You need to prevent guest users from accessing files in Team1. The solution must NOT affect external collaboration with any other teams.

What should you do?

- A. From the Microsoft Teams admin center, set Allow guest access in Teams to Off.
- **B. From the SharePoint admin center, edit the External sharing settings for the associated site.**
- C. From the Microsoft Entra admin center, configure the External collaboration settings for guest users.
- D. From the Microsoft Teams admin center, set external access to Block all external domains.
- E. From the Microsoft Entra admin center, create a Conditional Access policy.

Answer: B

Explanation:

From the SharePoint admin center, edit the External sharing settings for the associated site. Why:
