PMI-ACP (PMI Agile Certified Practitioner) Certification Exam is a globally recognized certification that demonstrates an individual's knowledge and skills in agile methodologies. It is an important credential for individuals who work in agile environments and can help them advance in their careers. Preparing for the PMI-ACP Certification Exam requires a significant amount of study and preparation, but it is well worth the effort for individuals who want to demonstrate their expertise in agile practices.

PMI Agile Certified Practitioner (PMI-ACP) certification exam is recognized globally as one of the most rigorous and valuable certifications for agile practitioners. PMI Agile Certified Practitioner certification is designed to demonstrate a practitioner's understanding of agile principles and methodologies, their ability to apply agile concepts in real-world situations, and their commitment to continuous improvement.

PMI Agile Certified Practitioner Sample Questions (Q353-Q358):

NEW QUESTION # 353

What do you mean by Throughput?

- A. Is the amount of production over time
- B. Is the number of features the team can develop in a particular amount of time.
- C. Is the number of features released during a Release
- D. Is the number of defects rectified during a Release

Answer: B

NEW QUESTION # 354

Which of the following is NOT a principle of the Agile Manifesto?

- A. Working software is delivered frequently
- B. Daily team meetings to review progress and address impediments
- C. Close, daily co-operation between business people and developers
- D. Projects built around motivated individuals, who should be trusted

Answer: B

NEW QUESTION # 355

Assuming all projects require the same amount of up-front investment, the project with the highest _____ would be considered the best and undertaken first.

- A. Earned Value Management (EVM)
- B. Net Present Value (NPV)
- C. Internal Rate of Return (IRR)
- D. Budget at Completion (BAC)

Answer: C

Explanation:

Explanation

NEW QUESTION # 356

New stakeholders are joining a project team where the agile coach will educate them about their roles and responsibilities. How should the stakeholders ensure their objectives are met by product delivery?

- A. Tell the team which features to include in the backlog.
- B. Write acceptance criteria for the user stories.
- C. Define how the features will be implemented.
- D. Provide feedback for completed user stories.

Answer: D

Explanation:

The correct answer is A - Provide feedback for completed user stories.

Stakeholder involvement in Agile is ongoing. Their primary role is to give timely and actionable feedback on delivered product increments to ensure alignment with their expectations and business value goals. This feedback is then used to refine the product backlog and guide future iterations.

PMI Agile Practice Guide:

"Stakeholders should engage regularly to inspect product increments and provide feedback to guide value delivery." (PMI Agile Practice Guide, Section 4.2 - Stakeholder Engagement) Mike Griffiths:

"In agile projects, stakeholders ensure their needs are met by actively reviewing completed work and providing feedback to influence upcoming work." (PMI-ACP Exam Prep, Chapter 3 - Value-Driven Delivery) Incorrect options:

* B is the team's responsibility; stakeholders should focus on the "what," not the "how."

* C is the product owner's responsibility.

* D is a collaborative task but not solely a stakeholder responsibility.

NEW QUESTION # 357

In the Lean process, the focus is on:

- A. Cross training the team to eliminate bottlenecks.
- B. Managing team efficiency.
- C. Optimizing completed work across the process streams
- D. Using the optimal resources.

Answer: C
