

# FCP\_FSA\_AD-5.0 Reliable Exam Syllabus | Official FCP\_FSA\_AD-5.0 Practice Test

It is undeniable that a secure investment can bring many benefits to candidates who want to pass the FCP\_FSA\_AD-5.0 exam, without worrying that their money is wasted on useless exam materials, and the most important thing is to pass FCP\_FSA\_AD-5.0 exams. In addition, after the purchase, the candidate will be entitled to a one-year free update, which will help the candidate keep the latest news feeds, and will not leave any opportunity that may lead them to fail the FCP\_FSA\_AD-5.0 Exam. We also provide a 100% refund policy for all users who purchase our questions. If for any reason, any candidates fail in the Fortinet FCP\_FSA\_AD-5.0 certification exam, we can help you to refund your money and ensure your investment is absolutely safe.

If you are determined to enter into Fortinet company or some companies who are the product agents of Fortinet, a good certification will help you obtain more jobs and high positions. ITExamDownload release high passing-rate FCP\_FSA\_AD-5.0 exam simulations to help you obtain certification in a short time. If you obtain a certification you will get a higher job or satisfying benefits with our FCP\_FSA\_AD-5.0 Exam Simulations. Every day there is someone choosing our exam materials. If this is what you want, why are you still hesitating?

## Official FCP\_FSA\_AD-5.0 Practice Test & FCP\_FSA\_AD-5.0 Actual Test

If we want to survive in this competitive world, we need a comprehensive development plan to adapt to the requirement of modern enterprises. We sincerely recommend our FCP\_FSA\_AD-5.0 preparation exam for our years' dedication and quality assurance will give you a helping hand on the FCP\_FSA\_AD-5.0 Exam. There are so many advantages of our FCP\_FSA\_AD-5.0 study materials you should spare some time to get to know. Just have a try and you will love our FCP\_FSA\_AD-5.0 exam questions.

## Fortinet FCP - FortiSandbox 5.0 Administrator Sample Questions (Q41-Q46):

### NEW QUESTION # 41

Which three actions does FortiSandbox perform when it is integrated with FortiMail for advanced threat protection (ATP)? (Choose three answers)

- A. It queues email during analysis.
- B. It submits objects for sandbox scanning.
- C. It assigns and returns a rating for analyzed objects.
- D. It analyzes file and URL objects.
- E. It updates FortiGuard databases.

**Answer: A,C,D**

Explanation:

The Study Guide is explicit about the FortiMail-FortiSandbox workflow. It states: "On top of file submissions, FortiMail can also submit extracted URLs from emails to FortiSandbox for inspection. FortiMail queues the email while waiting for a verdict. FortiSandbox inspects all submitted files and URLs. FortiSandbox then generates a verdict and sends that verdict in reply to FortiMail. FortiMail uses the verdict to apply the configured action." This directly supports D because FortiSandbox analyzes file and URL objects. It supports B because FortiSandbox generates a verdict and returns it to FortiMail. And it supports E because the integrated workflow includes the email being queued during analysis while FortiSandbox is processing the submitted objects. Option C is incorrect because FortiMail is the device that submits the objects to FortiSandbox, not FortiSandbox itself. Option A is also incorrect because updating FortiGuard databases is not one of the three ATP integration actions described for the FortiMail workflow. Therefore, the correct three answers are B, D, and E.

#### **NEW QUESTION # 42**

How can you limit an administrator's access to scan jobs on FortiSandbox based on the system that submitted the scan request?  
(Choose one answer)

- A. By configuring access in the log server configuration settings
- B. By configuring netshare groups to define access
- C. By configuring device groups to assign to users
- **D. By configuring administrator profiles that define job access**

**Answer: D**

Explanation:

The correct answer is D. The Study Guide states that FortiSandbox has default administrative profiles and specifically says: "The Read Only profile is intended to be used for system-wide monitoring and reporting tasks, whereas the Device profile is intended to be used for monitoring alerts and reporting for a specific device." That wording directly matches the question requirement to limit access based on the system that submitted the scan request. In other words, FortiSandbox uses administrator profiles to control whether an admin can view broad system-wide activity or only jobs and alerts related to a specific submitting device.

This eliminates the other options. The Study Guide does not describe device groups, log server settings, or netshare groups as the mechanism for restricting admin visibility of scan jobs by submitter. Instead, access control is tied to the admin profile model. The Device profile is the exact fit because it narrows monitoring and reporting to a particular device context rather than the entire system. Therefore, the way to limit an administrator's access to scan jobs by the submitting system is by configuring administrator profiles that define job access.

#### **NEW QUESTION # 43**

Refer to the exhibits.

## FortiSandbox Dashboard

### Partial test-network Command Output

```
Testing system DNS resolve ++++++
Resolve bing.com: Failed
Resolve fsavn.fortinet.net: Failed
<++++omitted output++++>

Testing VM DNS resolve speed ++++++
DNS server via port3: 10.200.2.12
bing.com
192.168.250.1
real 0m 0.11s
user 0m 0.09s
sys 0m 0.01s
nslookup bing.com: Success
fsavn.fortinet.net
192.168.250.1
real 0m 0.10s
user 0m 0.09s
sys 0m 0.01s
nslookup fsavn.fortinet.net: Success
Warning: VM to access internet: Disabled
```

You are unable to download guest VMs on a new FortiSandbox VM. What is the reason for this? (Choose one answer)

- A. FortiSandbox does not have the necessary licenses.
- B. FortiSandbox is using a private DNS server.
- **C. There is no internet connectivity on port1.**
- D. There is no internet connectivity on port3.

**Answer: C**

Explanation:

From the Scanning and Rating Components lesson, the Study Guide explicitly states:

"VM images are downloaded from FortiGuard, using port1. So, you must ensure FortiSandbox has a default route and internet connectivity for port1." The exhibit confirms this - the test-network output shows:

System DNS resolve: Failed for both bing.com and fsavn.fortinet.net

fsavn.fortinet.net is the FortiGuard VM image download server

This DNS failure on the system side (port1) confirms there is no internet connectivity on port1, preventing VM image downloads.

Note that port3 internet shows "Warning: VM to access internet: Disabled" - but port3 is only for VM sandboxing traffic, not for downloading VM images.

### NEW QUESTION # 44

You are asked to create an 802.3ad interface on FortiSandbox with port 2 and port 4. However, when attempting to make the configuration change, you discover that you cannot select port 4 for the aggregate bonding. What are two reasons for this issue? (Choose two answers)

- A. Port 4 is a sniffer interface.
- B. Port 4 does not have an IP address.
- **C. Port 4 is an api interface.**

- D. Port 4 is an administration interface.

**Answer: C,D**

Explanation:

From the Deployment and System Settings lesson, the Study Guide states:

"Other ports, with the exception of port3, can also be configured as management ports from CLI."

"You can set additional ports as management port using the CLI command shown on this slide." From the Lab Guide (Exercise 4 - Using Inline Scanning):

"FortiGate and FortiSandbox communicate through port 4443. Management or API ports grant access through port 4443."

"Enter the following command to enable API access on port2: set api-port port2" Ports that are designated as either administration interfaces or API interfaces cannot be selected for 802.3ad aggregate bonding because:

Option A - Port 4 configured as an administration interface is reserved for management traffic and cannot be repurposed for link aggregation  
 Option C - Port 4 configured as an API interface is dedicated for API communication (port 4443) and is similarly restricted from being used in aggregate bonding configurations  
 Port 4 in the Lab Guide is specifically referenced as the HA communication and management port, confirming these restrictions apply when special roles are assigned to interfaces.

#### NEW QUESTION # 45

You are asked to configure FortiSandbox to use one VM instance for multiple sequential scan jobs without shutting down the instance between each scan job submission. Which scan profile setting must you enable to achieve this? (Choose one answer)

- A. VM scan ratio
- B. Parallel VM scan
- C. Pipeline mode
- D. Adaptive VM scan

**Answer: C**

Explanation:

From the Scanning and Rating Components lesson, the Study Guide explicitly states:

"The Pipeline Mode feature improves performance by allowing to scan multiple files, one at a time, without shutting down the VM instance after scanning each file."

"FortiSandbox will continue scanning files without shutting down the VM instance, as long as the VM status hasn't changed. If the VM status changes, then the VM instance will shut down and will be restored for the next job." This precisely matches the requirement - using one VM instance for multiple sequential scan jobs without shutting down between submissions. The other options serve different purposes:

Adaptive Scan dynamically adjusts clone numbers

VM Scan Ratio controls the percentage of jobs scanned in a VM

Parallel VM Scan runs multiple VMs simultaneously for a single job

#### NEW QUESTION # 46

.....

There is no denying the fact that everyone in the world wants to find a better job to improve the quality of life. Generally speaking, these jobs are offered only by some well-known companies. In order to enter these famous companies, we must try our best to get some certificates as proof of our ability such as the FCP\_FSA\_AD-5.0 Certification. Nowadays, the FCP\_FSA\_AD-5.0 certification has been one of the criteria for many companies to recruit employees. And in order to obtain the FCP\_FSA\_AD-5.0 certification, taking the FCP\_FSA\_AD-5.0 exam becomes essential.

**Official FCP\_FSA\_AD-5.0 Practice Test:** [https://www.itexamdownload.com/FCP\\_FSA\\_AD-5.0-valid-questions.html](https://www.itexamdownload.com/FCP_FSA_AD-5.0-valid-questions.html)

The whole process, from tryout to use, is so easy and convenient Fortinet FCP\_FSA\_AD-5.0 latest dumps materials and can benefit both our guests and us as the great experience of our guests is also our pursuit, If you choose our FCP\_FSA\_AD-5.0 study material, then passing exam will be your minimum target and you can reach bigger than that, A lot of people want to pass Fortinet certification FCP\_FSA\_AD-5.0 exam to let their job and life improve, but people participated in the Fortinet certification FCP\_FSA\_AD-5.0 exam all knew that Fortinet certification FCP\_FSA\_AD-5.0 exam is not very simple.

For more information on iMovie, visit our Digital Lifestyles Exam FCP\_FSA\_AD-5.0 Torrent Reference Guide or Macintosh Reference Guide or sign up for our Digital Lifestyles or Macintosh newsletters.

Consider the similarities between the two, FCP\_FSA\_AD-5.0 The whole process, from tryout to use, is so easy and convenient Fortinet FCP\_FSA\_AD-5.0 Latest Dumps materials and can benefit Official FCP\_FSA\_AD-5.0 Practice Test both our guests and us as the great experience of our guests is also our pursuit.

## Choosing The FCP\_FSA\_AD-5.0 Reliable Exam Syllabus Means that You Have Passed FCP - FortiSandbox 5.0 Administrator

If you choose our FCP\_FSA\_AD-5.0 study material, then passing exam will be your minimum target and you can reach bigger than that, A lot of people want to pass Fortinet certification FCP\_FSA\_AD-5.0 exam to let their job and life improve, but people participated in the Fortinet certification FCP\_FSA\_AD-5.0 exam all knew that Fortinet certification FCP\_FSA\_AD-5.0 exam is not very simple.

If so, it's time to visit ITExamDownload and download real FCP\_FSA\_AD-5.0 Exam Dumps, We will send you the latest version to your email immediately once we have any updating about the FCP\_FSA\_AD-5.0 braindumps.
