microsoft PL-900 Certification Exam is an excellent way to demonstrate your knowledge and expertise in the Power Platform. Microsoft Power Platform Fundamentals certification can help you stand out in the job market and increase your earning potential. Additionally, the certification can provide you with an opportunity to learn more about the Power Platform and gain valuable skills that can be applied in various industries. Overall, the exam is a great investment for anyone looking to advance their career in the technology industry.

## Describing the Power Platform Business Value (15-20%)

- **Describing the business value of Power Platform services**

Within this subject area, the applicants should demonstrate that they are capable of analyzing data with the help of Power BI; operating with Power Apps; creating solutions that utilize Common Data Service; creating flows with the help of Power Automate; utilizing connectors to access data and services; creating effective chatbots with the help of a guided, no-code graphical interface.

- **Describing the business value of extending business solutions with Power Platform**

This topic comes with the following skills: describing how Dynamics 365 apps can hasten the delivery of Power Platform business solutions; describing how Power Platform business solutions may be utilized by Microsoft 365 apps such as Microsoft Teams; describing how Power Platform business solutions may utilize Microsoft 365 services; describing how Power Platform business solutions can utilize Microsoft Azure services; describing how Power Platform business solutions can utilize third-party services and apps.

- **Describing Power Platform security and administration**

Here the learners are required to have competency in describing how Power Platform applies security, including familiarity with Azure Identity Services as well as Common Data Service security roles; describing how to handle users and apps; describing environments; describing where to execute particular administrative tasks such as Microsoft 365 admin center as well as Power Platform Admin center; describing Data Loss Prevention (DLP) policies; describing how the platform complies with accessibility and privacy guidelines.

## Valid PL-900 Test Sample | PL-900 Associate Level Exam

Microsoft Power Platform Fundamentals (PL-900) Practice exams (desktop and web-based) are designed solely to help you get your Microsoft Power Platform Fundamentals (PL-900) certification on your first try. Our Microsoft PL-900 mock test will help you understand the Microsoft Power Platform Fundamentals (PL-900) exam inside out and you will get better marks overall. It is only because you have practical experience of the Microsoft Power Platform Fundamentals (PL-900) exam even before the exam itself.

Microsoft PL-900 exam covers four important areas of the Power Platform, including Power BI, Power Apps, Power Automate, and Power Virtual Agents. These technologies are essential tools for businesses that are looking to automate their workflows and optimize their operations. By earning the Microsoft PL-900 Certification, individuals can demonstrate their proficiency in these areas and showcase their ability to work with the Power Platform.

### Microsoft Power Platform Fundamentals Sample Questions (Q219-Q224):

#### NEW QUESTION # 219

A company uses a cloud app built by the IT department. The app has a publicly available API to manage employee availability. You are creating an automated flow by using Power Automate that will send an email to an employee's manager when that employee is recorded as sick in the app.

You need to choose the appropriate type of connector for the flow.

Select the answer that correctly completes the sentence.

#### NEW QUESTION # 221

You are creating a model-driven Power Apps app. You want to ensure that the app can be used by individuals who have vision impairments.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
Power Apps apps can be built with hot key support and designed so they do not require a touch screen or mouse.	<input type="radio"/>	<input type="radio"/>
Only model-driven Power Apps have support for using a screen reader without the need for a connector.	<input type="radio"/>	<input type="radio"/>
The accessibility checker can be run for your Power Apps app to provide notifications of accessibility violations as well as tips for making it even more user friendly.	<input type="radio"/>	<input type="radio"/>

**Answer:**

Explanation:

Statement	Yes	No
Power Apps apps can be built with hot key support and designed so they do not require a touch screen or mouse.	<input checked="" type="radio"/>	<input type="radio"/>
Only model-driven Power Apps have support for using a screen reader without the need for a connector.	<input type="radio"/>	<input checked="" type="radio"/>
The accessibility checker can be run for your Power Apps app to provide notifications of accessibility violations as well as tips for making it even more user friendly.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

## Statement

Yes

No

Power Apps apps can be built with hot key support and designed so they do not require a touch screen or mouse.

☒☐

Only model-driven Power Apps have support for using a screen reader without the need for a connector.

☐☒

The accessibility checker can be run for your Power Apps app to provide notifications of accessibility violations as well as tips for making it even more user friendly.

☒☐

Box 1: Yes

You can use keyboard shortcuts in PowerApps. Keyboard shortcuts give you an alternate way to do common tasks instead of using your mouse or tapping with your finger. They help in seamless navigation of the interface.

Box 2: No

The following software combinations are the supported recommendations for consuming PowerApps with a screen reader:

Windows: Microsoft Edge / Narrator

macOS: Safari / VoiceOver

Android: PowerApps app / Talkback

iOS: PowerApps app / VoiceOver

Box 3: Yes

Users who have vision, hearing, or other impairments can use your canvas app more easily and successfully if you consider accessibility as you design how the app looks and behaves. If you're not sure how to make your app more accessible, you can run the Accessibility checker in PowerApps Studio. This tool not only finds potential accessibility issues but also explains why each might be a potential problem for users who have a specific disability and offers suggestions on how to resolve each issue. The Accessibility checker detects screen-reader and keyboard issues for you, and you can find information about how to fix color-contrast issues by using accessible colors.

## NEW QUESTION # 222

Drag and Drop Question

A company uses Microsoft Power Apps and Microsoft Azure to modernize its mobile workforce.

The company needs to identify solutions for three use cases:

- An app to audit retail store displays with a tablet-specific layout for its unique screen dimensions
- An app to create sales orders that uses business process flows
- An app to display product information that uses data from a Microsoft Dataverse instance, Microsoft Excel, and Microsoft SharePoint

You need to identify the correct app types to use.

Which app type should you use? To answer, drag the appropriate app types to the correct apps.

Each app type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**App types**

Logic

Model-driven

Canvas

**Answer Area**

**App**

App to audit retail store displays

App to create sales orders

App to display product information

**App type**
