NIOS-DDI-Expert Training Materials & NIOS-DDI-Expert Exam Torrent & NIOS-DDI-Expert Study Guide

To make sure get the certification easily, our test engine simulates the atmosphere of the NIOS-DDI-Expert real exam and quickly grasp the knowledge points of the exam. Our NIOS-DDI-Expert vce dumps contain the latest exam pattern and learning materials, which will help you clear exam 100%. Please feel free to contact us if you have any problems about the pass rate or quality of NIOS-DDI-Expert Practice Test or updates.

Infoblox Qualified NIOS DDI Expert - INE Sample Questions (Q20-Q25):

NEW QUESTION # 20

What filters are available for Global Search Basic Mode? (Select all that apply.)

- A. DNS Name
- B. IP Address

- C. MAC Address
- D. Record Type

Answer: A,B,D

Explanation:

Comprehensive and Detailed In-Depth Explanation: Global Search in NIOS (top-right search bar) offers Basic and Advanced modes:

- * Basic Mode Filters: Allows quick searches across Grid objects using:
 - * DNS Name: Search by FQDN (e.g., "host.example.com"). Correct.
 - * IP Address: Search by IPv4/IPv6 (e.g., "192.168.1.10"). Correct.
 - * Record Type: Filter by DNS types (e.g., A, CNAME). Correct.
 - * MAC Address: Available in Advanced mode (Data Management > Global Search > Advanced), not Basic mode, which focuses on DNS/IP basics. Incorrect here.
 - * Usage: Enter a term (e.g., "example.com"), select a filter, and view results (e.g., all A records).
 - * Practical Example: In an INE lab, you'd use Basic mode to find all A records for "lab.com," troubleshoot DNS issues, and switch to Advanced for MAC searches. References: Infoblox NIOS Administrator Guide - Global Search; INE Course Content: NIOS DDI DNS Troubleshooting.

NEW QUESTION # 21

An administrator is copying records between DNS zones. What records can be selected for copying? (Select all that apply.)

- A. All records
- B. All records of multiple selected types (for example, A Records and PTR Records)
- C. Individually selected records
- D. All records of a single type (for example, A Records)

Answer: B,C,D

Explanation:

Comprehensive and Detailed In-Depth Explanation: Copying DNS records in NIOS (Data Management > DNS > Zones):

- * Process: Select source zone, choose records, copy to target zone.
- * B: Copy all of one type (e.g., A records) via filter. Correct.
- * C: Select multiple types (e.g., A and PTR) using multi-select. Correct.
- * D: Individually pick records (e.g., "host1 A") via checkboxes. Correct.
- * A: "All records" isn't an option-copying requires specificity (type or selection). Incorrect.
- * Practical Example: In an INE lab, copy A and PTR records from "lab.com" to "test.com," test resolution, and troubleshoot mismatches. References: Infoblox NIOS Administrator Guide - DNS Record Management; INE Course Content: NIOS DDI DNS Troubleshooting.

NEW QUESTION # 22

Which of the following transport protocols are supported by scheduled NIOS Grid Backup? (Select all that apply.)

- A. SCP
- B. FTP
- C. SFTP
- D. HTTPS

Answer: A,B,C,D

Explanation:

Comprehensive and Detailed In-Depth Explanation: NIOS Grid Backup allows scheduled exports of the configuration database (DNS, DHCP, Grid settings) to an external server. Supported protocols ensure flexibility and security:

- * A (SFTP): Secure File Transfer Protocol (SSH-based) is supported for encrypted backups to remote servers (port 22). Widely used for secure transfers. Correct.
- * B (SCP): Secure Copy Protocol (also SSH-based) is supported, offering a simple, secure file transfer option (port 22). Correct.
- * C (FTP): File Transfer Protocol (unencrypted, port 21) is supported for legacy systems, though less secure. Correct.
- * D (HTTPS): Web-based secure transfer (port 443) is supported, allowing backups to HTTP servers with SSL/TLS encryption. Correct.

* Setup: In Grid Manager (Grid > Grid Manager > Backup), you configure the protocol, server IP, and credentials.
* Practical Example: In an INE lab, you'd schedule a backup using SFTP to a remote server, test restoration, and troubleshoot connectivity issues, reinforcing Grid deployment skills.
* Note: All four are explicitly supported per NIOS documentation, making this a comprehensive list.
References: Infoblox NIOS Administrator Guide - Grid Backup; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 23

When scheduling a Member upgrade, what can an administrator select for the upgrade start time?

- A. After Grid Master
- B. After Default
- C. Date/Time
- D. Before Grid Master

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation: Scheduling upgrades in NIOS (Grid > Upgrade > Schedule):

* A: Admins set a specific Date/Time (e.g., "2025-03-14 01:00") for each member or group, controlling exact start times. Correct.
* B/C: "Before/After Grid Master" isn't a UI option—sequence is managed via Upgrade Groups, not time settings. Incorrect.
* D: "After Default" isn't a term in NIOS scheduling. Incorrect.
* Practical Example: In an INE lab, you'd schedule a member upgrade for 2 AM, test staggered rollout, and troubleshoot timing issues. References: Infoblox NIOS Administrator Guide - Upgrade Scheduling; INE Course Content: NIOS DDI Grid Deployment.

NEW QUESTION # 24

You are asked to provide a support bundle while on the phone with Infoblox Technical Support. What can you do to get one?

- A. Use the CLI command "set support_bundle" to get it
- B. Retrieve it from the GM interface by navigating to Grid Manager and downloading from the toolbar
- C. Infoblox Technical Support must generate it
- D. Create a database backup and extract the support bundle from it

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation: Generating a support bundle for diagnostics:

* B: CLI command set support bundle (space, not underscore) generates and downloads a bundle (.tar.gz) with logs, configs, etc. Correct with typo adjustment.
* A: Backup is separate (Grid > Backup)—no bundle extraction. Incorrect.
* C: GUI offers download (Grid > Grid Manager > Toolbar > Download Support Bundle), but question specifies action—CLI fits phone context. Partially correct but not best.
* D: Support assists but doesn't generate—user action required. Incorrect.
* Practical Example: In an INE lab, run set support bundle, transfer it via SCP, and troubleshoot with support. References: Infoblox NIOS CLI Reference Guide - Support Bundle; INE Course Content: NIOS DDI Grid Troubleshooting.

NEW QUESTION # 25

.....

Getting a Infoblox NIOS-DDI-Expert trusted certification is a way to prove your expertise and show you that you are ready all the time to take the additional responsibilities. The RealValidExam NIOS-DDI-Expert certification exam assists you to climb the corporate ladder easily and helps you to achieve your professional career objectives. With the RealValidExam NIOS-DDI-Expert Certification Exam you can get industry prestige and a significant competitive advantage.
